# THE CANADA FARMER!

THE PAPER FOR FARMERS & HORTICULTURISTS.

## EVERY MAN who has HALF an ACRE of LAND SHOULD HAVE IT.

THIS POPULAR AGRICULTURAL JOURNAL 48 about to enter on its Fifth year, with every prospect of increased success. The imprecedented reception which it has heretofore met with 1 stundoubtedly owing to the fact that it has supplied an urgent accessity long feit by Lanadam Agriculturists. They needed a Journal specially devoted to the elucidation of questions in which they are specially interested as farmers and horiteniturists and they have found in the CANADA FARMER what they required THF 1 ALMI R has received the most flattering commendation from the chief farmers of the Province from the press of Canada, and a official they who are pathaps the best judges—the Agricultural Journalists of Great Britain and the United States.

In the conduct of THE CANADA FARMER, the following ends have been and will be zealously laboured for:

- To arouse public attention, by frank and temperate described in to an questions, scientific, commercial legislative for other wise, specially affecting the farming interest.
- stimulate the ngriculturists of our country to adopt an improved system of husbandry, by blending the lessons of modes a science with the practical experience of the Canadan Uring. dan l'armer.
- 3 To bring under the attention of our farmers all improvem instal home and abroad, worthy of adoption, aftering the management of Field Crops—the Barn Yard—the Stable—the Darry—the Orchard—the Politry Yard—the Apiary—the Kitchen Garden—and the Flower Garden—and toes one in interest in the progress of Bural Architecture and Lindscape Gardening, and all that concerns the domestic economy of the Farm House.
- To mark and report all improvements in Agricultural Ma-chinery [77], new inventors, and promote the adoption of all labor saving machines, in the work of the farm and
- 5 —To keep prominently under attention all that specially concerns the bairy Farmer and the Grazier—the best breeds of Cattle—the best systems of feeding—the most approved processes of theses and builer making—the best mode of packing—and the best market to sell in.

- 6—To keep prominently in view whatever is specially interesting to the Sheep-ruser and Wool-grower—the breeds best adapted to our climate—the best system of winter and summer management—and the varying prospects of the wool-market.
- To afford the Farmers of Canada an ever open medium for addressing their brother Agriculturists throughout the Provinces, suggesting matters of common interest and advantage, and chetting information or advice on practical questions of difficulty or doubt
- To raport concisely the proceedings at Agricultural Shows, Fairs, and Sales throughout the Procures—note tho condition and progress of the Herds and Flocks of prominent Stock breeders, record the importation of Thorough-bred Stock from abload, and publish engavings of First-class Price Amands. Prizo Animals.
- The Watch and report carefully and promptly the actual state and probable prospects of the Produce Markets at home and abroad, and specially promote all movements designed to seem to the best prices in the best markets for Canadian Farm Produce.

#### Toronto Markets.

"Canada Parmer" Office, Nov. 28th, 1867.

THE produce markets have been very dull since our last report, and very few sales have been made.

Flour—Until to day, holders were asking \$6.50 for No. 1 super, with buyers offering only \$6.25. No sales took place. To day sales were made at \$0.60—several tots changing hands at that

with buyers offering only \$6 25. No sales took place. To day sales were made at \$6 60—several lots changing liands at that figure.

Wheat.—The market since our hast report has been quiet. There has been very little animation among dealers, but prices have been firm and well maintained. Spring wheat, in car lots, was offering at from \$1.41 to \$1.42, and a lew sales were made at these figures. Fall wheat in car lots was offering at \$1.60, and a sale was made at that price. Receipts on the street market have been very light. Street prices nominally \$1.25 to \$1.40 for spring, and \$1.50 to \$1.55 for fall.

Outs—The market has advanced during the week. Transactions are principally of a retail nature. Car loads sold during the week at 50c, and retail lots at from 55c to 55c.

Bariey—The market has miss quiet and steady. Sales of car lots G. T.R. harley were made during the week at 75c to b., and of N.R. R. barley at \$0c f. o. b., which may be taken as the present prices On the street market the receipts have been very light, hardly sufficient to establish quotations. Street prices nominally 70c to 80c.

Pras.—The market has been very dult and has nominally declined. No sales have been reported, the lots offering being hold above the views of the bayers. On the street market 70c was paid for a few lots.

Outneal—Very scarce, and enquired for at from \$5.75 to \$6.

Dressed Hops—Receipts by teams and by rall were large. For average hogs from \$5.10 \$5.25 was paid. Extra heavy mess hogs brought \$5.50 and even \$6. Inferior sold as low as \$4.50.

Butter—The market has improved. Soveral large lots, storpack et sold at from \$5.50.

brought \$5.00 and even \$6. Inferior sold as low as \$4.50.

Butler—The market has improved. Soveral large lots, store packed, sold at from 15c to 14c, and a few lot- of dairy at from 15c to 17c. Stocks in the hands of dealers are principally ordinary and medium grades, the former being very dull of sale.

Pork—The quietness in the Quebec Lumber market is having a depressing effect upon the union all lumbering interests, and the usual orders for Me-87 % is from that region are not coming in as first as expected. Holders are are asking \$18.50 for Mess; a few sales being reported at \$18. There is, however, very little doing.
