There are still a number of people who either are unaware of the activities of NFCUS or who would rather voice their loud opinion than take the time to read the bulletins that are posted. NFCUS is a national organization, not an international one.

Some seemed amazed that NFCUS was the reason that students at U. N. B. and other colleges are able to travel to and from college at reduced rates. I'm not sure just how much each of you save during the year, but I know if I show my student's pass down at the S.M.T. I can travel down "to the bush" for twenty-two cents, rather than for forty-five. That has not just started this year. It has been going on for some time. before most of us started to college. That covers Trans-Canada travel; as yet nothing has been settled by the airways.

You may remember the mention of Trans-Atlantic travel, in the last 'dry" NFCUS report that was published. This plan has met with success and several students have passages secured for them at reduced rates. Up to date, 100 passages have been obtained for summer, 1951. As soon as all have been definitely obtained, the figures on expenses will be published. And now the Quebec Seminar

Yes, it was a failure, due to lack of financial support from the provincial government. There is now every hope that 1951 will see a successful one. The topic proposed is: Knowing Canada; it will be studied under these sub-divisions: 1, Economics; 2, History and Geography: 3, Culture.

The proposed site is at MacDonald College and the tentative dates are from Aug. 13-31, 1951. U. N. B. will have three delegates, but as yet, no registration forms have been received. After last week's S. R. C. meet-
