I propose to show you that the ne in which we live is wonderful for disaster and wonderful for bles-ing, for there must be lights an shades in this picture as in all othhas had a rough time since by the hand of God it was bowled out into space. It is an epileptic earth—convulsion after convulsion; frosts pounding it with sledge hammer of iceberg and fires melting it with furnaces seven times heated. It is a wonder to me it has lasted so long. Meteors shooting by on this side and grazing it and meteors shooting by on the other side and grazing it, none of them slowing up for safety. Whole feets and navies and argosies and flotillas of worlds sweeping all about us. Our earth like a fishing smack off the banks of Newfoundiand, while the Majestic and St. Paurand the Kaiser Wilhelm der Grosse rush by. Besides that, our world has by sin been damaged in its internal machinery, and ever and anon the furnaces have broken, and the islands have shipped a sea, and the great hulk of the world has been jarred with accidents that ever and anon threatened immediate demolition.

But it seems to us as if the last has had a rough time since by the hand of God it was bowled out into

Happy Ending of A Long Period of

Suffering

The headache, the pain in the chest, the dizz'ness after eating, all these painful symptoms of Dysepsia were present in the case of Mr. George Lambert, of No. 47 Bruce Street, Toronto. He had suffered for fave wearisome years, and had tuied many medicines and treatments in the effort to free himself from this awful bondage, but with no good result. He was much discouraged, but after awhile remembering having once used Dodd's Kidney Pells with great success for Kidney Prouble, he concluded that if Dodd's Dyspepsia Tablats were as good for the Stomach as Dodd's Pills were for the Kidneys they were the very thing he needed.

Some men are in advance of their age, but women are always a years behind it.

There's a story of a farmer and his son driving a load to market. Of the team they were driving one, was a steady, reliable old grey mare, and the other a fractious, balky black horse. On the way the wagon was stalled and the black horse sulked and refused to pull. "What'll we do, father!" said the father, "I guess we'll have to lay the gad on the old grey." That homely compliment to women: "The grey mare's the better horse," suggests how often when there's an extra strain to be borne it is laid on the woman's back. How often she breaks down at last under the added weight of some "last straw."
