

x. OCTOBER hath XXXI Days, 1814.

The primrose in clusters breathed fragrance around,
And witnessed the vows that were given;
The lark, that sat listening, soared swift from the ground,
And warbled the contrast in—heaven!
You cottage, where woodbines so fondly entwine,
We've chose for our humble retreat,
Where TEARS gentle murmurs raise musings divine,
'Tis there my love's lambkins shall bleat!
