## Brandon Bros. Import Premium Horses.

Brandon Bros., Forest, Ontario, recently imported from Scotland two noted premium Clydesdale stallions which constitute a strong addition to their already splendid stud. Carbrook Buchlyvie, an excellent horse individually, is one of the fashionably-bred kind, being by Bonnie Buchlyvie, the Cawdor Cup and Brydon Challenge Shield winner, which sold at the Seaham Harbor sale for 5,000 guineas. The dam of Carbrook Buchlyvie is Carbrook Violet by the invincible Hiawatha, four times winner of the Cawdor Cup. His grandam was the beautiful mare, Heather Bloom, by the world-famed Baron's Pride. Carbrook Buchlyvie traces back through a long line of splendid Clydesdales that have been successful both in the show-ring and as breeders. In 1915 he had the Clackmannan premium, in 1916 the Dunblane Doune and Callander premium, in 1917 and 1918 the Central Forfarshire premium, and in 1919 the Monkland and District Stock Improvement Society's premium. Carbrook Buchlyvie should do the Clydesdale breed a great deal of good on this side of the ocean. Fyvie Bonus, the other premium horse imported, has had premiums in good Scottish districts and for some years stood in Central Buchan. The Scottish Farmer comments on his breeding thus: "The noted premium horse Fyvie Bonus by the Cawdor Cup champion Revelanta, out of the prize mare Border Cecilia by the well-bred premium horse Prince Cedric, second dam by Macgregor, and third dam by Belted Knight. That can't be beaten for genuine sound pedigree."

Brandon Bros.' stud has been headed by Baron Gartley, but in it are a number of young horses worthy of special attention. Eastfield Charles, a four-year old horse by Baron's Best, was first as a three-year-old at Guelph in 1918 and second in 1919. He is a large horse which could well be utilized in many districts. Rosyth is a five-year-old by Revelanta. He is a well-bred horse and has proven himself an excellent breeder. He comes from grand breeding stock, and is living up to the reputation of his ancestors. Aurelia, a seven-year-old, has been hired, but there is still another, named Earl o' Clay, for sale or hire. He is a good horse and clean, and was twice second at the Highland. In the stud there are also several good two-year-olds which have been in the prize money at many of the leading fall and winter shows. Anyone wishing to purchase or hire a good Clydesdale stallion would find it in their interest to correspond with Brandon Bros., or visit the stud.

The following information is summarized from a  
letter written by the President, Mr. R. J. Cluff:

## BUSINESS

This Corporation has taken over the world's patents, rights and goodwill of the tractor manufacturing business of the Chase Motor Truck Company at Syracuse, N.Y. A plant is now in operation in Toronto with a minimum capacity of 1,000 tractors per annum. Besides helping to supply the home demand, attention will be given to the export trade, obtaining the advantage of the preferential duties in favor of manufacturers within the Empire. The Company can ship its completed product into the United States free of duty, thus having all the advantages with regard to American business as when located at Syracuse, N.Y.

## DIRECTORS

The Directors are well-known Canadian business men with outstanding reputations for directing big enterprises of this nature. They have themselves bought up a large block of this preference stock issue. Capable management and strong financial backing is thus assured.

## EXPORT TRADE

Canada is in an excellent position to secure the tractor business of Great Britain, Africa, India and Australia, as closer economic arrangements, in addition to sentiment, are working towards a preferential treatment of all nations within the British Empire.

Chase Tractors Corporation already has numerous letters from the United States as well as from exporting houses in European countries, asking for the appointment of agencies in the various countries.

## ASSETS

This Preferred Stock is a first claim on the entire assets and earnings. Net assets without any allowance for goodwill, patent rights, etc., according to Balance Sheet of October 31st, 1919, amounted to \$877,635.32 as security for \$750,000 Preferred Stock. Current assets, \$344,873.59.

## EARNINGS

Based on actual manufacturing costs at Syracuse and an output of only 1,000 tractors yearly, earnings will be sufficient, after paying Preferred Dividends and all charges, to provide a surplus equivalent to over 11% on Common Stock. It is planned, however, to double this output immediately; the existing plant has an actual capacity of 5,000 tractors per annum.

After a most exacting investigation, we offer you this stock at

**\$100 per Share, yielding 8%**

With a bonus of 40% of Common Stock

(Four Common Shares with every ten Shares Preferred)

Dividends payable at par in New York
