

Let us buy a 50-cent bottle of Psychine (pronounced Si-keen) from your druggist and give it to you (free) to prove its great value.

Psychine is the greatest vitality builder of the age.

For thirty years Psychine has been curing almost every disease that is due to run-down vitality.

Hundreds of thousands have used Psychine with wonderful beneficial results.

We have received thousands of unsolicited testimonials from people whom Psychine has cured, of in many cases, hopeless ailments.

There are still thousands of people suffering from disease, however, whom Psychine can benefit.

There are still thousands who are trying to cure themselves by wrong methods, who are using dangerous and hurtful medicines.

There are still thousands who are gradually losing their vitality—from whose body the necessary resisting power to disease is slowly but surely slipping away.

There are still those who soon will hear the dread "call in the night" if they do not take prompt action.

To these we have the above message, viz.:

"Let us buy a 50-cent bottle of Psychine from your druggist and give it to you, free, to prove its great value."

That 50-cent bottle of Psychine will tell you more powerfully than mere words can how tremendously beneficial Psychine will be for you.

It will give you an unmistakable indication of its wonderful power to renew the bodily vitality, to strengthen the phagocytes (the white corpuscles), the policemen or scavengers of the body.

* * *

The Surgical Department of the Japanese Army, in the Japo-Russian war, first drew the attention of the scientific world to the function of the white corpuscles of the blood or phagocytes.

Foreign medical men were astounded to see Japanese soldiers with wounds that had not been cleansed or dressed for days, that were apparently dirty, ill-kept, and altogether unsanitary.

Yet these dirty wounds healed marvellously; no army the world had ever known had such a wonderful record

for the recovery of their wounded as the Japanese army.

And all because the Japanese knew how to let the white corpuscles cure.

* * *

There are two kinds of corpuscles in your blood, you know, red and white.

The red carry nutrition, the white are the policemen or scavengers of the body.

Whenever a disease germ enters the body, these white corpuscles attack and literally eat it.

A wound that attracts disease germs from the air is cleansed and healed by billions of phagocytes, or white corpuscles, devouring these unwelcome disease germs.

Any disease can be cured by these white corpuscles if they be in sufficient number or strong enough to attack and devour the germs that cause the disease.

If they are not in sufficient numbers or strength, then the disease germs eat them and disease claims the body.

That's the cause of every disease to which humanity is heir.

* * *

For centuries the cure of disease has been by means of herbs—nature's remedies.

It is only within recent times that we have come to know how these herbs act.

Now scientists tell us they increase the strength and numbers of the white corpuscles or phagocytes.

In Psychine we have some of the most healing and beneficial herbs in the world, herbs that increase and strengthen the white corpuscles.

From Arabia comes one herb, from South America another, China and Japan produce a third, while the jungle of India yields a fourth.

All these herbs are recognized by the medical profession as being the most beneficial to health that they know.

That's why Psychine, in the third of a century it has been made, has cured hundreds of thousands of people who suffered from the following diseases:

- La Grippe
- Bronchitis
- Hemorrhages
- Sore Throat
- Anaemia
- Female Weakness
- Indigestion
- Poor Appetite
- Chills and Fevers
- Sleeplessness and Nervous Troubles
- After-effects of Pleurisy, Pneumonia and La Grippe.
- Bronchial Coughs
- Weak Lungs
- Weak Voice
- Spring Weakness
- Early Decline
- Catarrhal Affections
- Catarrh of Stomach
- Night Sweats
- Obstinate Coughs
- Laryngitis and Dyspepsia

That's why we believe it will be beneficial to you.

Now we don't ask you to take our word for the tremendously beneficial effect of Psychine. Fill out the coupon below, mail it to us, and we'll give you an order on your druggist (for which we pay him the regular retail price) for a 50-cent bottle of Psychine to be given you free of cost.

We will undoubtedly buy and distribute in this manner, hundreds of thousands of these 50-cent bottles of Psychine.

And we do that to show our entire confidence in this wonderful preparation.

A confidence that has been based on our 30 years' experience with this splendid preparation with a full knowledge of the hundreds of thousands of cures it has made.

Hector Gordon, Howick, Quebec.

GOSSIP

In reporting the prize list for swine at the Western Fair, London, class 36 was inadvertently omitted. In this class, Mac Campbell & Sons, Harwich, Ont., who showed Duroc-Jacks, made a very creditable display of the breed, and were awarded first prizes in all the sections in which they had entries, including herd and sweepstakes, and progeny of a sire and dam.

At the Royal Show of 1862, the pigs were thus criticised by Mr. Dent, the steward: "To bring them into a ring would be impossible, for some of them could not even walk from their crates to their pens, and their state of fatness and consequent immobility would have been ludicrous were it not distressing to the animal, and a positive injury to its breeding capacity. It was certainly absurd to see a man sitting beside his pig and holding up its head to enable it to take its supper." At the Royal Show at Wolverhampton in 1871, a Canadian importer paid \$200 for a Middle White sow, which he afterwards discovered could not feed herself, owing to the bulk of her jaws and that she had been hand-fed, her food being made into balls and dropped into her mouth. A pillow was kept under her head when she lay down to save her from suffocation. The purchaser rode in the freight car with her to Liverpool to keep watch over her, but fell asleep by the way, the pillow slipped from its place, the pig was smothered, and the buyer was left a poorer but wiser man.

"Now that the fairs are over for the season," write H. Cargill & Sons, of Cargill, Ont., "those nesting breeding stock should have their minds made up as to what they require in this line, and, if so, the earlier they look around to find such, the more likely they will be to find it. We have had a great season for grass, and all the stock have done remarkably well, and will go into winter quarters in much better condition than usual. The effect of the beautiful season is particularly noticeable in the superior condition of the young things which have had to depend upon their dams for their daily food, demonstrating as it does the wonderful efficiency of milk, and plenty of it, as a producer of good calves. As announced in our advertisement, we have a lot of grand young bulls and heifers to offer at present, and will be very pleased to have any person interested in Short-horns call and inspect our herd, as we usually find that after looking them over, they conclude that some of this blood would do them good at home, and generally arrange to have some of it with them. That it is good stuff to have, a host of perfectly-satisfied customers will gladly vouch for at any time. Try and figure out a visit to see them this fall, and judge for yourself."

OAK LANE SHORTHORNS AND COTSWOLDS

As breeders of Shorthorn cattle and Cotswold sheep, Goodfellow Bros., of Maxwell, Ont., have been in the limelight of public criticism and comparison at many of the leading Canadian shows for many years, where the splendid quality of their Shorthorns has won honors in legion. They are an essentially big, thick lot, carrying a wealth of flesh, and, as a rule, are exceptionally heavy milkers, of the Tibbournes Fancy, Golden Drop, Winsome and Jessamine tribes, many of the older heifers being the get of the Cruekshank Secret bull, Secret Pride, a son of the renowned Cicely's Pride (imp.). The present stock bull, and the sire of all the younger ones, is Top Notch, a Cruekshank Village-bred son of the famous sire, Uppermill Omega. In the herd just now for sale are two 2-year-old and three yearling heifers, and three young bulls, one a red 9-month-old, and the other two roans, 11 months each. The Cotswolds are an exceptionally choice lot, big and well covered. This season's crop of lambs are all by an imported ram, and are all that could be desired for size, quality, type and covering. For sale are fifteen ram lambs, high-class flock-heads among them, and twelve ewe lambs. The firm are also offering for sale one Clydesdale stallion, a bay, rising two, by Imp. Pride of Avon, dam by Imp. Lambton Knight, a big, growthy colt, of character and quality.
