Seldom in so short a time has any clergyman made such a permanent and lasting impression for good on his parish-ioners. SIR—Your Chatham correspondent can-not be very conversant with the workings of the Separate School here, otherwise he would be a little more just in his distri-bution of praise and not bestow it all on the popular head-master.

Any person yisiting the girls' senior and junior departments of this school cannot fail to recognize at a glance the zeal and energy displayed by our good Ursuline ladies in imparting a good sound Catho-lic education to the pupils placed under their care. But why should it not be so? The incare. But why should it not be so? The material they use is strictly Catholic --text-books, etc. Their school rooms are beautifully filled up with religious pic-tures and emblems of our holy faith, so that the very atmosphere of their depart-ments is Catholic. Who, in visiting the boys'junior department, in charge of Miss McBrady, is not forcibly struck with this lady's superior talent both as a teacher and disciplinarian ? Miss McBrady has proved herself one of the most faithful and pains-taking teachers that could take charge of a school; and, although her pupils are all boys ranging from seven to twelve years, yet the order is perfect. But this lady, like our good nuns, has her heart in the work entrusted to her. Nor must we overlook the mixed department composed of the smallest pupils-boys and must we overlook the mixed department composed of the smallest pupils—boys and girls—under the commanding powers of Miss Dunn. This department of our Separate School was only called into ex-istence last New Years, and although it is only Miss Dunn's first school yet she has already shown her abilities as a good teacher

Already I see a possibility of working up branches in Belleville, Brockville, Cornwall, Merrickville and Smithsfalls. It only requires the objects of the association to be known till men readily ask for admission into its ranks; now we learn of some of the best Catholics about to join the association. Since the annual election of officers no less than eleven have applied for membership, nine of whom have been initiated, and two about to be initiated at subsequent meetings. The present staff of officers is all that can be desired, men whose sole desire is to promote the welfare and interests of the association, and an association that pos-sesses such officers cannot fail to succeed, besides all the members of the branch work harmoniously together, each vieing with one another as to who can do the most for the welfare and prosperity of the branch. I was pleased to read the remarks of your Parisian correspondent on the subject of the pins, and I hope before ong to see it an established rule in the association, that all members wear those pins both in the hall, at meetings and on their breasts when travelling or in public and I further hope to see it an established rule that officers must wear their jewels at branch meetings, at least I think branch 9 is to enact a law to that effect for their branch, and doubtless such a law will be made universal. It is gratifying to read of the establishment of two more branches of the C. M. B. A. This makes 23 in Can-ada. That is it, speed the plough, don't stop till it numbers 123. May God bless and protect all the members of the Catholic Mutual Benefit Association.
