AND SUBSCRIPTION BIBLES.

A tresh supply of these has been re ceived this week, so that we have been at length able to fill several orders which much to our discomfort and the inconven ience of our agents have had to wait a long time. We have remaining now a small surplus stock, and we advise all our agents to send in their orders at once, -before a rise in the prices which seems inevitable The publishers have given us notice that they cannot continue to supply us upon former terms, the prices of materials for Book making having risen very greatly in the United States.

The PAPYROGRAPH and ELECTRIC PEN Superseded.

No Copying Press required .- Most simple Process invented. Instant Reproduction without Press or Damping.

One to two hundred copies of Church Reports. This process can be repeated for any number of thous-

HOW IT CAN GREATLY SERVE THE PREACHER.

There are scores of ways in which a clergyman will find this invention of the greatest service to him. It is important that the annual report of his labors, or that the treasurer's or secretary's report, or the report of some committee be placed in the hands of all members : in five minutes a child can take 100 or more copies from the original writing, each one a perfect fac-simile. Thus days of labor, or a heavy printer's bill is saved. Often a pastor will find it of great value to address personal letters to each member; by this process the letters can be prepared in a few minutes. Also programmes and tickets of monthly concerts or entertainments, the topics for prayer meetings, etc. etc.; additional copies (a score or 100 if desired) of a sermon or newspaper article which he wishes to write, tracts for distribution through his neighborhood, invitations to attend his services, all can be done quickly and neatly through this wonderfu

discovery. The whole method is simplicity itself. We deem this method, after examination and use in our office, as far preferable to either 'he PAPTROGRAPI or ELECTRIC PEN, or any other of this class of duplicating processes. Its weight is less than a pounds. There is nothing about it liable to get out of order. The whole process is perfectly

OUR PAPYROGRAPH OFFER WITHDRAWN. We have been astonished at the simplicity, cheapness and efficiency of this new invention, an as it will accompaish with one-tenth the trouble and one sixth the expense the work of the Papyre-graph, we withdraw our offer, made last month, in

favor of this new invention. ORDER AT ONCE, AS THE PRICE WILL

PROBABLY BE ADVANCED. There is a conflict between rival manufacturers for the patent for the process. This rivally has run the price down to \$5.00. As soon, however. the right to the patent will be determined, the successful claimant will most likely advance the price, as he will then hold a monopoly.
