## EMBOSSED METALLIC CEILING

ONE OF OUR DESIGNS.

... These ceilings are made from mild annealed metallic plates in a great variety of designs suitable for every description of buildings, including Hospitals, Churches, Schools, Asylums, Convents, Opera Houses, Offices, Stores, Residences, etc. The many advantages of their use as a modern substitute for wood and plaster lie in the fact that they are light in weight, will not crack nor drop off, consequently no danger of falling plaster; are unquestionably durable, have air-tight joints, are easily applied, are practically fire-proof, are highly artistic, do not harbor vermin or the germs of disease, and possess splendid acoustic properties, in addition to many other points of excellence over any other form of interior decoration. Write for catalogue.
