

# KAY'S GREAT FURNITURE DISPLAY

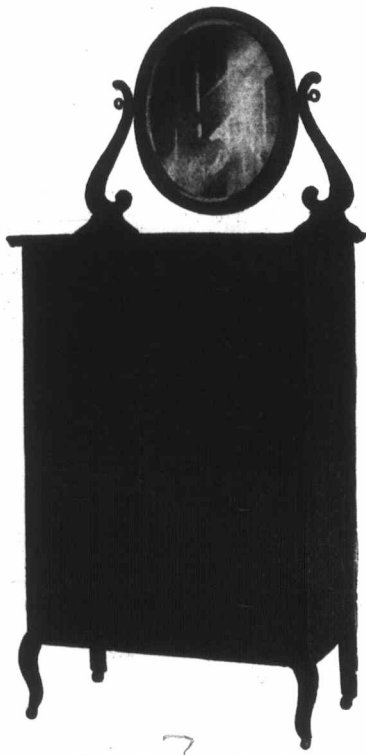

The furniture business of this store has now attained enormous proportions. The stock crowds three immense flats, two gallery floors, and overflows into a fourth floor. It embraces a very complete range of furniture for every room in the house. In its selection the greatest care has been taken that every article shall measure up to our high standard as to design, quality and finish.

As in carpets, draperies and wallpapers a large proportion of the furniture we show is private to us, made to our especial order or imported from houses who sell only to us in Toronto.

A splendid example of the wonderful values we give in furniture of moderate cost is illustrated on this page.

These seven pieces are most tastefully designed on Louis XV. lines. They are veneered with fine genuine mahogany of a very pretty grain and are highly finished inside and out. Unless specially ordered to be polished we ship in the dull finish.

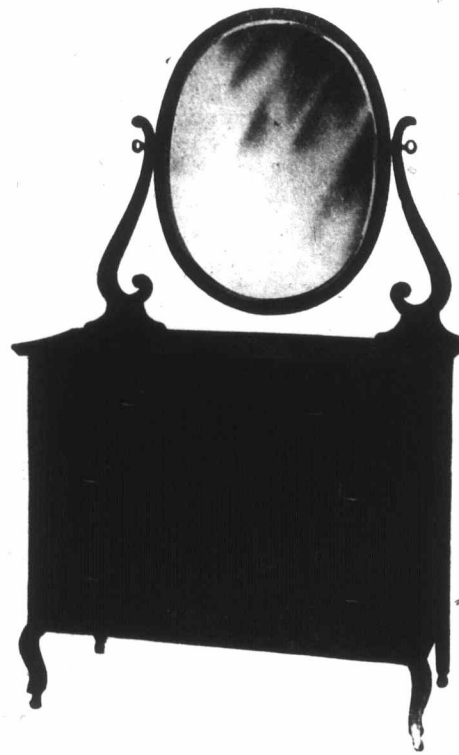

Full particulars as to size and price are marked below each cut. Orders for a single piece or the whole suite will be promptly filled.
