

WALL PAPER and Kalsomine are unsanitary. They are ideal breeding grounds for disease germs.

A coat of Alabastine will destroy every disease germ on the wall. Vermin cannot exist on an Alabastined surface. Alabastine is the most sanitary as well as the most artistic and inexpensive wallcovering. It is a cement, and hardens with age. Its colors are permanent and will not rub off. They give that soft, velvety effect, which can only be produced by Alabastine. Anyone can apply it by following directions. A pail, water, and a flat bristled brush are the only necessities.

The Tireless Accurate Iron Hand

You can operate the Aspinwall No. 3 Potato Planter without the assistance of another man. The Aspinwall No. 3 not only saves you the entire man's pay, but also plants one-third faster than machines requiring two men. The hand that handles the seed on the Aspinwall No. 3 is the iron hand. Unlike the human hand, it never gets tired. It drops 99 per cent. good. You can use different sizes of seed and vary the distance of planting without requiring change of pickers. No other planter can compare with it in accuracy or handle as large a range of seed.

Send for our catalog. We are largest manufacturers of potato machinery in the world, and we can give you valuable facts on profitable potato culture.

## Put "BT" Stanchions and Steel Stalls in Your New Stable

They will make your stable NEATER, BRIGHTER, MORE SANITARY and MUCH HANDIER TO WORK IN than any other construction you can use. No other tie is as comfortable for the cows as "BT" Swinging Stanchions. No other tie keeps them as well in place in their stalls or as clean, for they cannot move back and forward, but still are left perfectly free to get up or down and to card themselves.

The "BT" Stanchion is made in five sizes and can be used with frame construction if desired. Write for free catalogue, giving full information

and showing how the stable should be laid out.

Beatty Bros., Fergus, Canada.

We also build Hay Carrier Goods and Litter Carriers.
