The Canadian Lawyer

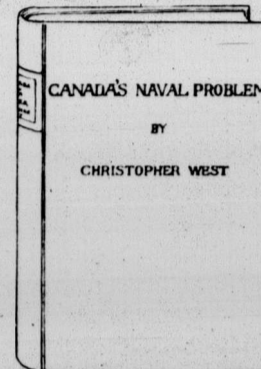

"Ignorance of the law excuses no man." That's law. You can't always "guess" the law. You may not have time to "study" law. Lawyers charge high fees, especially some of them. But you must know law!

This book tells in a simple, direct and plain manner "how the farmer can keep out of law suits." It will protect you against the sharp practice of lawyers, agents, or any person who might like to get you into a tight place. It will help you to do business strictly in accordance with the law, without engaging a lawyer and paying

him \$5 to \$10 for every little bit of ordinary legal advice. Get this book and save your time and money. Farmers are losing many dollars every year through being unacquainted with their legal rights and proper method of redress.

Canada and Sea Power

Here is a book you'll surely want to read! For it shows what a Canadian navy can do and what it can not do. Every lover of his country should seek to get at this truth at whatever cost to national pride. At the present time new forces are gathering in international affairs and the suggestions and facts presented by the author, Christopher West, will surely lead the farmers of the West to a closer study and a better understanding of these forces. If either the Borden or Laurier Naval Policy is adopted it will mean an additional tax of \$25 per year on every farmer's family. Is this tax needed, or shall Canada devote her energy towards peace? That is a question you will be able to answer after reading this famous book.

Sixty Years of Protection In Canada

By Edward Porritt

Is a book that will brush aside all the cobwebs of confusion and point out a clear course for the uplift of the farmers of the West. Many attempts have been made from various viewpoints to advise the farmers upon the Canadian tariff, but the conflicting opinions have confused and mystified rather than made the vision more clear.

Mr. Porritt has written a book that stands absolutely alone. It is the most complete and enlightening history of the Canadian tariff ever written. It will tell you straight from the shoulder in an accurate manner all about the tariff---what it is---how it works---and whom it benefits. In short, the arguments presented in this book in favor of free trade will enable you to confuse the most able protectionist in the Dominion. The greatest industry in the whole world is that of the housewife, whose family assembles around the table three times a day and has to be fed, and when it costs more and more each year to supply our wants, or even the bare necessities of life, we begin to wonder what is wrong. Send for this book and learn how the tariff increases the cost of living.

How to Speak in Public

By Grenville Kleiser

In every walk of life, in every business, and in every profession, the big man is always he who can put his thoughts into words and address effectively a public meeting. The farmer who can do this has a decided advantage over his fellow men. In your spare hours the author will show you how to increase your self-confidence and enable you to get up on the spur of the moment and address your local Association, or your annual convention. In this crisis the organized farmers need a large number of able speakers to further the cause of truth and justice. Get this book and learn how to present in a concise and telling manner your thoughts on the vital questions of the day. "Course of Study" booklet will be given free with every copy.

Farm Management

By G. F. Warren

Read this book and give yourself a greater opportunity to "make good" on the farm. Like the majority of farmers, you have a desire, born of ambition, to succeed in your work. If you are prepared, you have a far better opportunity to be successful than those who have the desire but not the preparation, and one of the essentials of a successful farmer is the ability to manage his farm properly. Good business management on any farm will bring you from \$100 to \$500 more profit per year. "Farm Management" will tell you how to lay out your work to the best advantage; how to save time, labor and machinery. It is the only book of its kind in existence. Every farmer faces the problem of how large a crop he should grow, and of keeping his crop yield up to the highest

point. In Western Canada the fertilizer question in some parts is becoming a problem, and Mr. Warren deals with it from the business standpoint.

This book contains five hundred pages, splendidly illustrated and fully indexed, and is worth at least \$100 to any live farmer.

Costs only \$1.90, Post Paid to any address in Canada.
