FEW MOTOR CARS STORED FOR WINTER

Dodge Brothers Closed Conveyances Good in Any Weather.

The "stored for the winter" tag on motor cars will be less in evidence throughout the country this year than ever before, according to A. S. Digby, Dodge Brothers dealer in this city. There are several reasons, he says. One is the unparalleled business activity now in prospect, which will require incessant use of the automobile for business men. Another is the growing impression that "the motor car made these days is good enough in any weather." Still another, and perhaps more important, is the development of winter cars to the point where cost no longer conflicts with comfort, weather, still another.

In other words, the time has arrived when the average motor car owner will not hesitate between shivering through the winter in an open conveyance, or investing in year-around comfort by using a winter car. The motorist has come to regard it as an actual economy. Tucked away in the warmth of an enclosed car on his way to the office, he no longer finds it necessary to devote the first half hour of his working time to "warming up." As one puts it: "I find wholesome pleasure even in defying the blustery winds; it puts me in a good mood for the morning."

Due to conditions such as these, as well as the prices afforded by the heavy sales last year, Dodge Brothers' dealers are preparing for an exceptional demand. They are now in a position to supply snug winter cars both of the touring and roadster type. Slight alterations in the style used last year make it even more desirable both from the standpoint of taste and comfort. The interior is handsomely upholstered in grey and both the roadster and touring car are fitted with a dome light of a pleasant glow. Doors fit tightly, but open easily and rattling is minimized by exactness of construction. One of the most attractive features of the Dodge Brothers' winter car is the fact that the winter top may be removed with-

OLD FOLKS NEED "CASCARETS" FOR LIVER, BOWELS

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a laxative can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.
