RATES OF SUBSCRIPTION  
THE DAILY PLANET, ONE YEAR \$4.00  
THE WEEKLY PLANET, ONE YEAR \$1.00  
This Planet will be sent free of postage to any office in Canada or the United States.

RATES OF ADVERTISING  
Schedule of advertising rates will be promptly furnished on application to the business office.

TO CORRESPONDENTS  
No notice can be taken of anonymous communications. Whatever is intended for insertion must be authenticated by the name and address of the writer, not necessarily for publication, but as a guarantee of good faith. We cannot undertake to return rejected communications.

TO SUBSCRIBERS IN CHATHAM  
You will confer a favor by reporting irregular service by telephone No. 53 A. The complaint will receive prompt attention.

TO SUBSCRIBERS OUTSIDE OF CHATHAM  
If your paper fails to arrive regularly, or if you suggest a better connection, or a better route, please communicate with the circulation department.

FRIDAY, NOVEMBER 21.

GOOD TIME TO START.

'Way down east, at a little nondescript hamlet whose only claim on passing notice seems to be a neighboring hillock, the residents assembled last night and held a preliminary consultation with a view to pulling off an Old Boys' Reunion next midsummer.

How would it do for this enterprising metropolis to take a leaf from the book of sleeping little Hamilton? Some time ago a couple of energetic efforts were made to arrange a big demonstration of this character in the Maple City. They were temporarily abandoned, largely because the promoters felt that the time was not opportune and preparations would have to be unduly hastened and of a very limited character.

Such disadvantages would not be met with if the matter were taken up now. The Planet has always been an ardent advocate of a Chatham Old Boys' Reunion. Its advantages have often been set forth in these columns. Everybody has already endorsed the idea.

Now is the time to set it practically on foot.

## BANK CIRCULATION.

In connection with the stringency in Canadian currency and the reported action of the banks in increasing their capital in order to issue more bank notes, the Hamilton Spec. makes the very good point that the government should take up the question of increased circulation and issue the notes required instead of the banks, comments the Brantford Courier.

Perhaps it has not been thought of by the average business man outside of the banking fraternity, but one of the principal sources of revenue of the chartered banks is contained in their bank circulation.

Take for instance the Bank of Montreal. This very strong monetary institution issues against its paid-up capital something like \$11,000,000 in bills of the bank. Putting this immense sum of money at the low earn-

\$5 \$5 \$5 \$5 \$5

ing power of 3 per cent and we have the Bank of Montreal receiving \$330,000 per annum from its note circulation alone. All it costs the bank to earn this money is the few thousands of dollars spent yearly in printing and renewing the bills.

A very pertinent question certainly seems to be, why not let the government issue more currency? Why not let the people secure the benefit from increased circulation instead of the shareholders of the various banks? These institutions are doing very well as it is with their dividends of from 8 to 10 per cent, and they ought not to feel hurt if the government should slip in and do a little more circulating on its own account.

## NEWARK "PATRIOTS."

The Brockville Times quotes the following recent press despatches from the Land of the Free:

Newark, N. J., November 16.—The ladies in charge of the patriotic entertainment to be given for the benefit of the St. Rose of Lima church of this city are having trouble in raising funds on account of a report that there was to be a Union Jack table festooned with British flags. The sentiment against the scheme was such that the Rev. Father McKeever was forced to announce at today's service that the report that any British flags were to be displayed was untrue.

We should have thought that the Newark "Patriots" would have welcomed the chance of getting at the Union Jacks, tearing them in tatters, jumping on them and foaming at the mouth after the usual "patriotic" fashion in the United States.

And Bishop Ireland says that "Canadian hearts are beating in love" for the United States!

If you would like to see a regular rousing Old Boys' Reunion and demonstration in Chatham next summer, get into the game right away.

The other day the Hamilton Spectator ran the headline, "A Female Murderess," and many of its contemporaries are making merry at its expense. But then it isn't often that the Spec. gives the little fellows a chance. The Spec. usually goes by the book and, down Hamilton way, is very much the whole tip.

The expert opinion of City Engineer Jones, expressed in last evening's Planet, that the geological strata countenances the verdict that the shale lying below Chatham is similar to that from which vitrified bricks are manufactured so successfully in Massillon, Ohio, should result in a practical investigation. Around Chatham, says Mr. Jones, this shale is about 68 feet deep, but at Florence it comes almost to the surface of the ground. It is needless to say that a vitrified brick manufacturing industry would mean a great thing for this city.

## NO RADICAL CHANGE.

Montreal Star.  
The new minister of marine and fisheries has returned from his first official inspection of the St. Lawrence. It is understood that the Tarte policy of permitting the river to run down hill will still be continued.

## ENERGETIC.

Honolulu, H. I., Mirror.  
The following paragraph appeared in the report of a superintendent of a burgher camp at the cape.

There have been no deaths this month, but there have been three births. We are therefore three to the good. This satisfactory state of affairs is due to the untiring energy of my assistant.

## BRIEF BUT CAUSTIC.

Indianapolis News.  
A Missouri man who went to Washington, D. C., to sell horses, reports the following conditions there: "The people travel on electric cars and do not need roadsters; they ride bicycles and automobiles and do not need trotters; they gamble by wire and do not need race horses, and the government is run largely by jackasses, and there you are."

## WHEN THE COLONEL GOES TO WAR.

Detroit Tribune.  
Kaiser Wilhelm of Germany is colonel-in-chief of the British Royal First Dragoons. Should war unhappily break out between Kaiser Wilhelm and his uncle, King Edward, it would be the duty of the German emperor to take personal command of the British Royal First Dragoons and fight to beat the Dutch. Imagine the Kaiser in a British red coat and white breeches galloping up and down the line opposed to his own and shouting to British Royal First Dragoons, "Rous mit em! Gift em hale, poys!"

## Professional Tip.

Patient—What would you advise me to do for dyspepsia, doctor?  
Dr. de Quack—Well, if you want it real bad, hire a cheap cook and eat irregularly. Two dollars, please!

## Refined Cruelty.

"I have spent a great deal of thought over this poem," said the long haired young man as he placed his neatly rolled manuscript before the editor.  
"Ah!" said the mean man who was toying with the blue pencil. "Thought hard over it, did you?"  
"Yes, I thought long and deeply over every line of it."  
"Well, go back and write one without thinking. You may be able to improve."—Chicago Record-Herald.

## A Physician's Advice.

"What would you recommend for indigestion, doctor?"  
"Pingpong."  
"Is that good exercise?"  
"It isn't that, but indigestion is usually caused by people eating too much, and they can't do it if the dining room table is used for pingpong."—New York Times.

## Used Quite Frequently.

"When I was abroad," said the recently returned, "I was surprised to observe that persons over there do not use their hands in conversation as much as we do. Now, look at that young man and young woman!"  
"Yes; they are deaf and dumb."—Indianapolis News.

A sunny disposition is the very soul of success.

## The Better Way With a Cold.

When a slight cold fastens on you in early winter you are apt to regard it merely as an annoyance—not a thing worth serious consideration. You usually feel like taking something syrupy, with perhaps a touch of spirits in it, to warm you up and stop the cough. But there is a better way.

The cough, the red eyes and uncomfortable head are not the cold. They are only the symptoms. They are like the leaves of a weed sticking above ground. The surest way to get rid of them and prevent their sprouting again is to pull up the root.

You sometimes say, "This cold is all over me." Every cold you have is, to a certain degree, all over you. It is evidence of a slight general weakness. It usually steals in on you at a time when the body is a little below its normal tone and the surest way to get rid of it is to bring the whole system up to its right level.

You may need some medicine. Your doctor will know. But a mere expectorant will do nothing toward restoring the body to a healthy standard. At the best its action is merely local and gives only temporary relief. Scott's Emulsion does this and more.

A small quantity of the emulsion taken regularly for a few days will supply the lack of proper nourishment in ordinary food. It is rich in the substances of which healthy blood is composed, and makes itself quickly felt in the throat and bronchial tubes. It starts the flow of mucous and relieves an obstinate cough sooner than any expectorant will do.

The emulsion does more than rid you of a cough. It rids you of the cold which is the root of the cough. Still more, it helps to protect you against a return of the trouble and against its going deeper.

Scott's Emulsion is aptly termed a food-medicine. It contains the nourishing properties of the whole cod liver oil, emulsified and combined with the medicinal qualities of hypophosphites, of lime and soda. It is probably more widely recommended by physicians for use in coughs and colds than any other preparation.

So-called wines, cordials and extracts of cod liver oil do not contain the value of the whole oil and are worthless in cases where a pure reliable cod liver oil preparation is needed. Scott's Emulsion has been the standard for over twenty-five years.

We will send a sample free to anyone on request.

## "THE ORNAMENTAL NUTMEG."

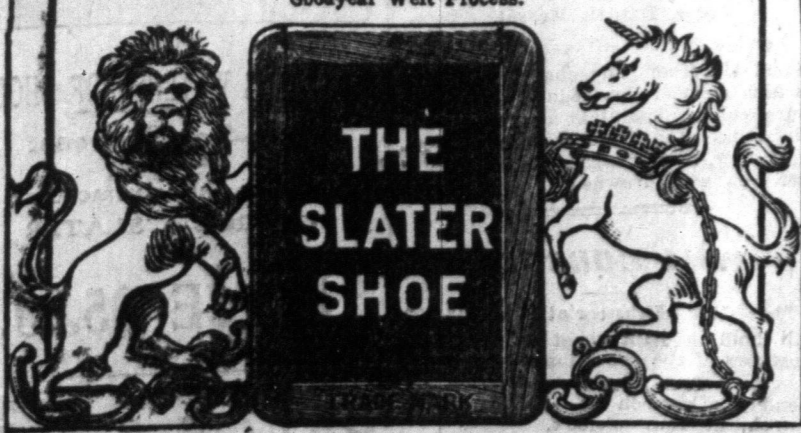

A wooden nutmeg,—a pictured peach,—or a shoddy shoe,—may be so finished as to rank with "Works of Art."

But all three are strictly ornamental! They are made to sell—not made to use. Reliable leather would be wasted in shoes with such a purpose.

The Slater shoe has wear for its first purpose, and so uses such leather for its uppers and soles, as will ensure creditable service.

It is a "Conscience Shoe," and the Makers could not shirk responsibility,—since every pair is sold with their own valuation, stamped on the soles in a slate frame, viz. \$3.50 and \$5.00.

Goodyear Welt Process.
