cemetery.

Alf. Peate, of Chatham; visited Dresden friends on Tuesday.

D. L. Thompson, general agent of the North American Life Assurance Company, spent Wednesday, and Thursday in town.

Thursday in town.

We are indebted to the editor of the Dresden Times for a correction of an error in Tuesday's correspondence. The item in question was the report of the resignation of Rev. S. Bond, pastor of the Methodist church However, the information was given us by one who we believed would be well informed, and, unlike the Times man, we did not question the authenticity of the report. Under the circumstances it is but fair to Mr. Bond to contradict the report, which we have since found out was not correct! Robert Conliffe, of Windsor, was in town yesterday attending the funeral of his mother, Mrs. Jane Conliffe.

Mr. Jackson, well known in Dresden, has moved from Tilbury and tik, en up his residence in Mrs. Perry's house, Sydenham St.

LETTER BOX ------> THE FISH QUESTION.

COLUMBIA GRAPHOPHONE

dae On lario Government from Charthum, Waldachurg, Dresden, Mitchell's Bay and Big Pourt, praying that als net fishing be done away with in the River Tham's, Lake St. Clair and adjoining wayers: Bud so far no ablion has been taken, labrhough no feenses have yet been granted for Lake St. Clair.

Those who are fond of recreation on the water, and they number thousands, don't see why all the fish lof these waters should be menophized by a few so-called fisherm n, and the thousands deprived of their brithright. The people of this section are not allowed even the privilege of being able to buy their own fish; they are all contrasted for at high prices and are shipped to New York.

Mr. Bustedo under in trustical from the Hom Mr. Latchford, has done much towards improving and stocking the inland lakes in Northern Ontario with bass. It is not necessary that the St. Clair waters be re-stocked. Dear Sir,—I see by the paper that Mr. P. T. Bistedo, Deputy Fish Commissioner for Ontario has been trying to get the States bordering on the Great Lakes to adopt a uniform close season for fish in the Great Lakes. At present there is no close season fishermen are allowed to catch fish in the spawning season as will as out of it. In fact the great objection to a close season on the part of the fishermen seems to be that a close season would be in the spawning season, which is the time when the fish are congregated on the spawning

the inland lakes in Northern Ontario with bass. It is not necessary that the St. Clair waters be re-stocked; there are enough fish left to re-stock the waters if they are left alone for a few years. Hook and line fishing can do very little harm in the proper season, but bass should not be taken until after June 1st, when they have left the spawning beds and gone back to deep water. Anglers claim that even if the bass are returned to the water after getting into the hoop nets, a thing they very much doubt, the fish ard so knocked about by being crowded in a small space with coarse season would be in the spawning season, which is the time when the fish are congregated on the spawning beds, and are more easily caught and in greater numbers.

It is very doubtful whether the legistures of the different States which touch on the Great Lakes can be brought to see what is for the general welfare. Fishermen in Ohio and Michigan, for instance, say the white fish keep to the New York end of the lake all the ceason, except when they come up to the western end to spawn, and if they are not allowed to take them then, the New York State fishermen get them all, and that they can't be expected to protect the fish for the other fellows, even if the non-protection does lead to extremination.

And so it goes, and Mr. Bustedo is likely to have a hard time inducing them to protect the fish in the spawning season for their own and our benefit. crowded in a small space with coarse fish that they die.

So the total sweeping out of the nats is the only thing to be done. They also say that Lake St, Clair be-

They also say that Lake St. Clair being a Email, shallow lake, should not be classed with the larger lakes and that all commercial fishing in it land its ir butaries should be done away with, and the waters kept for the use and recreation of the growing population of the people adjoining these waters. them to protect the fish in the spawning season for their own and our benefit.

Some of the States bordering on the lakes were not represented at the meeting lately held at Detrot, plainly showing that they do not intend to fall into line. This being the case, would it not be best for the Ontario government to do what is for the best interests of the people of Ontario?

HOT FIGHT AT PORT ARTHUR

Continued From 1st Page.

making the egress of battleships impossible. This morning he directed a sortic of the torpedo boat flotilla, supported by part of the Russian squadron, against the Japanese. The details are not yet known except that the encounter resulted in the loss of one Japanese torpedo boat and one Russian torpedo boat destroyer.

BUSSIAN OFFICIAL REPORT RUSSIAN OFFICIAL REPORT.

St. Petersburg, March 11.-The Em

St. Petersburg, March 11.—The Emperor has received a message from Viceroy Alexieff, which says—
"Admiral Makaroff commanding the fleet, reports from Fort Arthur under date of March 10:—
"Six torpedo boats which went out to see the night of March 10, four of them being under the general command of Captain Matleussevitch, encountered the enemy's torpedo boats, followed by cruisers.
"A hot action ensued in which the torpedo boat destroyer Vlastini discharged a Whitehead torpedo and sunk one of the enemy's torpedo boats. On the way back the torpedo boat destroyer Stereguschtchi, commanded by Lieut. Sergusareff, sustained damages her engine being disabled and she began to founder. By 8 o'clock in the morning five of our torpedo boat destroyers had returned. When the critical position of the Stereguschtchi became evident I hoisted my flag on the cruiser Novic and went with the Novic and the cruiser Boyarin to the rescue. But as five of the enemy's cruisers surrounded our destroyer, and as their bettleship squadron was anresoue. But as five of the enemy's cruisers surrounded our destroyer, and as their battleship squadron was approaching. I did not succeed in saving the Stereguschtchi, which foundered. Part of the crew were made prisoners and part was drowned.

"On the ships which participated in the night attack one officer was seriously and three others were slightly wounded, but two soldiers were killed and eighteen were wounded.

THE BOMBARDMENT. "At 9 o'clock 14 of the enemy's ships assembled before Port Arthur, and a bombardment was begun with the heavy guns of their battleship squadron at long range. This lasted until 1 b'clock in the afternoon. It is estimated the enemy fired 154 twelvench shells. The damage to our vessels was insignificant, and they are again ready for battle. Our losses were one officer slightly wounded and one soldier killed and four soldiers wounded.

"The illumination of the sea by the

vounded.

"The illumination of the sea by the earchlights mounted at our batteries was mosts attisfactory, and several imes isolated shots from our batteries forced the enemy's torpedo bosts or retire, With the commencement of he bombardment at dawn the guns of he fortress replied to the enemy's tre.

ments.

"A bombardment at such a distance must be considered ineffective, but the Japanese cruiser Takasage is reported to have been seen to suffer serious damage,—the extent, however, it is impossible to ascertain at a distance of five miles. Many shells were fired at a range of seven and a half miles.

Safety For Your Children.

When a mother finds it necessary to give her little one medicine she cannot be too careful as to the remedy employed. The so-called "soothing" medicines always contain poisonous opiates, and these should never be given to a child. Strong drugs and harsh purgatives should also be avoided. An ideal medicine for young children is Baby's Own Tablets, which cure all the minor ills of childhood, and the mother has the guarantee of one of the foremost analysts of Canada that this medicine contains no opiate. Mitton L. Hersey, M. A. Sc., demonstrator in Chemistry, McGill University, says: "I hersby certify that I have made a careful ananysis of Baby's Own Tablets, which I personally purchased in a drug store in Montreal, and said analysis has failed to detect the presence of any opiate or narcotic in them." Analysis is proof, therefore mothers know that in giving their little ones Baby's Own Tablets they are giving them an absolutely safe medicine. Sold by all druggists or mailed at 25c. a box by writing the Dr. Williams Medicine Co., Brockville, Ont.
