

THE ACADIAN

WOLFVILLE, N. S., SEPT. 13, 1895.

Labor Day.

That one day out of the year should be set apart to impress upon the minds of the people the importance and dignity of labor, seems to us most wise.

Board of Trade.

Last Wednesday afternoon in the Horticultural Room of the School Building a meeting was held with a view to forming a Board of Trade for Kings County according to announcement in last week's ACADIAN.

Present—W. H. Chase, Vice-Pres.—S. C. Parker, Secy.—J. H. Eaton, Counsellors—J. W. Caldwell, B. H. Dodge, H. H. Wickwire, M. G. DeWolf, F. F. Mitchell, Wm. Band, W. E. Roscoe, Ralph S. Eaton.

The following regulations for the proposed Board were adopted by a vote of the meeting:

- 1. That the name of the Board be The Board of Trade of Kings County.
2. That the Board shall consist of members residing in the County subject to the conditions of the Act.
3. That the Board shall deal with all matters of trade and commerce relating to the welfare of the County.

4. That the officers shall be President, Vice-President and Secy-Treas.
5. That there shall be a Council of not less than sixteen, looking to representation from each ward and incorporating as far as possible the varied interests of the County.

6. That the annual meeting be held on the second Wednesday in January at such place as shall be decided on by the Council.
7. That the fee for membership shall be fifty cents per annum.

A committee consisting of the President, Vice-President, Secretary, W. E. Roscoe and J. H. Eaton were appointed to draw up by-laws for the Board of Trade, to be presented at first regular meeting.

Rev. Mr Trotter's Salutory.

The Baptist church was filled to overflowing last Sunday morning to greet the new pastor. In his first sermon, Rev. Mr Trotter made a very favorable impression upon the congregation.

Which ever of the two great yachts, Valkyrie III. or Defender, triumphs in the present series of races the victory of the one will be enhanced and that of the other lessened by the knowledge that the British vessel sails under a disadvantage.

Why the American Yacht Wins.

In constructing their yachts the Americans do so with the knowledge that the contents are to take place in their own waters. Their English competitors have, however, to take into account sea voyages out and back across the ocean.

The North West Harvest.

The Montreal Daily Star in discussing the crops of the North West has the following: "The cyclonic picture of that marvelous North-West harvest, which we present with the aid of our army of 'Stars' correspondents in this issue, must make all Canada glad. Plainly it is not a fable; it is a fact. Our representatives have gone over the ground and seen for themselves that this year's crop is—take it all round—unprecedented."
