There's many a man can do your job
As good—or better—than you;
There's many a man to take your place
And be glad of the offer too!

If you want your job, get on with your job,
If not, it's up to you
To quit it now and so make room
For a man more keen than you.

Get on with your job or get out of your job,
Which are you going to do?
We can't waste time on slackers now,
So choose—it's up to you,

It's up to you to make of your job
The best success you can;
If you can't do that it's up to you
To give it to those who can!

For there's many a man to fit your job,
And be proud to have it too;
If you want your job get on with your job,
It's the sporting thing to do.

DEVELOPING PULLETS FOR WINTER EGG PRODUCTION

(Experimental Farms Note.)
For the greatest ultimate success in egg production, pullets, from the time they are hatched, should be so handled that they will not receive any check. From "shell to laying pen" should be one period of continuous growth.
A pullet that is stunted at some stage in its development is a pullet that is ruined so far as heavy continuous production is concerned.

HEN HATCHED CHICKS. The big danger to hen-hatched chicks is vermin. See that "biddy" is treated for lice before the eggs hatch and then, at regular intervals, treat the chicks with a good disinfecting powder. Most of the commercial powders will be satisfactory. Ordinary road dust with a little flowers of sulphur added will serve the purpose.

INCUBATOR HATCHED CHICKS. The period when artificial heat is removed is one when the chickens require close attention, otherwise they are liable to crowd and very little of this will give the chicks a serious set back.

Put wire netting across the corners of the house so that the chicks cannot crowd into them, and trample each other to death. Visit the house several times in the evening and if there is any crowding drive the chicks to the centre of the house and stay with them until they settle down. The sooner the chicks can be induced to roost the better.

During the hot summer weather, be ever on the watch for vermin. Spray the houses occasionally with a good disinfectant and if there are any traces of red mites, keep right after them, as it is good-bye to healthy growth in the chickens if these pests ever get headway.

As soon after "weaning" as possible, get the pullets on to good fresh range. Hopper feeding will be found most convenient. Keep mixed grain and a good dry mash before them where they can have free access to it. See that they have an abundance of succulent green feed and always a supply of fresh water. If buttermilk can be obtained nothing is better to produce healthy, vigorous growth or to bring the pullets into production.

Get the pullets into winter quarters before they start to lay, so that they will not receive any set back.

On housing them, bear in mind the change in conditions. Induce them to consume large quantities of green feed and to exercise for all the scratch feed.

MYSELF

I have to live with myself, and so I want to be fit for myself to know. I want to be able, as days go by, Always to look myself straight in the eye; I didn't want to stand, with the setting sun And hate myself for the things I've done.

I don't want to keep on a closet shelf A lot of secrets about myself, And fool myself, as I come and go, Into thinking that nobody else will know The kind of a man I really am; I don't want to dress up myself in sham.

I want to go out with my head erect, I want to deserve all men's respect; But here in the struggle for fame and pelf I want to be able to like myself. I don't want to look at myself and know That I'm bluster and bluff and empty show.

I never can hide myself from me; I see what others may never see; I know what others may never know; I never can fool myself, and so, Whatever happens, I want to be Self-respecting and conscience-free.

FIVE TRAGEDIES

A man struck a match to see if the gasoline tank of his auto was empty. It wasn't.

A man patted a strange bull dog on the head to see if the critter was affectionate. It wasn't.

A man speeded up to see if he could beat the train to the crossing. He couldn't.

A man touched a trolley wire to see if it was charged. It was.

A man cut out his advertisement to see if he could save money. He didn't.

URGES MORE PUBLICITY

Outside people apparently do not know the advantages Nova Scotia offers as a place to spend the summer in comparative coolness, according to a letter received from New York by J. D. Vair, in which the writer says: "One hears many inquiries here about Nova Scotia for a summer trip and there is no doubt that with advertising, your province would come in for a big tourist trade this summer owing to the high steamship rates to Europe."—Halifax paper.

W. E. MACLELLAN,
Acting District Superintendent.
DISTRICT SUPERINTENDENT'S OFFICE,
Halifax, 15th July, 1921.

There are two kinds of parents: those who have sense enough to raise children, and those who always believe the neighbor's little boy started the fight.

Beauty without modesty is a sorrow forever.

You will find honesty among thieves, truth among fools, but you will find few sparks of manhood, womanhood or principle in a knocker. A thief might have a kind heart; a fool might be a faithful friend; but a man who knocks his home town isn't worth the hole in a doughnut in any sort of human relationship.

MORE Nutrition at LESS Cost

STEW DAYS come oftener in these times of strict economy. But stew days become gratefully welcome when **FIVE ROSES** dumplings add their rare deliciousness to the savory mess.

Light and porous as the crumb of well-risen bread, airy fairy bits of toothsome nutrition.

Did you know that, weight for weight dumplings are over five times as nutritious as beef? The g uten in the flour is "the lean of the meat of the wheat." In easily digested form your stew dumplings made from

FIVE ROSES FLOUR FOR BREADS, CAKES, PUDDINGS, PASTRIES

contain the muscle-building, blood-forming elements so plentifully stored up in the best Manitoba wheat. A little left-over beef or meat scraps will go a long way when you pop **FIVE ROSES** dumplings into the stew, besides jumping up its sustenance value enormously.

Thus are you able to secure more nutrition at less cost.

All about Dumplings for Stews

Send to-day for the famous **FIVE ROSES** Cook Book and learn to bake without waste. In its 144 pages you will find over 200 tested cake recipes, hundreds of directions for pies, biscuits, pastries and 50 infallible rules for bread-making, already in use by over 500,000 ambitious housewives.
