## A Pimply Face or Poor Complexion Quickly Restored

Thousands of young men and women would be handsome and attractive were it not for unsightly pimples, blackheads, and rough uneven skin. Custom seems to recommend lotions and salves, but unfortunately their effect is but temporary. These disfiguring blemishes do not originate in the skin—their birth in every case goes further back, to the blood, which must be cleansed of humors before the pimples depart for good.

A physician who has made a careful study of such cases, says that the quickest cure comes from a blood-building medicine like Ferrozone. The minute Ferrozone strikes the blood its good work begins. Every trace of humor is driven out and the whole life current is supplied with nutriment and health giving qualities. You can always tell a Ferrozone complexion when you see it—the cheeks are clear and rosy, no signs of sallowness—the eyes are bright and expressive because rich, red blood is circulating through the whole system carrying health, energy, and strength with it. Not only will all skin eruptions disappear, but an increase in vital strength, an all round improvement will be apparent. No rebuilding tonic could be more efficient. Get Ferrozone today—Good for young and old, for well folks and sick ones, too. 50c per box, or six boxes for \$2.50 at all dealers or direct by mail from The Catarrhzone Co., Kingston, Ont.

## SAYS WAR PRISONERS CUT UP BEST TIMBER AND GOT NO PAY

KAPUSKASING, March 5.—"We have come here determined to get at the bottom of the problem. We are determined to find out what conditions are, and anxious to hear any suggestions which you may have to offer. None of us is prejudiced. On the contrary, our strongest sympathies are with you. Only your heartiest co-operation can make this inquiry a success."

With this very brief announcement from Mr. W. F. Nickle, M.P., Chairman of the Commission appointed by the Provincial Government to investigate the complaints and charges made by soldier settlers at the Kapuskasing colony, Mr. Nickle and his colleagues, Lieut.-Col. John I. MacLaren and Prof. Sharp, opened their inquiry yesterday morning in the Orange Hall of the colony.

In answer to the question which Chairman Nickle put to each witness, these settlers replied that as soon as the opportunity was given them they wished to leave the camp. They claimed that their experience had been that the colony was absolutely unfit, that the possibilities of success were not what officials had represented them to be, and, further, that "it had been a case of broken promises."

The case of each settler who testified yesterday is now one of almost utter destitution. Their stories were pathetic. With one exception these settlers came into the camp with sums of money exceeding \$500, which did not include Government assistance. They have been here for more than a year. They find that they cannot obtain enough from ten acres, if it happens to be cleared, to sup-

port themselves and families, and it is impossible to find work. If they cannot sell the land all admitted that they were deeply in debt to the Government store and that they knew of no way in which the debt could be paid.

William Hearst, Kitigan, married, with six children, four of whom were dependent upon him, startled the Commission with his story of his experiences since his arrival in April, 1918.

"We have seven months winter, three months black flies and three months rain," said Hearst. "Snow fell last year on September 22nd. I have been drawing logs this winter and have earned \$4 a day, out of which I had to pay \$3.15 for my meals and for horse feed. It's an awful con-

dition, I can't even buy a pair of mitts. I have four cows, but I can't afford to feed them, and as a result all we get is a pint of milk a day. I can't sell them because no one wants to buy them.

Further directors up to fifteen, the number fixed in the bylaws are to be appointed.

By contract dated Sept. 26, 1919, between them and the Company, Albert E. Shahan and Harry A. Hurt, dealers in oil properties, Dallas, Texas, acting for themselves, and Albert C. Rick and W. P. Sims, oil land dealer, Hillsboro, Texas, sold to the Company ten groups of oil and gas leases in Texas, consisting of 11,277.33 acres, for \$846,900.00 per value of stock (64,386 shares); by another contract dated September 26, 1919, between the same parties and the Company, they have sold to it twenty four other oil and gas leases, covering in all 69,380 acres, all in Texas, except 200 acres in Oklahoma, and a 3-13ths interest in the production of other producing oil wells, at prices fixed for each property and totalling \$3,803,362.00. This property is to be paid for by the Company in stock of the Company at par value, the Company having the right to investigate titles and to refuse to complete purchase of any property, the price of which is not approved by appraisers, one of which is to be selected by the Company and one by the vendors, and they to select a third in the event of disagreement, and the Company having the right to take any one of the individual properties at the stipulated price in shares of the Company at par. The vendors agreeing to furnish an abstract of title to the respective pieces of property within ample time for the Company to have same examined in order that the Company may proceed with the appraisal heretofore referred to; all appraisements made are to be made to the Company in writing, without unnecessary delay.

Another contract dated September 26, 1919, has been made between the same parties, giving Hurt and Shahan an option on all of the stock of the company, except 300,000 shares, which is reserved by the company for the purpose of acquiring more oil leases or personal property, and except 64,386 shares and 380,386 shares above referred to, which has been set aside for exchange for properties on the terms therein set out, a copy of which is filed with this prospectus and which may be inspected at the office of the Provincial Secretary of Ontario, where also the other contracts may be inspected. Copies of all of the above contracts may also be inspected during any business day at the office of the Company. The law of Delaware, not calling for any minimum allotment, the contracts are now binding. Shares are not sold subject to call, but fully paid and non assessable, and certificates will only be issued upon payment being made in full, but there is power to sell on 30 per cent. being paid in cash and the balance in thirty, sixty and ninety days, with interest at 6 per cent. per annum from date of contract, and subject to forfeiture for failure to pay any balance.

The preliminary expenses are estimated at under \$5,000.00, the expenses of procuring the properties being borne by the vendors, and the Company paying no part of any expense of Hurt and Shahan in selling the stock optioned to them.

Dated 30th September, 1919.

ALBERT C. RICK,  
PERCIVAL K. FROWERT,  
MARTIN A. PURNELL,  
WALTER H. MARSHALL,

Being all of the Directors of Great State Petroleum Company of Texas (Inc.)

This young Company is a consolidation of the independent oil companies of Texas and Oklahoma. The people affected by this consolidation have all received shares at par in payment of their holdings, and therefore only receive returns as dividends are paid.

We believe that investments in the **THE GREAT STATE PETROLEUM COMPANY OF TEXAS, Inc.**, will be a source of pleasure to the investors, for the reason that the Company is to-day beyond a mere speculation, as it is a decided success. The shares of all well managed oil companies are considered the most profitable class of investment in the world to-day. Successful oil companies require three things, viz: Capable and successful business men to manage and direct its affairs. Experienced and successful oil men to manage and develop its properties. Properties in Proven Oil District. The Company already has the first three, and we are rapidly adding a fourth requirement, which is very essential to successful oil companies, and this is further capital.

The property owned by this Company is so advantageously located that it is our opinion that the Company will result into one of the leading oil companies of to-day. Considering the fact that the management is unexcelled, we know of no reason why the Company's success should not be extraordinarily rapid. The Company earns at the rate of \$800,000.00 per month, or a total of more than 50 per cent. on the entire capitalization, of which less than one-third is outstanding.

Around April of this year stock of this Company will be selling on the New York market for a great deal above par and we would not be surprised if it were selling for at least \$50.00 per share, as the dividends and earnings the company has and will have by then will justify such a value.

Since issuing the prospectus, the Company has increased the production from its oil lands to 10,000 barrels per day, and an added acreage which now makes the entire acreage leased or controlled by this company 95,000 acres. Additional assets added consist of a 5,000 barrel refinery, 200 tank cars and a 45-mile pipe line running from the Burkburnett Field in Wichita County, Texas, to the refinery at Lawton, Okla., together with all pumping stations, loading racks, switching tracks, etc. The line alone is earning the Company \$2,500.00 per day.

Dividends at the rate of 2 per cent. monthly have been declared and paid. Next dividend March 1st.

We would suggest that you make the fullest investigation of this Company and the Board of Directors, and it will be our pleasure to give you any further particulars you may desire. We confidently assure you from the success that has attended this Company in the past, purchasers of this stock, in my opinion, will receive very large returns within the next twelve months.

### RUSSELL SAGE ONCE SAID:

"Pick out a young growing enterprise, make sure it is a business in which large profits can be made, and that it is honestly managed by competent people, and then put your money in it. If you wait until it is a fully developed money-making proposition, you will buy on a four-to-six per cent. basis, while by investing at the start you can get the same thing on a basis that will return a per cent. of hundreds and sometimes thousands."
