anese invitation to the Entente
Allies and America to participate.

London, March 2.—According
to the Daily Mail, it is under-
stood that the Allies have decid-
ed to ask the Japanese to take
any steps necessary for the pro-
tection of the Allies in the Far
East.

Washington, March 1.—Japan's
proposal for action in Siberia has
crowded German Chancellor Von
Hertling's speech into second
place in the consideration of offi-
cials here and there were indi-
cations today that decisions were
being formed which soon would
show themselves in some arrange-
ment of an international charac-
ter to prevent the vast stores at
Vladivostok and control of the
trans-Siberian railway from fall-
ing into the hands of the advan-
cing Germans. The expectation
that President Wilson was
planning to address Congress
very soon in reply to Von Hert-
ling's speech was dissipated to-
day by evidence that the presi-
dent is making no such plans at
the present.

Vologda, Russia, Thursday,
Feb. 28.—By the Associated
Press.—The American and Japa-
nese ambassadors arrived here to-
day on a special train. Their
trip was an uneventful one. An
ultimatum has been handed to
the Russian Bolshevik govern-
ment by the German commander
on the eastern front, who has
given the Russians three days in
which to sign the peace treaty
demanded by the Teutons.
Coincident with this demand the
German advance into Russia has
been resumed. There are ap-
parently three columns of Ger-
mans advancing in several sec-
tors of the line. An attack by
the Teutons near Butte Du
Mesnil resulted in the capture of
a section of a French position,
but an immediate counter-attack
evicted the Germans. The Brit-
ish troops carried out successful
raids north of the Ypres-Staden
railroad and captured a few
prisoners. On the other sectors
of the front nothing of interest
is reported. Among the terms of
peace communicated to King
Ferdinand of Rumania by the
Central Powers, was a demand
that Ferdinand abdicate in favor
of his brother, Prince William
of Hohenzollern. Prince Wil-
liam renounced all claim to the
throne on the accession of his
uncle, Prince Charles, in 1886.
He was in command of a part of
the Teutonic army which invaded
Rumania in December, 1916, and
at that time issued a proclama-
tion declaring himself the right-
ful heir to the throne.

Paris, March 3.—Strong efforts
by German troops to debouch
from the Neuf Chatel, salient
northwest of Rheims, were frus-
trated, the French failed to reach
the Pompele Fort, succeeded only
in gaining a foothold with some
small detachments to the west of
it. A French counter-attack stop-
ped a German advance on a half
mile front in the Champagne.
The text of the statement is as
follows: "The artillery battle
reported yesterday at several
points on the French front from
the Chemin Des Dames to the
Meuse continued all night with
marked intensity, accompanied by
very lively infantry actions, in
the course of which the French
troops retained the advantage.
"Enemy raids on small French
posts southeast of Barria and
south of Juvincourt were repulsed.
"The aggressive enemy action
manifested itself notably in the
region northwest and southeast
of Rheims until the end of the
day. German troops attempted
to debouch from the salient of
Neuf Chatel. The French fire
directed with precision, disorgan-
ized the attacks. Portions of Ger-
man detachments which succeed-
ed in penetrating French advan-
ced positions were driven out by
French counter-attacks.

Enemy Aliens Arrested.

New York, Feb. 26.—Alleged
to be agent in the United States
for German interests who have
been seeking to corner the world's
woolen market, Eugene Schwerdt,
a wealthy wool merchant of New
York and Boston is under arrest
here as an enemy alien and will
be interned. According to Da-

ward's alleged activities
were disclosed to the fuel authori-
ties by the Attorney general of
New York state, Schwerdt's
name having appeared in the
correspondence as Hugo Schmidt,
banker, and alleged paymaster in
the Bolo Pasha case, which the
attorney general investigated.
The plan of Schwerdt and his
associates, according to the at-
torney general was to minimize
the effects of a possible British
economic embargo against Ger-
many after the war by making
it possible for German interests
in America to hoard their great
stocks which it was intended to
send to Germany when peace
came. Schwerdt's son, Eugene,
Jr., employed by Charles E.
Webb, of Philadelphia is said by
the authorities to have travelled
throughout South America ap-
parently for the purpose of pur-
chasing wool. What connection,
if any, this has with his father's
arrest was not disclosed. Sch-
werdt said he did not know why
he had been arrested unless it
was in connection with a ship-
ment of wool he made to Ger-
many, but this was made two years
ago, he said, with the permission
of the American and British
governments. Schwerdt has re-
latives in Germany, according to
his wife, who is American born.

Boston, Feb. 26.—Leon Brin,
who is manager of Boston office
of Eugene Schwerdt, a wool
merchant, arrested in New York,
said that Schwerdt's affairs had
been under investigation by
government authorities some
time, but so far as he knew no
books and papers had been seized
here. Copies had been made of
some of the papers, he said.

Guard Against Explosions.

Washington, Feb. 27.—Regu-
lations designed, among other
things, to prevent at American
ports such disasters as re-
sulted from the collision of
a Belgian relief ship and a
French munitions ship at Halifax
recently, were issued tonight by
Secretary McAdoo, with the ap-
proval of the president. They
provide for rigid control and su-
pervision over the loading and
handling of munitions and the
movement of vessels in the
navigable waters of the United
States. The regulations were
drawn under the provisions of
the Espionage Act and will be
enforced by the collectors of cus-
toms.

asleep while doing sentry duty in
the first line trenches, have been
sentenced to death, but General
Pershing, although he has au-
thority to carry out the sen-

the war department for review.

An attempt to blow up machin-
ery in the plant of the Newburg
Shipyards Company Newburg,
N. Y., was frustrated, but only
after a guard had picked up a
bomb and hurried it out of danger,
but not enough to delay work at

15 the time within which bakers

ert Borden to take charge of the
registration of the man-power of
Canada which it is proposed to
take. Details of the registration,
which it is proposed will include
every male and female between
the ages of 16 to 65, are being
worked out at the present time.
It is a big undertaking, and the
Government is anxious to work
out a plan which will be speedy,
simple and economical as possible.
It is likely that use will be made
in taking that registration of the
census branch.

Bonds and certificates valued
at half a million dollars are re-
ported to have been stolen from
the safe in the office of T. R.
Lalor, M. P. at Dunnville, Quebec.
The thieves are supposed to have
been familiar with the layout of
the office and the combination of
the safe. The robbery is said to
have taken place a week ago. It
was not made public until a Cir-
cular was posted in the Toronto
Stock Exchange containing a list
of the stolen papers.

It is definitely decided that
Japan will occupy Vladivostok
and its vicinity with armed for-
ces as a measure of protection of
her interests and those of the
allies. There is an apparent agree-
ment among the nations concern-
ed that the Japanese apprehen-
sion over the extension of German
influence clear across the Siberia
with a consequent menace to Ja-
pan, should be respected. In this
connection the London Morning
Post's Shanghai correspondent
says that according to the Chi-
nese press China will co-operate
with Japan in the Siberian opera-
tions by sending four divisions.

FLEISCHMANN'S YEAST
TO MAKE GOOD BREAD
You must have Good Yeast
GOOD BREAD is, without question, the most important article of food in the catalog of man's diet; surely, it is the "staff of life." Good bread is obtainable only by using the Best Yeast, the best flour, and adopting the best method of combining the two. Compressed Yeast is in all respects the best commercial Yeast yet discovered, and Fleischmann's Yeast is indisputably the most successful and best leaven known to the world. It is uniform in quality and strength. It saves time and labor, and relieves the housewife of the vexation and worryment she necessarily suffers from the use of an inferior or unreliable leaven. It is, moreover, a fact that with the use of Fleischmann's Yeast, more loaves of bread of the same weight can be produced from a given quantity of flour than can be produced with the use of any other kind of Yeast. This is explained by the more thorough fermentation and expansion which the minute particles of flour undergo, thereby increasing the size of the mass and at the same time adding to the nutritive properties of the bread. This fact may be clearly and easily demonstrated by any who doubt that there is economy in using Fleischmann's Yeast. If you have never used this Yeast give it a trial. Ask your Grocer for a "Fleischmann" Recipe Book.
