their numbers. A public entertainment will be given shortly.

ENGAGED. -M. R. Morrish, a forme pupil of the school here, has been engaged for the next year, at a salary of \$450 to fill the vacancy caused by the resigna-tion of Mr. J. R. Steep. He follows a good teacher, but having had some ex-perience, will likely sustain the good reputation of ihe school.

PRETTY HEAVY .- This place boasts the the county, in the person of Jonathan Millar, who turns the scale on at 290 lbs. Although so large he is said to be one of the most nimble of men, and a short foot race. In addition to this, he is as good natured as he is heavy.

The Benmiller Literary Society held its regular meeting on Friday evening last, when a debate on the following subject took place :- Resolved, that iron is stage; it patiently abides its time, and on more beneficial than wood. The char-man, Mr. John Durst, decided in favor of the negative. The leaders were T. Good and T. Gledhill. This being the Good and T. Gledniii. This being the last night Mr. J. R. Steep would be present, the vice-president called on him for a farewell speech, after which a mediately discovered four tacks at least, hearty vote of thanks was tendered to him for the interest he he had taken in and as he rolls over and sits down to exorganizing the society, which now num- tract these, finds the rest of the paper bers about 50 members.

The social held on the evening following was also highly satisfactory. Tea unas served in the church and after tea ways inspects the points with his forethe evening's entertainment was opened by singing and prayer. The dialogues prepared were then engaged in, and drew much applause from time to time, as each piece was dispensed. The music also being excellent, held the audience in suspense during each piece. The performance closed at an early hour all being highly pleased. Proceeds \$20.

The tea meeting announced to come off at Bethel on Thursday, 21st ult. was a marked success. Although the weather was not all that could be desired, a large number presented themselves for admittance. After all had satisfied the "outer man," the evening's entertainment was commenced by the singing of a select piece by the splendid choir. Rev. T. J. Sabine, the circuit pastor, was then called on, and spoke for a time on the "Building of Character," after which followed an address by Rev. T. C. Landerson, of Benmiller, on the "Relation of the Sabbath School sustained to the Church," followed by an address from the Rev. J. W. Blatchford, of

school, Colborne, and Miss Annie L. Brown, teacher at Oliver's school, West father by Rev. Mr. Pritchard of Auburn. A goodly number of relatives and friends were present on the happy occasion.

T IS UNNECESSARY TO ASK whether WHEELER'S PHOSPHATES AND CALISAYA may be used safely in your special case. Since being an agreeable cordial, acceptable to the most irritable conditions of the stomach, it is the ONE PREPARATION IN EXISTENCE that may be taken without repugance by the most fastidious child or adult for a long period in all forms of debility with positive benefit and absolute freedom from harm. Its action is purely construction, without driving or over-stimulating.

Mr. N. G. Dean of Charleton, Ont., caught a severe cold. In a few days the symptoms became solike to those of consumption that he and his friends became alarmed of the ultimate result. His physician, who thought more of his patient's welfare than of the "etiquette of the profession," recommended Dr. Wilson's Pulmonary Cherry Balsam as the very bed remedy known to human skill, and Mr. Dean entaking it was in a very short time restored to health. It is a genuine pleasure to refe. to such wonderful cures as this in these days of quackery and of "professional etiquette."

The Foresters have decided to meet only once a month, instead of twice. as of a young nail, noted for its keen reheretofore. The are still addind to partee when pressed for a reply, and A tack is a simple, unpretending sort possessing the pecular power, when standing on its head, of causing the cold shivers to run down the back of a man in mere anticipation of what might be.

out the early spring is usually the time elected by them for a grand combined effort, and then they flourish everywhere for at least a month. Since the inaugossession of one of the heaviest men in uration of the time honored ceremonies of house-cleaning every thorough housekeeper-with long experience in the line of duty-so takes up the carpet as to re there are very few who can beat him on tain all the tacks in their original places, thus preventing it slipping from the shaker's hands, nuless the tack breaks or his fingers give out. But the triumph of the tack is not complete at this early with double force. After searching the entire house for a paper of tacks, withdirectly under him, and then, unless he is a man accustomed to put up stoves and joint stove-pipes, the chances of laying the carpet on that evening are slight. ways inspects the points with his forefinger, as the tack instantly loses its head when they come to blows. In argument the tack is sharp and pointed, but the display of either or both depends large'y on the amount of preasure employed by its opponent. In direct contrast to a good joke, the amusement generally begins before you see the point, and this fact is easily demonstrated by walking the floor in your stocking feet, a wellkept room on such au occasion averaging

boards in our college gymnasiums.

There are many foolish things done in this world, and one of the most foolish (and we may add wicked) things is to that Coughs, Colds, Bronchitis, Catarrh, and all Chest, Throat, and Lung Trou-Brown, teacher at Oliver's school, West
