## THE FARMERS' MARKETS

The Edmonton Exhibition this year is to be a farmers' exhibition. Whatever it may have been in other years it can not be said that it has been able to secure the whole-hearted support of the farming community. The farmers attended the fair, it is true, but they too often left their stock and their products at home and did not take advantage of an opportunity to show the visitors at the fair what the Edmonton district can do in the line of agriculture.

Will the farmers of the Edmonton district support the Edmonton fair this year? Have they more reason to support the fair this year than ever before? It is believed that both these questions can be answered in the affirmative. The directors of the Exhibition set out in the first place to devote the fair to agriculture. The strongest appeal is made to the farmers for the live stock exhibit. There are a considerable number of live stock breeders in the province, and to them the directors have to look for support.

The entries are already coming in fast, which is taken as evidence that the exhibit of horses and cattle will be larger this year than ever seen in Edmonton. The running races have not been neglected and will furnish ample opportunity for the admirer of horse flesh to revel to their heart's content in the sport of kings. A more efficient board of directors the exhibition at Edmonton has certainly never seen. For weeks they have been meeting in the Board of Trade rooms every Wednesday night and have discussed every suggestion that has been offered for furthering the success of the fair. They have taken the advice of the farmers and they have taken the advice in every particular where it was felt that the fair stood to benefit. The list of attractions are not to be ignored. Farmers like recreation as well as others, and it is an assured thing that with the list of directors have secured there will be a continuous round of amusement. The fair will be held on June 29 and 30 and July 1 and 2. This is a time of the year when the farmer can best get away from his work on the farm. The activities of the spring season will have a lull and there will be nothing to prevent the whole country side turning out to honor an event which is always of great educational value to the farmer.

The crop situation in the Edmonton district is improving. It is superfluous to tell the local reader what he already knows of the condition of the growing grain. The farmer feels that the weather has been the prospect of a most satisfactory fruiting, and the longer the spell of warm weather continues the better the farmer feels about it. The June rains are sure to come, but they will in all probability come just when they are needed and when the grain is in the best of condition to benefit thereby.

The market shows no change during the week. The offerings in some lines of produce are a little finer than a week ago but prices remain practically unchanged. This was the reply which a Bulletin representative received from several inquiries from Edmonton produce dealers as to the situation in the farmers' markets. Offerings of cereals are still very slight and substitute the theory that there are very few cattle in the country. Hog prices are unchanged. Hay prices are unchanged, but the market is a little easier. Chicago and Winnipeg grain and cattle markets are being seen by referring to the farmers column on another page of the Bulletin.

Quotations.  
The list of market quotations is as follows:  
Feed Wheat . . . . . 75c to 85c  
Barley . . . . . 45c to 50c  
Bran, per cwt . . . . . \$1.20  
Shorts, per cwt . . . . . \$1.35  
Fat Steers, 1,200 lbs. to 5c per lb.  
Cows and Heifers—3/4 to 4 1/2c per lb.  
Hogs . . . . . 7c per lb.  
Calves . . . . . 5 1/2c to 5 3/4c per lb.  
Sheep . . . . . 5c to 5 1/2c per lb.  
Lamb . . . . . 5c to 5 1/2c per lb.  
Slightly Hg . . . . . \$15 to \$24 per ton  
Upland . . . . . \$20 to \$28 per ton  
Dairy Butter . . . . . 22c to 25c per lb.  
Eggs to dealers . . . . . \$1.20 per bushel  
Potatoes . . . . . \$1 to \$1.10 per bushel  
Turnips . . . . . 1 1/2c per lb.  
Carrots . . . . . 2c per lb.  
Parsnips . . . . . 2 1/2c per lb.  
Cabbage . . . . . 8c per lb.  
Beets . . . . . 2 1/2c per lb.

Winnipeg Wheat Soars.  
Winnipeg, Man., June 12.—A local corner resulted in July wheat being boosted up to \$1.20 per bushel, where it hung, however, but momentarily, the price dropping back. This is probably the record price for this option on this exchange.

Father Arrested.  
Vindon, Man., June 12.—The attorney general's department has taken action in the Christian Science healing case, following the recommendation of the coroner's jury. Provincial Constable Ross arrested J. H. Williams, father of the little girl. The preliminary trial will be held next week.

## A BRITISH PEACE MISSION IN BERLIN

Party of Prominent Churchmen and Statesmen in German Capital.

Berlin, June 11.—A party of British clergymen visiting Germany on what is described "A mission of peace," arrived in Berlin at noon today. The delegation probably is the most notable of the kind that has ever assembled in Germany. Among the eminent divines are the Dean of Westminster, the Bishops of Hereford, Southwark, Salisbury and Ripon and the Lord Provost of Glasgow and Edinburgh besides the Earl of Meath, the famous representative of the English church army and Sir David Hunter Blair, the noted Catholic. Among the visitors also is Dr. John Muro Gibson, of Chicago, from 1874 to 1880, but who now is preaching at St. Johns Wood, London. The Berlin authorities and the local clergy are sparing no effort to welcome the guests heartily. There will be five busy days of entertaining and sight-seeing, ending with a visit to Potsdam, where the clergymen probably will be received by the Kaiser. The visit is being watched with unusual interest by the German public, the lovers of peace hoping in the mission of fraternal courtesies by the most eminent spiritual and intellectual men of England and Germany will help to stay the rising tide of suspicion and distrust in both countries. Coming at a time when the speeches of Lord Roseberry, Sir Edward Grey and Admiral Koester, of the German Navy League, have demonstrated afresh the irreconcilable nature of the antagonism on the naval question, influences of this kind are particularly needed.

## LIVELY ROW IN THE GERMAN WAR OFFICE

Zeppelin's Enemies Favor Other Type of Airship and an Inquiry is Ordered.

Berlin, June 12.—Count Zeppelin has enemies in the war office which have set their faces dead against his type of rigid airship and support the semi-rigid system of Major Parsival and the flexible type invented by Major Cross. Adherents to these systems are maintaining the struggle against Zeppelin. The feeling has spread to court circles which always are in sympathy with the war office. News of the feud reached the ears of the Crown Prince, who told the Emperor about it. The latter is much perturbed and has ordered an inquiry. It is expected there will be a scene at the war office when Emperor William receives a report from the investigation. The Crown Prince is making a name for himself in bringing disagreeable matters like this to the father's knowledge. It was he who first told the Emperor of the Zeppelin scandal concerning the knights of the round table, which resulted in his father making a clean sweep from the court of the undesirable elements.

## SOO WANTS DRY DOCK

Ottawa, Ont., June 11.—In connection with the proposed construction of a dry dock at Sault Ste Marie, Ontario, a deputation from the Soo waited upon Sir Wilfrid Laurier and Hon. Wm. Pugsley today and asked for statutory aid for the construction of a dry dock, which is provided for by recent legislation of the Dominion parliament. The deputation asked that the government assist them to the extent of fifteen thousand dollars per year, or three per cent, on an expenditure of half a million dollars, the statutory allowance. The municipality of the Soo has guaranteed \$100,000, provided half a million dollars is spent and work begun by 1910. The ministers promise to give the matter their attention.

## NEW HERCY COURT

Toronto, June 11.—A new court to be built on the site of the Methodist college professors was proposed by the Toronto conference this afternoon. The adoption of the motion was the feature of the day. It was one of the recommendations in the report of the laymen's association and led to a lengthy debate.

## THE REVENUE GROWS

Ottawa, June 11.—The unrevised debit and revenue statement of the Dominion for April and May, the first two months of the fiscal year, shows a revenue of \$13,613,974, as against \$11,899,941 for the same period last year, or a net betterment of \$1,714,033. This is an average of \$87,246 a month, and the average is maintained throughout the twelve months it would mean that the revenue collections of 1907-08 by between ten and eleven millions. The chief source of increase in the receipts is in customs and miscellaneous. The post office department collected fifty thousand dollars more than it did in May, 1908. Expenditure for the month of May was \$3,560,630, as compared with \$2,555,404 in May, 1908.

## EIGHT KILLED IN TEXAS TORNADO

West Texas and the Panhandle Visited by Bad Blow—Wires Blown Down and Details Unavailable.

Fort Worth, Texas, June 11.—Reports received up to a late hour tonight are that at least eight persons were killed as the result of a storm which swept over West Texas and the Panhandle early this morning. One of the more reports states that the town of Hamlin was almost entirely demolished. Sweet Water reports that a passenger train on the K. C. M. & O. railway was blown off the trestle of the west branch of the Brazo river. One person was killed and eleven seriously injured.

## RUSSIAN DESTROYER SANK

St. Petersburg, June 12.—The naval department has received a despatch from the Admiral commanding the Black Sea fleet that the torpedo boat Kambala sank in a storm on the Black Sea. The commander, lieutenant commander, engineer, and seventeen of the crew were drowned.

## PROBABLY 100 KILLED

Paris, June 12.—Official reports up to noon from the south of France say 92 are known to be dead as the result of the earthquake. It is feared the death list will total a hundred. Thirty houses were destroyed at St. Chamas.

## PROTEST AGAINST EXPERT OPINION

C.P.R. in Winnipeg Prevent Expert From Giving Opinion on the Draft Agreement.

In connection with the draft agreement between the C. P. R. and the city there is a feature about which little had been said publicly up to the present. After the agreement had been drawn up early in May last in consultation with F. W. Peters and Solicitor A. S. Bond and later had been amended by the council in committee, it was decided to submit the draft to an expert skilled in dealings with railway corporations in order to ascertain his opinion of the proposed contract.

## BUFFALO HANDLED WITHOUT TROUBLE

Entire Lamont Herd Entrained and Shipped in Three Days Without Mishap.

For savvy about handling buffalo and giving them the "hunch" at the right time and place, the gang of local men who have been assisting in moving the buffalo at Lamont have got all the Montana "greasers" looking like thirty cents, half of which had been spent.

## ATTEMPTED ASSASSINATION

While Detectives Were in the House.

Chicago, Ill., June 11.—A large force of detectives and policemen are searching the city for the bold blackmailer, who, while detectives were in the residence of Dr. J. A. A. Beardsley, 6506 Peoria street, on Thursday, called at the physician's residence and summoning her to the rear door, attempted to assassinate her with a dagger. The attempt upon the life of Dr. Beardsley, who is one of the most prominent woman physicians in the city, followed closely upon the receipt by her of a threatening letter in which the sum of \$300 was demanded by the blackmailer. Although the detectives, who had been sent to her residence for the very purpose of guarding her, were within call, the assassin, after making a lunge at Dr. Beardsley with his dagger, did not fall to the floor, escaped in the darkness. Dr. Beardsley's life was saved by a diamond pin which she carried in her bosom. The dagger aimed by the desperado at the woman's neck struck the pin and the blow was deflected. It cut clean through the dress and under garments of Dr. Beardsley, but did not inflict a wound. The man who attempted to murder Dr. Beardsley is thought by the police to be the same fellow who, it is said, has been doing a big and lucrative business in the southern part of the city, blackmailing women by letters similar to the one which was sent to Dr. Beardsley.

## DRIVEN CRAZY BY NEWSPAPERS

Kingston, June 11.—It is claimed the press that Mr. Hunt was to go over the agreement and they had immediately protested to the city of Winnipeg, whose servant Mr. Hunt is, with the consequence that the deal was off.

## DRIVEN CRAZY BY NEWSPAPERS

Kingston, June 11.—It is claimed the press that Mr. Hunt was to go over the agreement and they had immediately protested to the city of Winnipeg, whose servant Mr. Hunt is, with the consequence that the deal was off.

## QUEBEC LOYAL TO EMPIRE

London, June 11.—The week's brilliant functions in connection with the Imperial Press conference reached a climax tonight with the government's dinner. Earl Grey presided, Premier Asquith, the Archbishop of Canterbury, Colonel Seeley, M.P., and Lords Cromer, Northcote and other distinguished men were present. The Premier proposed the toast of the guests. With high eloquence he claimed there ought to be a sense of interdependence and partnership between governments and the press. It was the duty of the Imperial press to promote to the highest forms and for its worthiest purposes the spirit of Imperial unity. He referred to the one voice and settled conviction with which the statements of both parties had dealt with the question of Imperial defence. Lord Northcote responded. Speaking for two and a quarter millions French Canadians he declared that in all crises Quebec would stand by the Empire.

## EDMONTON'S NEW HIGH SCHOOL

Edmonton's new high school, upon which work will shortly be started will be a leader among a group of city schools which ranks among the best in Canada. The new building to be erected at a cost of \$160,000 to \$175,000 will be situated north of Churchill Avenue and the grounds for the building will comprise the entire two blocks between First and Third streets on that avenue. The plans for the new structure, prepared by R. W. Lines, have been approved by the board and in the course of a few days tenders will be called for. The building will be of brick and will be finished with stone dressings. The interior will be a good as that of the best of the city. The building will be of a rectangular shape, two stories high, with a flat roof and approximate dimensions of 150 by 120 feet.

The general plan of the building is that the basement, which will only rest four feet in the ground, will contain the manual training, domestic science students lockers, general toilet shower baths and also the gymnasium. The latter however will extend in height some distance above the ground floor. The ground floor will contain twenty or twenty-five classrooms, a principal's office. The entry to the auditorium will be from the ground floor but it will be slightly higher as it is situated over the gymnasium. The auditorium will extend for a story and a half and will contain a small gallery, suitably staged, with ante-rooms, etc., and will accommodate 500 people. On the second floor will be found the science accommodation, the large library and reading room and a number of class rooms, besides the teachers' waiting rooms. The plan of the school is intended to be simple and safe for pupils. With the auditorium opening on the ground floor and no pupils above the second flat and with four exits from the building two at the front and two at the rear, there seems to be little chance for injury to pupils in case of panic.

Sets New School Standard.  
The building of this school is much the largest undertaken by the board, and though the need of the building is pressing, the board have been very careful in the maturing of plans, and have tried to avoid a short-sighted policy. The building itself, considering the special accommodation which it furnishes, is practically twice as large as the largest building that has yet been erected by the board. It will in all probability cost between \$160,000 and \$175,000 but it is expected that it will be a solution of the High School problem for at least fifteen years. It will no doubt more than meet the requirements of the city at present but it is expected that at the beginning part of the school, probably the whole lower flat, will be utilized for public school purposes, so that this will ensure that there will be no waste on the expenditure involved, and that the accommodation for high school purposes will be absolutely good and modern both for the present and for the future.

Suprintendent McCraig is inclined to regard the scope of the enterprise undertaken by the board as conservative in view of the expected growth of the city. He also thinks that an expenditure of \$175,000 for the class of service to be provided by the board a moderate cost. He expects 1900 to 1902. The contest closes Tuesday and the boys can telegraph votes to Toronto up till Monday.

## LIFE QUARANTINE FOR DEFECTIVES

U. S. Doctor Has Radical Proposal For Safeguarding the Race From Degeneracy.

Buffalo, N. Y., June 12.—Next year's convention of the associated charities and correction will be held in St. Louis. "Quarantine for all mental defectives, not for forty days but for life," was the keynote of the report of the committee on defectives read at last evening's session of the conference by Chairman Dr. G. M. Murdoch of Polk Pa. Mr. Murdoch said that such quarantine "will prevent more unnecessary pauperism, degeneration and crime and do more for the up-building of our race than any other measure within the power of man. Whether we study the standpoint of philanthropy, or economy we find the one practical solution to be quarantine. This is entirely feasible not at the future but now. To provide adequate equipment for all mental defectives in one of our larger states would not exceed the cost of a single battleship. The welfare of rural communities, juvenile courts, the prevention of blindness and child insurance were among the questions discussed.

## ATTEMPTED ASSASSINATION

While Detectives Were in the House.

Chicago, Ill., June 11.—A large force of detectives and policemen are searching the city for the bold blackmailer, who, while detectives were in the residence of Dr. J. A. A. Beardsley, 6506 Peoria street, on Thursday, called at the physician's residence and summoning her to the rear door, attempted to assassinate her with a dagger. The attempt upon the life of Dr. Beardsley, who is one of the most prominent woman physicians in the city, followed closely upon the receipt by her of a threatening letter in which the sum of \$300 was demanded by the blackmailer. Although the detectives, who had been sent to her residence for the very purpose of guarding her, were within call, the assassin, after making a lunge at Dr. Beardsley with his dagger, did not fall to the floor, escaped in the darkness. Dr. Beardsley's life was saved by a diamond pin which she carried in her bosom. The dagger aimed by the desperado at the woman's neck struck the pin and the blow was deflected. It cut clean through the dress and under garments of Dr. Beardsley, but did not inflict a wound. The man who attempted to murder Dr. Beardsley is thought by the police to be the same fellow who, it is said, has been doing a big and lucrative business in the southern part of the city, blackmailing women by letters similar to the one which was sent to Dr. Beardsley.
