New Year Needs and Ideas.

At the Cochrane Street Church services at the College Hall yesterday two practical and timely discourses were delivered, in the morning, by the Rev. C. A. Whitemarsh, M.A., who took a forward look into the New Year with its needs and ideals. Some of the suggestions thrown out were the more general taking part in the singing of the Church hymns at all services, a larger attendance on the part of all especially the young people at the Sabbath services, from day o-day, and a whole hearted surrender to the progremme outlined by our Lord and Saviour Jesus Christ. The evening preacher dealt with the life work of St. Paul as an apostle and ninister, showing that life is a trenendous conflict, all must understand the things that are happening in the world to-day, and the real meaning of life. God is speaking to everybody we must all cast ourselves on His mercy, there must be more sincere prayers, and faithfulness in religious duties. The references to the war now raging showed that the preacher had a thorough grasp of the situation and was truly British and fair in his remarks. The choir rendered the anthem "Brightest and Best," with solo by Miss Vincent. At the close of the service the Sacrament of the Lord's Supper was administered by the Rev. G. Paine, assisted by the Pastor.

In comprehen ive style he gave a searching and in teresting review from the time of the Revolution down to the present day, of that once hostile nation to Britain but now its principal ally; told of the career of Napoleon, France's greatest warrior; showed how the French peo ple were the most hard-working though the most happy, in the world tions of the city when war broke out, including the damage done on account of the German invasion. The lecture was illustrated with lantern slides, depicting sad scenes, including the parting of the volunteers, who were responding to the call to arms and leaving for the battlefield. The
