War News.

Messages Received Previous to 9 A.M.

BRITISH BOMBARD EL ARISH. LONDON, May 19. British warships and aeroplanes have bombarded the town of Pales-tine, and are believed to have destroyed the fort there, it was announced officially to-day. El Arish is on the Turkish line of communication from Syria to Egypt.

ALLIES DETERMINED TO HOLD OUT.

NEW YORK, May 19. A News Agency despatch from Pe-trograd to-day says that the Allies stand solid for a fight to a finish. They intend to break Germany's heavy sword; they owe this to the unborn generation. This answer to the peace talk made in Berlin was made to-day by Rene Vivani, former French Prime Minister, now Minister of Justice in the French Cabinet. He has been making extensive visits to England and Russia. At the French Embassy he gave the second interview he ha anted since the war began. I am ot qualified to speak on Germany' intentions, continued the French Cab-inet official, but our alliance is more compact than at any time since the war began and is growing stronger. The Allies continue to grow stronger in ammunition and men. They will force her to make full reparation for what she has done. what she has done. There will be no separate peace. The Allies are as one. They have devised an economic entente, and after peace the world will find that the Allies are equally unified. He expressed the greatest pleasure at the results of his visit to ngland and Russia.

ITALIANS EVACUATE ZEGNATOR-TA.

ROME, May 19. The Italian official communication issued here to-day admits the evacuation by the Italians of Zegnatorta and also of the line from Monte Maggio to Sagliodaspio between Tarragnolo Valley and Upper Astico, southeast of Trent, following several days of violent artillery bombardment.

WILL NOT RELAX PRESSURE.

LONDON, May 19. Re the German suggestion that Britain respond to a change of the German submarine campaign, should modify their food blockade, Lord Robert Cecil informed the Associated Press to-day that there was not the remotest possibility that British economic pressure on the Central Powers would be relaxed. He said, we main tain the blockade fully legal under the international law and its reprisal character is merely incidental called forth by the German use of submarines, but by rigid enforcement of the blockade and merely the extension of our rights which we had hitherto found it expedient to use. NO ONE SAVED.

MARSEILLES, May 19. he passengers or crev the French coasting steamer Mira was saved when the ship was sunk as the result of torpedo attack in the Mediterranean on May 16th. Sinking of the steamer Mira was announced by Lloyds in London on Thursday, but no details of the disaster were given. She was a vessel of 3,000 tons, and owned at Marseilles.

LONDON, May 19. It is learned from the Foreign Office that the tension between Sweden and the Entente Allies had been ended ,although no official statement i forthcoming at this time. Lord Robert Cecil, Minister of War Trade, told the Associated Press that an agreement had been reached to-day, bu would give no details. He indicated
