

## Updacious Scenes in French Chamber of Deputies.

Unprecedented Exchange of Inveective in United States Senate.—Experts' Decision expected to have important result.

### PARIS, Feb. 29.

Blows and kicks were exchanged in a turbulent session of the Chamber of Deputies, and the disturbance was only by the forcible expulsion of the agitators by the attendants. The disturbance occurred between the Socialists and the Royalists and Members of the Right—after frequent exchanges of compliments, M. Painlevé's supporters charged across the Chamber and the Right. After frequent exchanges of compliments, M. Painlevé's supporters charged across the Chamber and the Right. After frequent exchanges of compliments, M. Painlevé's supporters charged across the Chamber and the Right.

### PARIS FOR VIRTUOUS ONTARIO.

TORONTO, Ont., Feb. 29. Rejoice to questions, the Government informed the Legislature this afternoon that \$1,018,000 was realized from the tax on race track betting. The total wagered in Ontario was \$36,339,265.

### ATTLE ROYAL IN U.S. SENATE.

WASHINGTON, Feb. 29. A row over Attorney General Clegg's proposed bill to amend the Espionage Act, which would make it a crime to disclose information to the enemy, was the subject of a heated exchange of words between the two sides in the Senate today. The bill was introduced by Senator Clegg, and it was opposed by Senator Clegg.

### MINES LAND IN HONOUR.

WASHINGTON, Feb. 29. The United States Consulate at Cienfuegos, has been fired upon by revolutionists and a detachment of troops from the steamer Deaver has been sent to the aid of the consulate. The United States Consulate at Cienfuegos, has been fired upon by revolutionists and a detachment of troops from the steamer Deaver has been sent to the aid of the consulate.

### REPARATIONS DECISION EXPECTED TO CLARIFY POLITICAL SITUATION.

PARIS, Feb. 29. The report of the Reparations Commission is looked forward to now in official circles to clarify the disturbed political atmosphere in Europe. It is thought it may have an important influence on the forthcoming elections in France and perhaps those in Belgium.

### Hunter's Fight for Life

Animals of Africa—Leopard Killed With His Hands.

In his handsome, well-illustrated "Hunt in Brightest Africa," Mr. F. Akeley, who has collected many of the animals in the African continent, gives an interesting description of his adventures in Africa with such animals as lions, elephants, buffaloes, rhinoceroses, and gorillas. He had many narrow escapes from death, but perhaps none narrower than the following:

"I don't know whether I shot or not, but my chest record is of a tusk which I grabbed it with my left hand and the other with my right hand, and swinging in between them went to the ground on my back. The swinging in between the tusks was purely automatic. . . . I moved my tusks into the ground on one side of me, his curled-up trunk thrust my chest. I had a realisation that I was being crushed, and as I thrust myself flat, face down, just in time, and she passed over me. . . . When I got up I had a great welt on the top of my head which she had caused. As I partially rose there seemed to be an avalanche of gorillas. There was a big fall of black fur, squealing madly, rolling past—actually touching me—in the wake of the old one."

### Using the Axe

The Government has decided for reasons of economy to reduce the temporary staffs in Whitehall offices. Yesterday notices were given to 146 temporary civil servants at the Admiralty that their services would not be required after February 29. Warnings that their services are about to be dispensed with were issued to 700 temporary members of the staffs of various branches of the Ministry of Pensions. The Stationery Office has also received notification of an immediate reduction, while 50 temporary members of the staff of the Paymaster-General's office will leave their posts in a week.—London Daily Mail, Feb. 29.

### Stranglehold.

He pushed her farther and farther until my arm bent over and finally, she could not reach my stomach.

## Inspector Noseworthy

CELEBRATES 44th YEAR IN CONSTABULARY.

Inspector S. Noseworthy celebrates his 44th year in the Royal Newfoundland Constabulary to-day, March 1st, having joined the force under Inspector Carty March 1st, 1880. Inspector Noseworthy has spent his entire service in St. John's, with the exception of one year when he was attached to Carbonear district. Inspector Noseworthy has a record really to be proud of. Joining up in the ranks he saw service in the days when "men were men," and when physical force exceeded perseverance in getting a prisoner to the cells. Duty well performed meant promotion to Constable Noseworthy, and his present rank of Inspector is only second below Inspector General. Mr. Noseworthy during his long service—and he is well fitted for many more years—has been attached to the Mounted Force for more than eighteen years and was also with the Fire Department and in both positions proved himself well worthy of the trust placed in him. At present he is Probation Officer of the Juvenile Court, and the assistance he has given the Court and the good work that he is carrying out has brought forward many well deserved encomiums. In this particular work he has also had occasion to meet many deserving cases that needed relief in some way or other, and he has never failed to report to the proper authorities to have attention given them. Congratulations to the Inspector.

### JUDGMENT GIVEN AGAINST HALLIFAX.

HALIFAX, Feb. 29. Judgment against the City of Halifax for \$60,920.13 was handed down in the Supreme Court to-day in favor of the Canadian Bituminous Paving Company of Toronto.

### LOCK-OUT IN GERMAN SHIPYARDS.

KIEL, Germany, March 1. Shipyard owners here have locked out the entire staff of 10,000 men. This action was taken because the men refused to increase their working hours from eight to nine.

### REVOLUTION IN BULGARIA.

BUENOS AIRES, March 1. Advice from Bolivia received by La Nación reports that the garrison at Chaco, numbering eight hundred, has revolted, and that after marching on Tarja occupied the town. The rebels are said to be provided with machine guns and well armed. One thousand Government troops, advised added, have been sent from La Paz by express train to put down the rising. The barracks of the Republican guard at La Paz have been burned. The Bolivian-Argentine frontier was closed recently.

### NOT LIKELY TO BE ACCEPTED.

NEW YORK, March 1. Captain Anton Helmer, German dirigible expert, yesterday declared he was ready to pilot the Shenandoah on a non-stop dash to the North Pole and return, if Great Britain or any other power threatened to beat the United States to the unexplored Polar regions this summer.

### JUST THE USUAL REVOLUTION.

SAN SALVADOR, Republic of Salvador, Mar. 1. The Gutierrez Government in Tegucigalpa is reported to be negotiating the surrender of Honduras, the capital, to the Rebels who have captured San Pedro in Sula and the port of Tela. General Ferrera has been proclaimed Provisional President. Advice says a quick end of the civil warfare is predicted.

### German Bonds are Peddled in West

Offered at Prices From \$40 to \$80 Per Million Marks.

Winnipeg, Feb. 14.—The mails to Winnipeg and Western Canada just now are carrying many specious advertisements to induce people to part with their money in the hope of making either a very high interest rate, or a profit out of all proportion to the amount invested. . . . A few months ago it was currency of Germany and other European countries that was being offered as the bait to catch the unwary dollar. Now, it is stocks and bonds of European cities that are being offered. But the principle is the same; "figure out yourself what profits you will have when the German exchange has reached one cent, one twenty-fourth of its maturity," says one circular just to hand. Instead of trying to figure out this potential profit, here is a real question: "If one German mark at par is worth 23.82 cents, how long will it take them to come back within even a measurable distance of par when at present they are worth about four trillion, one hundred and seventy billion to the dollar, or put into figures it is 4,170,000,000,000. However the firms selling these bonds do not sell the bonds at any such figure. They offer them at various prices ranging from forty to sixty dollars per million mark bond. So apparently a good-sized profit has already been taken off somewhere."

### WINDSOR, N.S., Feb. 16.—Plant No. 1 of the Avon River Power Company, Limited, was turned on by Premier Armstrong at noon to-day, and Windsor was receiving the advantages of its biggest industrial enterprise, and that of the third largest hydro-electric plant yet created in Nova Scotia. The project, involving an expenditure of approximately \$600,000, is entirely

Enquiry Into Expenditure on Pit-Prop Account Concludes.

Model Farm Expenditure to Be Probed on Monday.

When the enquiry resumed yesterday afternoon, Mr. Hunt called Mr. Frank Archibald, ex-member for Hr. Grace District. Witness related that he had come to give evidence of his own accord.

MR. HUNT asked if the amount of \$27,860.04 was paid to him. Witness said it was sent to him by Dr. Campbell to be placed to the credit of the F. C. Archibald relief account. Hr. Grace. Witness said the cheques were not sent to him direct, but were sent to be placed to the credit of the particular account at Harbor Grace. All cheques on this account were drawn by Messrs. Ford and Sheppard, they having been given power of attorney. All the accounts were kept by these men. Asked who told the Department what amount was required for relief, witness said that weekly he notified the Department and the allocations were for work that had been done. The expenditure was on the building of roads and wharves and this work was authorized by the Department. Questioned about the expenditure for which no returns had been sent in, witness said he kept them in his possession fearing that they would be lost in the rush which had been in evidence at the Department of Mines during the period in question. Witness then produced a book containing a full list of cheques and stubs which he said accounted for every cent received by him on relief account. Witness asked that the cheques and vouchers be examined by the Commissioner and afterwards returned to him. The Commissioner declined the job and told the witness he could have the vouchers at once.

## The Closed Tomb

The sudden decision of Mr. Howard Carter, in charge of the archaeological investigations at the tomb of Tut-Ankh-Amen, to close the tomb and cease investigations, has come as a surprise to the general public, but will be no surprise to those acquainted with the circumstances leading up to this decision.

MONDAY

## A Woman's Woman

A CHARLES GIBLYN PRODUCTION, WITH

MARY ALDEN, in 8 parts

"A Woman's Woman" is an intensely human drama of the home.

"WHERE DID YOU GET THAT FUR COAT?"

Thus the clash between mother and flapper daughter who gave her young heart to an old lover. The father had failed as a business man and husband. The eldest daughter wooed a career. The mother was incidental—just a home-maker. With her house tumbling about her she brought order out of chaos. But not without a sacrifice. She scaled every rung in the ladder of emotion and at the pinnacle of success she scored—Failure.

## Fleet for Wembley

WONDERFUL MODELS OF WHITE STAR LINERS.

A remarkable fleet of model ocean liners will be seen at the British Empire Exhibition at Wembley, opening in April.

They have been built by Messrs. Harland and Wolff for the White Star Line. The services of naval architects and picked shipyard workers were used.

The ships range in length to 20 ft.—the size of many motor-yachts that sail the coasts. A model of the Majestic—the largest passenger liner in the world, with accommodation for 4,000—look three months to construct.

It contains a reproduction of the suite of public rooms in the Majestic. Against this model is one of the Queen of the Atlantic, built in 1942. Comparison of the models gives an idea of the progress made in eighty years.

Two models of liners on the Canadian and Australian services will be shown respectively in a big illuminated model of Quebec Harbour, and in an artificial waterway contained in a reproduction of Sydney Harbour.

## Men Working on the Streets

Not before it was time, a gang of men are engaged on Water Street West levelling the gulches and making traffic possible. This morning a few men were also employed on Duckworth St., which has been in dreadful condition all through the week.

## To Marry Earl of Dudley

Paris.—Following the death of Lionel el Monckton, it is understood that his wife, Gertrude Millar, English musical comedy star, will immediately marry the Earl of Dudley. Both are now at Cannes, from where it is reported that their wedding is imminent.

Baron Rau von Holzhausen, a young German nobleman, shot himself in Gertrude Millar's apartment in London, twenty years ago, after which her husband separated from her immediately. He always refused to consent to a divorce.
