How It Happened.

American Reasons for the Valkyrie's Victory.

The Defender's Defeat Attributed to "Jockeying" and an "Accident."

Fifteen Thousand Yankee Boats of Disappointment Smote the Air Between the Britisher and the Finishing Line First—The Valkyrie Wins by Forty-Nine Seconds—Other Sporting Events.

YACHTING.

THE DEFENDER'S DEFEAT.

New York, Sept. 11.—Close jockeying between the British and American combatants for the America's cup in the race off Sandy Hook yesterday resulted in an accident to the American boat which spoiled the race. Fifteen thousand persons on steamboats, tugs, steam yachts, and ocean steamers, sent up a groan of disappointment when the Defender was crippled before their eyes. While no one suspected the owner of the visiting yacht of such unorthodox conduct as intentionally fouling the Yankee yacht, yet the way he raked his great steel boom over the deck and tore down the other fellow's rigging and then sailed away at his best pace over the course was not pleasant to patriotic Americans to contemplate.

The boats, in jockeying for position, had shown some of the fiercest work that has been seen here, which resulted in the Valkyrie obtaining the headward position. As the two boats headed for the line, there was a sudden change of position in the crowd when it was discovered that the Valkyrie had the lead. Both finally approached the starting line with Valkyrie leading and to the windward of the Defender. Had both held their course there would have been no trouble, but the anxiety of the British skipper to get his boat over the line first and to the windward of the Defender made it a question whether he would not cross before the starting gun sounded. To prevent such a predicament the Valkyrie broke away a trifle and eased out her sheet. The main boom of the Britisher swept over the deck of the Defender, carrying away the topmast shrouds on the starboard side and tearing out the jaws of the spreader. The topmast cracked and was badly sprung. Just as the crash came the starting signal was given, and the Valkyrie sped away like a rocket. The Defender was luffed in the wind. The jib topsail lowered and the wreckage removed. Mr. and Mrs. Iselin, Nat Nereshoff, Woodbury Kane, Newbury Thorne, Herbert C. Leeds, and David Henderson, the representative of Lord Dunsraven.

There was a good sailing breeze. It was a good day for the Valkyrie, but it would have been a better one for the Defender had she not met with the accident. The weakened topmast of the Defender saved her from being completely wrecked. The Valkyrie carried, and she could not keep the pace set by the Dunraven boat.

In the heat of ten miles to windward of the first turn the Valkyrie gained an advantage of two minutes and fifty-two seconds. At one time she led by fully a mile, but as the wind freshened from the six knots at the start to fifteen at the first turn and eighteen shortly afterwards the Defender, crippled though she was, began to gain.

The second leg of the race was a broad reach, and the Valkyrie used a balloon jib topsail, while the people on the Defender were content with a bay jib topsail. In spite of her handicap the Defender gained seven seconds on the second leg.

On the run home the Defender increased her speed, gaining one minute and seventeen seconds. The time allowance of the Valkyrie to the Defender is twenty-nine seconds, and allowing for this the difference between the Valkyrie's time over the course and the Defender's time was only 47 seconds. The course was 20 miles and triangular in form—ten miles to each "leg."

On the Valkyrie with Lord Dunsraven were Arthur Glennie, H. Mastland, Kewey and J. R. Bush, of the America's cup committee. Lord Dunsraven's daughters did not sail on the yacht. They saw the race from the deck of a steam yacht. On the Defender were

Have You Read

Something good to read in any department of literature? If so, come and look over our stock. We have thousands of volumes to choose from at all prices.

Anderson's

183 Dundas Street.

Mr. and Mrs. Iselin, Nat Nereshoff, Woodbury Kane, Newbury Thorne, Herbert C. Leeds, and David Henderson, the representative of Lord Dunsraven.

At the turns and during the race the attendant fleet gave the yachts plenty of room. The warning whistles of the patrol vessels were heeded and no serious interference with the yachts occurred at any time. At the finish there was the usual scene of excitement, with Americans for once saluting a British yacht. The Defender received the greater ovation of the two. Her plucky fight elicited much praise from yachtsmen.

Tomorrow a new topmast will be put on the Defender.

The regatta committee stopped their boat on the way to the city, and Mr. Iselin made a verbal protest in regard to the fouling. Mr. Rush, the club representative, on the British boat, was asked by the committee to present his version of the affair. At 10:30 the following notice was posted on the bulletin board of the New York Yacht Club:

"The Defender protests the Valkyrie on the ground that she bore down on her just before reaching the starting line, thereby causing a foul which resulted in the carrying away of her spreader and the springing of her topmast."

Commodore Smith, of the America's cup committee said his faith in the Herreshoff boat was tremendously strengthened, and that the cup was safe.

The Valkyrie finished first at 2:55:22. The Defender was two minutes, eighteen seconds behind at 2:57:40. The elapsed times were: Valkyrie, 2:55:10; Defender, 3:56:25. The Valkyrie allows the Defender 29 1-10 seconds, and the Valkyrie started one minute, two seconds ahead.

The corrected times are: Valkyrie, 3:55:09; Defender, 3:55:56. The Valkyrie won by 47 seconds, corrected time.

NOT A BETTING MAN. As the statement has gone the rounds that Lord Dunsraven has offered to bet \$10,000 to \$15,000 on the Valkyrie, he was asked if it was true.

"No, it is not," he replied, emphatically. "I'm not a betting man. Why should I bet, when I know but little about my own boat, and nothing at all about the Defender? People are asking me quite frequently what my chances are, and what I think of the race. In other words, I am asked what are the relative merits of the two boats. That is an absurd question. How can I tell with my present imperfect knowledge of my own ship and my entire lack of knowledge of the Defender?"

"Then the report that you were willing to wager the Valkyrie on the result of the cup races, is equally false."

"It certainly is. As I told you, I am not a betting man. Consequently I have made no offer to wager anything."

EASTERN LEAGUE SCORES—TUESDAY.

At Wilkesbarre—R. H. E. 11 2
Wilkesbarre..... 6 10 1
Providence..... 5 10 1

Batteries—Keenan and Diggins; Hodson and McAulley; Umpire—Shannon.

THE LEAF'S EASILY BEATEN.

Guelph, Sept. 11.—The game between the amateur champions of Canada and Toronto was easily won by the latter. The Leafs got only six hits off Dineen, but two of them were home runs by Bradford and Downs. The latter player was called out for not touching second bag. Benzle, of the Leafs, made a great running one-hand catch and pounded out 19 hits. Attendance 1,200. Score:

Leafs..... 7 6 7
Toronto..... 13 9 4

Batteries—Bradford, Wood and Powers; Dineen, Lake, and Casey. Earned runs..... 13 9 4

FLYS.

Second Baseman King, of Augusta, who broke both of his legs sliding to a base some time ago, had a benefit at Brockton which netted the unfortunate player about \$700. King was present at the game with his knees encased in plaster of paris casts reclining in a landau.

It is a notable fact that the majority of this year's umpires in the big league have been pitchers at some time in their professional life. Emslie, Keefe, Galvin and O'Day are the prominent examples of the theory that a pitcher should make a good umpire.

Teams from the First and Southern Congregational Churches played ball Monday, the former nine winning by a score of 17 to 15. Batteries—Rock and Johnston for First; Dixon and Perry for Southern.

RACING AT WINDSOR.

Windsor, Ont., Sept. 11.—Only one favorite came to the front today, the other four races going to outsiders. Weather clear; track fast. Summaries:

First race, 6 1-2 furlongs—Caesar 1, Atter 2, Queen Boss 3; time, 1:22.

Second race, five furlongs—Lillian 1, Tarantum 2, America 3; time, 1:01 1-2.

Third race, 5 1-2 furlongs—Cossack 1, Bird Catcher 2, Jennie June 3; time, 1:03.

Fourth race, six furlongs—Lucinda 1, Spittire 2, Buck Knight 3; time, 1:15.

Fifth race, 1 1-8 miles—Montepensio 1, Midstar 2, Florence 3; time, 1:48 1-2.

THE MIRROR FOR WHEELMEN.

A device to enable bicycle riders to observe vehicles, etc., approaching from the rear without being obliged to turn and look back has been patented. The attachment consists of a yoke shape or arch bar fastened

onto the handle bar of the bicycle by means of two clamps, and supporting a mirror, which is hinged to a V shaped keeper, so that it can be removed up or down the standard bar by passing the two ends of the keeper together and releasing at the desired height. The mirror itself may be placed at the inclination desired for distance or nearby observation by simply pressing it in the desired position, where it will be held by pawls catching into the toothed keeper. The adjustment of the mirror to the proper place can be done with one hand only while riding. All the parts of this bicycle attachment are very simple and not liable to get out of order.—[Philadelphia Record.]

QUOTING.

LONDON CHALLENGED. The Forest Quot Club would like to make a match with any team, eight men, in Western Ontario, and are particularly anxious to play the London Club, which claims the championship of Ontario.

PRELIMINARY HEATS.

The preliminary heats of the junior singles, entered for the London Rowing Club's regatta on Saturday, were rowed off on the Springbank course last night, resulting as follows: F. Kerrigan in a well-rowed race by one length.

Second heat—Ernie Trafford defeated Charles Hunt by half a length.

Third heat—G. Loring defeated W. E. Bayley by two lengths.

Owing to the darkness the semi-finals of this class will be rowed off this evening after the heats of the junior doubles.

The starter was H. Morris; judges at finish, Huff and Dimmen, referee, F. Bereford.

LONDON BATTERY BOYS

Alternate Pleasure and Business at Port Stanley—Shell Practice at Lake Targets.

(Special to the "Advertiser.") Port Stanley, Sept. 11.—Sunday passed off nice and quiet. In the afternoon the men, off duty, dressed up and went out walking, and artillery uniforms could be seen in almost any direction, for it seemed that the men were anxious to know the geography of the country thoroughly so as to make use of the occasion demanded.

In the evening quite a number attended the different churches and by "lights out" everybody was in camp.

Monday came in cool and cloudy and looking very much like rain, but by 10 o'clock the sun shone out and gave promise of a fine day, but after dinner it clouded up again and started to rain in a way which looked like business.

During the afternoon a large hawk flew over the camp and lit in a tree a short distance away, it caused quite a few remarks to be passed as to whether it could be shot with a rifle, the distance, when Sergeant Major Taylor settled the dispute by taking a carbine and killing it. Quite a cheer was raised when it fell to the ground, and when picked up it was found that the bullet had passed fairly through the body, distanced between 150 and 200 yards. If the gunlayers do as well as this at ranging it will be rather hard with the targets.

It is expected on Wednesday and will consist of marching, past, field maneuvers, question to officers, non-commissioned officers and men, and shell practice at targets out in the lakes.

The men are enjoying splendid health. Not one has yet reported sick, nor has there been any complaint as to rations.

It is expected that Lieutenant Shaw-Wood has lost no time, while at the School of Gunnery, by the easy manner in which he handles the battery, when in command. He keeps them good and busy on the field and shows everybody that field artillery exercise is no play.

A cooks' parade was organized this evening and Sergeant Grant was elected Cooks' General-in-Chief. Several magnificent instruments were produced. The cooks dressed up in fancy costume and a regular concert and side show was given. After a short march they were entertained by Dr. C. S. Tamlin, V. S., who supplied them with a cordial for their broken wind and by the colonel who wet their whistles. They were dismissed after three cheers for the officers.

TOO MUCH FOR METHODISTS.

Kier Hardie's Defense of the Chicago Anarchists Creates a Storm of Disparoval.

Chicago, Sept. 9.—Kier Hardie, the English labor leader, disturbed the usually sedate weekly meeting of the Methodist Episcopal church yesterday by red-hot Socialist appeals. Hardie had been invited to address the ministers, and with several local Socialists attended the meeting. The Englishman proceeded to air his views, loudly applauded by his friends, and finally bitterly denounced the execution of the Chicago Anarchists and eulogized them as pioneers in the new religion.

The leaflet of the meeting was distributed almost carried Hardie off his feet. Half a dozen ministers at a time bitterly denounced the sentiments expressed and the speaker was compelled to proceed with a scathing denunciation of the stp speech and the speaker and Hardie left much offended.

STEERS ON A DRUNK.

A Herd of Kansas Cattle Eaten Rotten Apples and Cut Up High Jinks.

Fort Scott, Kan., Sept. 11.—A herd of Texas steers, literally intoxicated on the fermented juice of rotten apples, and emergency not contemplated by the authors of the Kansas prohibition law and its several amendments; yet such a spectacle was recently witnessed by the chief of the metropolitan police force of this city and the sheriff of Bourbon county, who have explicit instructions from the executive department of the State to rigidly suppress the use of intoxicating liquor by the people of their respective jurisdictions.

Patrick German, an extensive stock feeder, a few days ago shipped to this ranch, ten miles northwest of this city, a herd of wild steers from the plains of Texas. During their first night in the Kansas ranch they stampeded through the line fence of the pasture into an orchard on the Alf. Cleal farm. The prolific fruit season had made it unprofitable for the cattle to gather but, small per cent of his early apples, and the burdened trees had dropped their ripened fruit to the ground full three layers deep. The apples had rotted and were in a state of fermentation, which makes them a most intoxicating feast for cattle. Until the next morning the beasts glutted themselves, and were found in a condition of inebriety that caused them to conduct themselves in that boisterous hilarity in which a man is wont to indulge when overcome by the effects of Kansas "applejack."

The effect of the fermented apple juice was so violent in the cattle as it would have been in as many men. Some of them bellowed and contorted in drunken debauchery, others were on their muscles and dangerously vicious, while some of them lay helpless and harmless. Their demonstrations attracted the neighbors for miles about,

and when the facts became known in town crowds of people drove out to witness the revelry of a "steer beer garden." They were rounded up and corralled with much difficulty by a score of experienced cattlemen. Not unlike human drunks, the effects of the dissipation on some passed off soon, while others were in the "sobering up" process for two days.

Opening at Hand.

Western Fair of 1895 Will Soon be Under Way.

Radical Change Promised in the Main Building.

The Grounds Never Looked Prettier—Exhibits Promise to be Unrivaled—Ferris Wheel—Notes.

Tomorrow (Thursday) the Western Fair will be nominally opened by a meeting of the directors of the Fair Board at the offices on the grounds at 10 a.m. From that time until after the close of the Fair the downtown office will be vacated, and the large staff of clerks, under Thos. A. Browne, transferred to the grounds. The opening tomorrow will only be formal, and the day will be principally spent in getting the exhibits in shape. By Saturday, however, it is expected that the oldest Fair in Canada will be in running order. Children will be admitted to the grounds and stands on this day for 10 cents.

For several days past a large gang of men have been busily engaged under the direction of Superintendent Hook putting the grounds in shape. Today the influx of a small army of exhibitors and exhibitors' bulldozers make the scene a most animated one. Hardly ever have the grounds presented a more homely, neat, appearance, and the horse and cattle stalls fairly glimmer in a shine of whiteness. The buildings have been placed in splendid shape.

Ex-Mayor George Taylor is one of the busiest men on the grounds, and under his personal supervision the place is rapidly assuming a Western Fair appearance. Things have reached the stage when the secretary is able to state with accuracy that the Fair will be one of the most successful in the history of the institution, so far as the exhibits are concerned. All that is now wanted is fine weather.

There have been many radical changes in the allotment of space in the main building, and as a result the appearance will be considerably different this year. Every inch of space is taken. The Agricultural Hall and Horticultural Hall will afford magnificent displays.

Both have been filled up completely with the finest products of the Mother Earth has afforded this season. The cheese exhibit is easily in advance of previous displays.

Secretary Browne has sent away \$400 worth of railway tickets to the various people and organizations who are to afford special amusement in the horse ring, after visitors have inspected the main departments.

Cricket matches are numerous. The Wild East combination, which is said to include 50 artists, together with horses, camels and donkeys, will give decidedly unique performances, and is described as "Arabia transported to London." In the way of balloon ascensions something new is offered. Aving the balloonist, will allow himself to be fired from a canon in mid-air, when by a daring leap he grasps the parachute that is to bear him safely back to the firm.

In the way of the comic the Partellos promise plenty in "Celestial pastimes in a laundry." Ajax, the champion high jumper of America, will repeat performances that were a wonder of thousands at Barnum & Bailey's circus. Samson, the strong man, and Martella, a swinging wire dancer, are also included. On Tuesday, Wednesday and Thursday evenings magnificent pyrotechnic displays will be given under the direction of Prof. Hand.

NOTES. A large ferris wheel, being erected at the southwest corner of the main building. From the cages people will be able to look over the roof of the main building.

The barber shop and telegraph offices will be again found south of the main building.

The fish pond has been cleaned, the fish given a bath and the teeth of the London general district aliiator repainted to give it a ferocious aspect.

Capital arrangements have been made for the provision of band music. The pony race, in half mile trots, will be the feature of the second department. At present the Grove Methodist Church is the only religious establishment which has arranged to run an eating booth.

Friday will be the first day on which an admission fee to the grounds will be charged.

The buildings will be lighted with electricity Wednesday evening to attract exhibitors to get their goods in shape. The building and grounds will be lighted by 112 electric lamps.

The turnstiles are being placed in position today. A fence has been built into the grounds, and wickets and turnstiles placed in position there also.

Superintendent Hook threatens to summons a man named Martin who is alleged to have broken open a gate, and to have stolen apples, for the purpose of taking a short cut through the grounds.

The work about the grounds has been a boon to many of the laid-off car shop men.

BUTTER, CHEESE AND FRUIT.

Important Meetings of Ontario Bodies and Resolutions Passed.

WESTERN DAIRYMEN. The Board of Directors of the Western Dairymen's Association met in Toronto on Tuesday. There were present, A. F. MacLaren and Hon. T. Ballantyne, Stratford; S. Pearce, London; Harold Eagle, Attlebridge Station; J. N. Paget, Canborough; John Cram, Harrison; H. White, Hawkesville; George L. Thurston, Newburg; and J. W. Wheaton, secretary, London. In the absence of the president, Andrew Pattullo, Woodstock, A. F. MacLaren, first vice-president, occupied the chair.

Messrs. Duke and Gibbons, of East Parry Sound, addressed the board in reference to dairying in that section of the Province, and requested that the association would endeavor to supply them with information regarding the best methods of carrying on home dairying. Help will be given.

Arrangements will be made for holding a joint meeting with the Shuben and Swine Breeders' Association, in connection with the fat stock show at Guelph in December next.

Arrangements will be made for more special discussion along the lines of practical cheese-making at the next annual convention, to be held at Wood-

Bayley's

172 and 174 Dundas St.

Opening at Hand.

EVERY DAY

Busy as nailers. No waste of time here. The sound of the mallet is to be heard in our basement breaking into the large wooden cases containing merchandise for our various departments. Imported Dress Goods are amongst every shipment in such quantities that would make a faint-hearted buyer tremble. Last season we doubled the size of our dress goods department and this, still more space will be required.

BLACK.

The largest shipments of Black Dress Material ever received by us are on show.

60c Black Henrietta for 50c.
\$1 Coating Serge for 75c.
New Sebastopolite, a beautiful cloth.
Black Royal, a pretty weave.
New Primrose and Soudance, both very effective.
These are a few of the many.

We are particularly careful to purchase none but the best dyed materials. Our blacks wear well. You can rely on the lasting finish and solid color; whilst a thread lasts there is no turning rusty or brown with our blacks.

Bayley's

stock on Jan. 7, 8 and 9, 1896.

NO ADULTERATED CHEESE.

At a meeting of the Ontario Creameries' Association and of the Eastern and Western Dairymen's Association the following resolution was adopted on the motion of Mr. T. Ballantyne, Stratford, seconded by Mr. E. Kidd, North Gower, president of the Eastern Dairymen's Association, strongly denying the truthfulness of the statement circulated in England to the effect that Canadian cheese are adulterated.

An interesting discussion took place on a motion by Mr. A. F. MacLaren, Stratford, seconded by Mr. Kidd, North Gower, in favor of a union of the Creameries' Association with the two Dairymen's Associations. The resolution was withdrawn.

THE BUTTER TRADE. The Ontario Creameries' Association unanimously passed this resolution: "That this association strongly urges all creamery men to put their butter on the market while fresh and in its best condition. We find that great injury has been done to our Canadian creamery butter by persistent holding in imperfect and unsuitable places for its storage, which has been amply demonstrated by account sales received, and by the most satisfactory reports of the quality of fresh butter forwarded in refrigerator cars and refrigerator compartments on steamers, generously provided by the Dominion Government during the past season."

It was resolved that the annual convention should be held at Cornwall on Jan. 11, 15 and 16.

FRUIT. At the annual convention of the Fruit Buyers and Exporters' Association yesterday, A. E. Peterson, Toronto, was elected president. Mr. Shuttleworth, city, is a member of the executive.

A committee was appointed to wait upon the general district freight agent of the Grand Trunk with regard to freights on apples shipped for storage.

In consequence of a discussion over a communication from Mr. L. Woolcutron, of Grimsby, suggesting that apples should be graded a committee was appointed to consider the question and the probability of obtaining from the Dominion Government powers compelling the grading of the fruit.

THERE IS NOT a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Electric Oil—a pulmonary acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swollen neck and crick in the back; and, as an inward specific, possesses most substantial claims to public confidence.

Prof. Saunders reports that the fruit growing industry of British Columbia has developed rapidly. The cultivation of plums has extended there more than any other kind of fruit, and the apple crop is very good.

DYSPEPSIA AND INDIGESTION. C. W. Snow & Co., Syracuse, N.Y., write: "Please send us ten gross of Pills. We are selling more of Parmedee's Pills than any other pill we keep. They have a great reputation for the cure of Dyspepsia and Liver Complaint." Mr. Charles A. Smith, Lindsay, writes: "Parmedee's Pills are an excellent medicine. My sister has been troubled with severe headache, but these Pills have cured her."

As we pass by is all one needs a wheel to buy. More important than buying a bicycle is to get a good one. This is emphatically what the Bradford wheels are. Try one and you will be convinced that none can beat it. Drop in and see our 1895 road wheel at the agency, 122 DUNDAS STREET.

They read it regularly and thoroughly. You can keep in touch with them only by advertising in the columns of the ADVERTISER. Tell them of what you have to sell—they know a good thing when they see it.

A FRIENDLY TIP

As we pass by is all one needs a wheel to buy. More important than buying a bicycle is to get a good one. This is emphatically what the Bradford wheels are. Try one and you will be convinced that none can beat it. Drop in and see our 1895 road wheel at the agency, 122 DUNDAS STREET.

Huge Sleeves will be Worn

yet another season. The only way to keep them all ways in place is to use No. 13, the Light Weight of
