WEEKLY REVIEW. The grain market has been very small this week. Receipts consisted of oats and wheat almost entirely. There is no alteration noticeable in the wheat situation. ation noticeable in the wheat situation. Locally the reports continue discouraging, but are more than balanced by the favorable news of the growing crops in our own Northwest, other parts of Ontario, and the majority of the wheat producing countries. This has prevented an advance in prices. We believe, if anything, the tone is easier. The latest sales were made at \$1 13 to \$1 15.

TALK OF A RUSSIAN INVASION

Of India Unless Britain Ceases Its Aggressiveness.

Extracts From a Russian General's Sensational Pamphlet—Rainfall Relieves the Central Provinces.

Moscow, July 10 .- "Russia will surely invade India unless Great Britain ceases its aggressive policy in Europe. It is logically certain that Russia will soon annex Afghanistan. The time is near when the frontier of Russia's Central Asiatic possessions will be the Hindu Kusch Mountains, the natural border of India."

Such is the opinion of General Soboleff. The general lately issued a highly sensational pamphlet, entitled "The Possibility of a Russian Campaign in India.

Continuing, he said: "English and Russian rivalry dates back from the Crimean war. Since that period England has constantly been endeavoring to keep Russia embroiled with European political trouble.

"All this must be stopped, and England must now admit Russia's de mands for a guaranty of the posses sions she now occupies on the Black Sea.
