

VON KLUCK RETIRES FROM ACTIVE LIST; WOUNDED IN 1915

Never Able to Take Command
of Army Again.

WAS IN BIG DRIVE

Commanded German Army
Which Got Within 30
Miles of Paris.

BERLIN, via London, Oct. 19.—Field Marshal Alexander von Kluck, who commanded the right wing of the German army in its sweep toward Paris in the fall of 1914, has been placed on the retired list on his own request. He had never returned to the front since he was wounded by shrapnel fire in March, 1915, while inspecting advanced positions. The field marshal was 70 years of age last May.

Field Marshal von Kluck and his army took an important part in the German advance toward Paris in September, 1914. His advance, halted about 20 miles from the French capital, and his force, with the rest of the German army, was checked and driven back in the battle of the Marne.

Field Marshal von Kluck was born in Muenster, Germany, May 26, 1846, and entered the German army as a second lieutenant in 1865. At the outbreak of the war he was in command of the army corps at Koenigsberg. He fought in the war with Austria in 1866, and in the Franco-Prussian war in 1870.

He is said to have received his wound in March, 1915, by recklessly exposing himself after a stormy interview with Emperor William. Last August it was reported he was soon to take a command on the eastern front. His son, Lieut. Egon von Kluck, was reported killed at Middelkerke, early in 1915.

CANON TUCKER PROPOSES REORGANIZATION OF WORK

Would Mobilize All Resources of Men
and Material in Church.

MONTREAL, Oct. 19.—The meeting of the Anglican general synod committee for service yesterday had delegates present at the synod hall, including the archbishops of Algoma and Nova Scotia, the bishop of Fredericton, Quebec, Montreal, Ottawa, Kingston, Toronto, Niagara, Huron, Qu'Appelle, Calgary and Edmonton, Athabasca and Keewatin.

The primate of all Canada was in the chair. The secretary, Canon Tucker of London, Ont., said that, owing to the lack of definite organization, the church had been seriously retarded in its social and moral reform work.

His proposals were four:

First—Presenting to the Government the views held by the church on legislation for the good of the people.

Second—The mobilization of the resources of the church in men and material for the work to be done, especially on the temperance and purity questions, calling for immediate attention.

Third—Co-operation with other bodies engaged in similar kinds of work.

Fourth—To inaugurate a campaign of education to enlighten the clergy and people on social subjects.

The following executive committee was appointed: The bishops of Huron, Toronto and Kingston, Archdeacons Ingles and Dobbs, Canon Tucker, Dr. Thomas, Hon. Mr. Harcourt and Mr. Matthew Wilson. The executive committee will appoint the general secretary at a salary not to exceed \$2,500 a year, and also the treasurer.

KLUCK'S FIGHTING ENDS BECAUSE OF WOUNDS

PROF. LAW CALLS UPON CANADIANS TO WIPE OUT GRAFT

Men Sitting Like Great
Spiders Waxing Fat.

IS TIME FOR ACTION

Knox College Professor Says
Indignant People Should
Rise in Might.

TORONTO, Oct. 19.—"While our sons are sacrificing their lives in a sacred cause, are we to permit men at home to sit like great spiders in their webs waxing fat upon a situation charged with the greatest opportunities for great and noble service? Surely Canadian indignation, with the strength of righteousness, will rise in its might."

"The Government may have something up its sleeve, but something needs to be done—and quickly and thoroughly. Something needs to be done regarding recruiting. Some leadership in this great and noble task is needed. The war is not won yet. Victory is within reach, but it is not yet within grasp. It is the last stride that wins the race; it is the last blow that wins the fight."

The words quoted were uttered by Prof. Robert Law, of Knox College, who moved a vote of thanks to Premier Borden at the conclusion of the prime minister's address to the Empire Club today. Prof. Law, who has three sons at the front, called for a purifying of public and political life.

"Surely Canadians would rise to higher heights and stamp out graft—'flagrant and disgraceful graft'—which was debauching public and political life. 'War,' he declared, 'has made these things look tenfold uglier. Truth bids us say that in the past people have been rather amused with graft and the grafters—they have been a used tolerant. We want a real sustained indignation that is red hot, not a spasmodic annoyance. We don't want mere annoyance; we want red hot determination to get rid of the vile damnable thing altogether.'"

HON. ROBERT ROGERS

YOU CAN'T

cure skin troubles by applying ointment to the surface skin. You must reach the underlying tissues where the disease has its roots. Ordinary ointments cannot do this, and that is why the relief they give is only temporary.

Zam-Buk, on the contrary, has such power of penetration, combined with unusual germ-destroying properties, that it reaches and destroys all germs in the underlying tissues. Then the healing essences promote the growth of new flesh, which gradually develops until the diseased patch is entirely replaced by new, healthy tissue, and a complete and permanent cure is effected.

Zam-Buk is best for eczema, and all skin troubles, ringworm, ulcers, abscesses, salt rheum, chronic sores, blood-poisoning, boils, piles, cuts, burns, scalds and all skin injuries. All druggists, or Zam-Buk Co., Toronto, 50c. box, 3 for \$1.25.

Line Moved Nearer Bapaume
in Spite of Heavy
Rainfall.

PARIS, Oct. 19.—In the fighting south of the River Somme in France the French troops have made fresh progress between Blaches and La Maisonnette, near Peronne, according to the French official statement issued tonight.

North of the Somme a German attack on the French lines north and east of Sully-Sailly was repulsed. The text of the statement reads: "North of the Somme the Germans at 5 p.m. made a vain attempt to attack our lines north and east of Sully-Sailly. Our artillery fire broke up the waves of the attack at the outset and inflicted considerable loss on the enemy."

"South of the Somme we made fresh progress during the day between Blaches and La Maisonnette. 'The total number of prisoners taken in yesterday's action at present exceeds 150, including 10 officers. 'Everywhere else the day was quiet.'"

BRITISH ALSO ADVANCE.

LONDON, Oct. 19.—The bulletin from British headquarters in France, issued tonight, reads:

"Rain fell heavily all morning. We have slightly advanced our line at Butte-de-Warlicourt. An enemy counter-attack in that neighborhood was stopped by our barrage. 'Elsewhere there is nothing to report.'"

Town Celebrates Because Its Jail Lacks Occupants

For First Time in Thirty Years
Morden, Man., Has No
Prisoners.

WINNIPEG, Oct. 19.—For the first time since it was built, 30 years ago,

Morden, Manitoba, jail has no prisoners confined within its walls.

The citizens of Morden, in honor of the showing made under prohibition, were today entertained at an "empty jail" celebration. All locks were free, bolts on cells drawn and front and back doors opened wide as the visitors walked along the corridors of the prison.

Tea and cake were served by the ladies of the town in the place of prison fare given to prisoners for 30 years. Flags flew from cell windows and from flagpoles in the town.

BELGIAN RELIEF WORK MAY BE HANDICAPPED

Sentiment in England That Supplies
May Reach Belgians Helping
Germans.

WASHINGTON, Oct. 19.—Suggestions in England for curtailment of the work of the Belgian relief commis-

sion because its supplies might reach Belgians whose services had been commandeered by Germany have been called unofficially to the attention of the state department, but the subject has not been taken up diplomatically.

The state department is anxious to do all it can to prevent any misunderstanding which would cripple the work of the commission, but it is realized that from the beginning the status of the organization has been extremely delicate, in that it stands between two determined groups of belligerents. The possibility of an unneutral act, or of an act appearing unneutral, has been so great that the commission has acted with the most extreme care.
