the Balkan stuation.

No change in the grouping of the powers or general lines of policy is contemplated, and it may be stated in this connection that the widely-heralded "menace of war" with which Germany ended the Balkan crisis really consisted in mediation, under-taken at the initiative of Russia, to prevent an "Austro-Servian conflict." It is expected that the conference be-

tween the two monarchs and their ministers will touch upon a number of questions in which Russia and Ger-many are jointly interested, notably the Polish problem and the ultimate policy with regard to the Balkans and

bowels, the kidneys or the skin. As you know, these organs are the great purifiers of the human system. They filter impurities from the blood and pass them from the body. If the kidneys, bowels or skin weaken or get tired out or fail to do their regular work—then the blood becomes laden with impurities and poisoned. If it be the fault of the kidneys, then the skin is overworked in its efforts to throw off the excess of urea or waste matter. The glands become inflamed and enlarged—pimples break out—and there may be a rash or eczema of the skin. If it is the fault of the skin, then the bowels, the kidneys or the skin. BRILLIANT MEETING
