DALHOUSIE

Dalhousie, N. B., Jan. 22nd.—One great obstacle which delays the growth of our population as a town is the difficulty that new families experience in getting houses to let. Why do not those who have money, and who are ever ready to part with it when some wild cat western scheme is proposed, build a few small houses that would bring them good rent and thereby help to build up the place. Then again, there are those who own vacant lots. Purchasers are offering, but each one has an excuse not to sell. Some people are paying taxes on building lots for over thirteen years, while if these lots had been sold, even ten years ago, what a nice amount would have been accumulated in interest. There is only one remedy and that is to place a double tax on all vacant building lots and force the sale, so that Dalhousie will move forward like other neighboring towns.

Mr. and Mrs. Peter Hamilton of River Charles were visitors in town on Saturday, and registered at the Queen.

Mrs. Geo. Robinson and Miss Florence Robinson of Shigawake, P. Q., were visitors here this week, guests of their friends, Mr. and Mrs. Phillippe Robinson.

Mr. David Stewart, M.P.P. of Campbellton was in town on Sunday, a guest at the Queen.

Mr. and Mrs. John Winton, of Campbellton, were guests on Sunday of Mrs. Winton's sister, Mrs. D. G. Stewart at Bellevue.

On Tuesday, Mrs. C. H. LeBlais received word from her sister-in-law, Mrs. Wm. McNaughton of Quebec, that her mother had died on Sunday. The late Mrs. Ed. Boache had often visited Dalhousie and spent several summers with her daughter at Pabos Mills, where the late Wm. McNaughton was there as manager of the King Bros. Lumber business. The Quebec Chronicle of January the 20th publishes the following relative to her death.

Mrs. Edward Roache, one of Quebec's well known personalities, prominently identified with the early days of the 19th century passed away yesterday evening at the home of her daughter, Mrs. Wm. McNaughton, No. 11 Aberdeen Avenue, at the ripe and honorable age of 80 years.

Mrs. Roache, nee Ellen Sadley, was the widow of the late Edward Roache, in his lifetime a prominent Quebec business man, connected with the lumber trade of the St. Lawrence. She was the daughter of one of the first Irish Catholic settlers who made Quebec his adopted home and in her youth was noted for her culture and therefore a favorite in social circles.

Mrs. Roache was one of the old school of gentlewomen who lived an exemplary life, a good christian, good wife, mother and true friend. She is survived by an only daughter, Mrs. McNaughton who has many friends in the Bay Chaleurs who will sympathize with her in her sad bereavement.

Mr. James B. H. Storer returned home today from Montreal where he had gone on business for the Dalhousie Lumber Co.

Mr. George Seely left for St. John today to spend a few days with friends.

Mr. A. H. Hillyard who has not been enjoying good health recently is improving.

The first crossing on the ice here was under taken on Monday by four men from Fleurant's point and Upper Maguasha. No teams have crossed yet. This is about the latest crossing on record. The delay in ice making this year has dealt a severe blow to over a hundred families in this vicinity who depend on the smelt fishing. It has also been a hindrance to trade. However, the prospects are brighter since Sunday, and active preparations are going on here now in the shape of hauling shanties on the ice, etc.

New Glasgow, Jan. 22.—The most disastrous fire that has visited New Glasgow in recent years occurred this morning, and wiped out the large wooden block on the corner of Provost and Forbes streets, owned by Norton Lodge, I. O. O. F., and occupied on the ground floor by Bent & Coohens hardware merchants, and L. Higgins & Co., boots and shoes. The upper story was used as a lodge room. The building directly north of the burned block, owned and occupied by Wm. McIntosh & Co., was badly damaged. The plate glass windows in the north of Chamber's block and in the front of Mason's candy store were completely burned, and the large panes in the Two Bakers' store were badly damaged by the heat. Several windows were broken in the Evening News building.

Tons of water were poured into the building through every window and hole.

In a brief period the interior was a seething mass of flames. During the progress of the fire there was a constant pouring of water.

Masses of flaming wood were carried skyward by the current of heated air, and fell on the roofs of the surrounding buildings.
