The return of fine weather has improved the aspect of things generally, although some of the Cornell crew are still a little indisposed. PROSTRATED FOR TWO YEARS WIT LIVER COMPLAINT.

Restored to Perfect Health by South American Nervine, Was Mr. W. J. Hill of Brace-When men and women can be away from simply temporizing with disease, there will be less disease in the world. The immediate matter, it is natural, is to relieve the present trouble, but how often is it forgotten that any cure that is only skin deep, if we may use the expression, cannot be lasting! It will certainly turn up again.

by the Irish Nationalists of this catty has issued an address, in which it says:

"The Irish members of Parliament are split into two contending parties, and one of these parties is rent into two hostility towards each other. In the war of fac-

cure that is only skin deep, if we may use the expression, cannot be lasting! It will certainly turn up again.

This was the case with Mr. W. J. Hill, the well-known bailiff of Bracebridge, Ont. He had suffered from severe liver trouble and nervous prostration for nearly three years. During this time he doctored to no end, and occasionally secured a little temporary relief. But the old trouble would come back again, after the charm of the cure-alls had been exhausted.

He entered upon the use of South American Nervine with little hope that it would be any better than other medicines he had taken. But he soon discovered the mistake. Where doctors had said that he must die, this medicine gave him life. He persevered with it and today is in possession of robust health. The secret is this: South American Nervine treats with the nerve centres, from which flow the life-blood that keeps the system in perfect health. When these nerve centres are kept healthy, neither liver complaint nor other troubles will worry one. Mr. Hill's cure was lasting for this reason. Anyone who uses Nervine will experience same results.
