

We Always Recommend Stanfields Unshrinkable Underwear

Standfield's label is as reliable as a Victory Bond. We like to sell it for the same reason that you like to buy it—because it gives satisfaction. When a customer selects Standfield's on our recommendation we know that we have made a permanent patron for our Underwear Department. Let us show you the winter weights and new styles.

QUALITY COUNTS

20th Century Clothing Made to Measure or Ready to Put On

The 20th Century Brand trade mark is not just to tell you who made the Overcoat or Suit—it is to tell you about the quality that's in the garment—about the style and fit of it too. Its your guarantee of satisfaction, and satisfaction is a great thing to get these days. Its easy enough to get bunked and its just as easy to get value by demanding 20th Century Brand.

A. BROWN & CO.

SOLE AGENTS

Have you given any thought to electric light and power for your farm.

Just think how handy and convenient it is to be able to touch a button and have light in any room in your house or barn without having lamps to clean and fill every day.

Think also of the labor and drudgery saved by being able to turn a switch and have electricity do your washing, run your milk separator, fanning mill and such like appliances. Think of all the tiresome steps you can save by using an electric iron.

There is practically no end to the comfort and pleasure to be derived from electricity on the farm.

You can have running water and in fact every convenience which goes to make the city home so attractive.

All progressive farmers are considering electricity for their farms.

Let me demonstrate Dominion Light to you and you will be convinced that here is just the plant you have been waiting for.

ELECTRICAL CONTRACTOR

WATFORD

"ENGLISH AS SHE IS WROTE". In Egypt, where the riots come from, a new native newspaper had just made its appearance. It was bilingual—even as it might be in Quebec—and this is how it proclaimed itself to English readers there: "The news of English we tell the latest. Writ in perfectly style and most earliest. Do a murder commit, we hear of and tell of. Do a mighty chief die, we publish it and in borders sombre. Staff has each one been colleged and write like the Kipling and the Dickens. We circle every town and extortionate not for advertisements."

LONG EVENINGS MORE READING

The longer the evenings the more time for reading, by old and young. The sight should be good, the light should be good; that's where the enjoyment. See that both are right.

MORE READING MORE EYE STRAIN

Continued use of the eyes causes eye strain if the eyes are defective or weak in any way. We can overcome eye strain and poor sight by properly fitted lenses.

INWOOD

Mr. Haskell, of Port Arthur, is visiting his sister, Mrs. McClurg.

Mr. and Mrs. Charles Neal are here from the West visiting relatives.

A. R. Chapman has moved into his new home purchased from J. Vance.

J. Drope had the misfortune to have his hand crushed while laying steel on the county bridge here.

An old landmark—the cheese factory on the 4th concession—has been torn down and moved to Sarnia.

The Forward Movement Campaign ended last week and the canvassers met with a good response, nearly \$1200.00 being raised.

The building for the new electric light plant is nearing completion, and we hope to have our streets lighted again before long.

J. W. Johnston has bought the property formerly occupied by S. L. Aylesworth, Main st., and is converting it into an auto showroom and office.

The county bridge over No. 1 drain will be completed this week and is indeed a fine structure, and speaks well for the contractor, Mr. Kirkpatrick, of Petrolia.

Two war trophies in the shape of two German machine guns have arrived here and are on display at Johnston & Atkins store until such times as a suitable place can be arranged for them permanently.

Word has been received from the party of hunters composed of J. P. McVicar, B. McCabe, J. Y. McKeown and R. McVicar, that they are meeting with good success in Algoma, where they have gone in quest of big game.

THE HOME TOWN PAPER

It's like a smiling, friendly face. It's like a voice you long have known.

You see it in some distant place, And rush and clam it as your own.

The paper from your old home town Has bridged the long and dreary miles.

And with it you can settle down Among familiar tears and smiles.

It speaks of every friend you know, It tells of scenes you yearn to see;

It brings back joys of long ago And tells of joys that are to be.

And as you run its columns o'er, Your yesterdays come trooping back.

You fancy you are home once more, And golden seem the letters black.

It's speech is one you understand, It tells of grief that you can share,

It brings you in a foreign land Glad messages to banish care.

There, among scenes and faces strange, The old home paper seems to be

The faithful friend that doesn't change,

A friend that you are glad to see, I know not just what heaven is like,

Nor just what joys beyond life's tide Await for men, when death shall strike

And I shall reach the other side. But this I know, when I am gone,

To dwell in realms divinely fair, My soul will yearn to look upon

The old home paper over there.

A Denver newspaper says that the wild Western bandit has died out.

We don't believe it. He has merely moved to the Eastern cities, where it's safer.—Philadelphia Record.

STRONG DIET FOR HENS.

It Will Improve the Number of Eggs.

Hens given meat, fish, or milk products in their diet will lay from 38 to 46 per cent. more eggs than those which have only grain food and what bugs and worms they can pick up on free range, recent experiments made by the U. S. Department of Agriculture show.

The birds used in the experiments were given conditions as nearly like those on a normal farm as possible. The experiments were repeated under different conditions and in different years to avoid, as far as possible, any error due to the varied characteristics of the birds.

The average farmer feeds very little meat, fish, or animal protein feed of any kind to his poultry, and consequently gets few eggs during the late fall and winter when eggs are selling at the highest prices.

In the experiments conducted on the Government poultry farm, pens of pullets on free range were fed a mash of corn meal, bran, and mid-

Fowls Given Free Range.

dlings and a scratch mixture of wheat, oats, and corn. This is greater variety of grains than is used by many farmers. In addition the birds had absolutely free range of land where bugs, green feed, and worms were plentiful. Other pens were given the same ration, with one pound of commercial meat scrap added to every four pounds of mash.

The pullets without the meat scrap laid only 90 eggs apiece (which is more eggs per hen than the average farm flock lays), while those receiving meat scrap averaged from 125 to 150 eggs apiece.

Meat scrap is not produced on most farms, and has to be bought at a higher price than grain. It produces eggs, though, several cents a dozen cheaper than where no meat scrap is used. Milk products or fish give as good results as meat in increasing egg production.

Chopped Stuff.

American markets are reported full of trashy cattle.

A Quebec lumber firm recently bought a car of heavy horses in Chicago at \$280 each.

Production of strawberries in the United States is estimated to have been decreased by one-half in five years.

An American breeder drove 1,500 miles through Iowa and Minnesota, and saw more than 1,000 mares, but only nine foals.

On one farm near Fenelon, Man., there are 227 acres in flax, which produced nearly 250 tons of flax straw this year.

In order to feed off two inches daily from a 14-foot silo, it will take from 30 to 35 cows fed at the rate of 30 pounds each per day.

A production of timothy seed of approximately 80 per cent. of last year in the United States, is indicated from reports received by the Bureau of Markets.

Provincial Dairy Commissioner Reed says that Saskatchewan, which produced 6,620,000 pounds of creamery butter last year, is expected to produce 7,000,000 pounds this year.

A North Dakota farmer who was in Saskatoon district recently looking for land, expressed the belief that 5,000 Americans will locate in the Western Provinces before another year.

Wheat Supply Approaching Normal.

Wheat shipments from the last season's crop in Argentina have exceeded all estimates, and in India the monsoon, on the whole, was favorable. The area under wheat in Australia is 55 per cent. above last year and 11 per cent. above the previous four-year average. The wheat crop is reported as good in Bulgaria, Denmark, France, Luxemburg, Netherlands, Roumania, Serbia-Croatia-Slavonia and Sweden; average in Germany, Scotland, Ireland, Poland, and Czechoslovakia, and below average in England and Wales.

In Belgium, Spain, Italy, Switzerland, Canada, United States, British India, Algeria, Egypt, Morocco and Tunis, the wheat crop of 1920 is estimated to produce 48.9 million metric tons as compared with 49.0 millions in 1919 and an average of 50.1 millions during the five years 1914 to 1918.

Trick of Painter's Trade.

Many farmers do a great deal of their own painting, interior and exterior. An amateur painter cannot avoid some paint on the hardware, such as locks, hinges, handles, pulls, etc. This gives the finished job a botched appearance and partly spoils the effect of the new coat of paint.

Here is a little trick of the painter's trade that will serve the amateur painter well. Before beginning to paint the woodwork apply a coat of vaseline to the hardware; let the paint dry thoroughly; then wipe the vaseline off the metal parts and the paint will come off with it. This insures a neat, clean job of which the painter may be proud.

Count your stock of poultry, old and young, and make your plans to have the surplus handled so as not to crowd the birds you are going to keep over the winter.

A thoroughly equipped "Medicine Chest" is a source of comfort in every home. A scald, a burn, a cut, a toothache, earache or backache may "happen" anytime; everybody becomes constipated or has diarrhea, catches cold, "breaks out" or has some ill befall him nearly every day.

Then have on hand our "REXALL REMEDIES" which you can use until the family doctor comes. Having these things on hand may prevent serious results from blood poisoning and not allow pneumonia to "take hold." Have remedies in the household on which you can "rely."
