

Glendale, for a late sort, is the most promising coming strawberry for family and market purposes. It is considered far in advance of Kentucky, and will very likely supersede it for late market purposes.

Duncan is a very promising fruit, possessing very high internal qualities, as its flavor is the highest and most distinct of any sort. It is not very solid, however, and the plant is a poor bearer.

Arnold's Maggie and Bright Ida are new Canadian fruits, originated by Charles Arnold, Paris, Ont., the well known champion of new fruits. Where tested they are found to possess some considerable promise, and are firm in color and flavor; conical and prepossessing.

Marvin is a new American sort that may yet become distinguished among our Canadian lists of fruits. It has not been very widely disseminated as yet, nor can much be said of it.

Col. Cheney is not among the new sorts, strictly speaking, but it is a fine, profitable variety, and worthy of more general introduction. It is of the Sharpless type, but is far ahead of that variety in productiveness. It is increasing in favor as a profitable market sort.

New Dominion is a promising new Canadian strawberry of recent introduction. We have fruited it for one or two years, and think that for family and market purposes it is a decided acquisition. It is hardy in plant and fine in fruit, of the Crescent Seedling type, and of good flavor.

#### RASPBERRIES.

This fruit is very promising, and is rapidly growing in popular favor; the planting and growing of it is at present occupying much of our attention. I shall proceed to notice it in the following condensed order: Highland Hardy, Brandywine, Turner, Herstine, Naomi, Clarke, Cuthbert, Queen of the Market, Thwack, Ganargua, Saunders No. 56, Mammoth Cluster and Gregg, as the best that have come under my notice.

Highland Hardy is a widely disseminated American variety, and is said to be the earliest ripening sort, but of very poor quality. Its remarkable earliness and solid fruit make it a very desirable variety for market.

Brandywine is early and productive; much resembling Highland Hardy. It is very valuable for early market.

Turner is a recently introduced American fruit of the first promise. The plant is hardy and almost thornless, and a very strong grower;
