
MEDICAL MEN

WHO prescribe Cod Liver Oil in the form of Emulsion are urged to consider the claims and merits of

PUTTNER'S EMULSION.

This is the *first* of these preparations, having been introduced to the profession about 1876, and it has not been excelled by any of its successors or imitators. As now made by us, exclusively from Norwegian oil, it is free from all objectionable flavor, palatable and acceptable, even to delicate stomachs. It is rich in oil, partially predigested by pancreatine, contains the full proportion of hypophosphites, and while the dose is the same the bottles are one-third larger than most others sold at the same price,—a point of importance to the patient on the score of economy.

Free samples for trial gladly furnished to any physician.

Hospitals and Institutions supplied with the preparation *in bulk* at reduced prices.
