REPRESENTATIVE AND CHAMPION OF AMERICAN ART.

THE ALDINE

AN ILLUSTRATED MONTHLY JOURNAL

claimed to be the HANDSOMERT PAPER IN THE WORLD.

"Givo my love to the artist workmen of THE ALDINE who are striving to make their profession worthy of admication for beauty, as it has always been for usefulness."—Henry Want Beecher.

THE ALDINE, while issued with all the regularity, has none of the temperary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature and a collection of pictures, the rarest specimens, of artistic skil, in black and white. Although each succeding number affords a fresh plansar, to its triends, the real value and beauty of THI, Alpines will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness as compared rivals of a similar close, THE ALDINE is a unique and original conception—alone and anaptroached—absolately without competition or in price or character. The possessor of the volume just completed cannot deplicate the quantity of the paper and engravings in any other shape or number of volumes for ion times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871 is already exhausted and it is now a scarce as well as valuable book.

New Features for 1872.—Art Dopartment.

The onthusiastic support so readily accorded to their enterprise, whorever it has been introduced has convinced the publishers of THE ALDINE of the soundness of their theory that the Aniorican public would recognize and heartify support any sincere effort to elevate the tone and standing of illustrated puplications. That so many weekly wicked sheets exist and thrive is no ovidence that there is no market for anything better—indeed the success of THE ALDINE from the start is direct proof of the contrar. With a population so wast, and of such varied taste, a publisher can choose his natrons, and his paper is rather indicative of his cover than of the taste of the country. As a guarantee of the excellence of this department, the publishers would be to armounce during the coming year, speciments from the following eminent American Artists.

LITERARY DEPARTMENT.

Where so much attention is paid to illustration any get up of the work, to much dependence on appearances may very naturally 15 feared. To anticipate such misgs, ings, is only necessary to state that the editorial management of THE ALDINE has been introduced to Mr. Richard Henry Stodiart, who has received softence of estature from a has been intrusted woman a solution of solutions from a host of the most popular writers and poots of the country.
