

Scientific and Useful.

M. SARRE, a professor at Neufchatel, has found a plan for keeping eggs. Whilst they are fresh he coats them with paraffine, and they are said to keep without any trace of change for two years.

ARTIFICIAL DOWN. In Paris "artificial down" has come to be more highly valued than the natural down, because it is much lighter. It is made from feathers of any kind by cutting the barbs of the feather from each side of the quill, putting them in a stout cloth sack, and rubbing them between the hands, as a washerwoman does linen. Five minutes' rubbing will have mixed the case into a fibrous substance, rendering it homogeneous.

ASHES FOR PEACHES. A correspondent of the New York World writes: "I find it pays to put wood ashes and lime, and a light sprinkling of salt around each peach tree. The top earth should be removed from the trees before the ashes, lime and salt are put around it. If the trees are not all unthrifty, it will restore them to life again, and in a short time they will look as thrifty as if nothing had been the matter with them. I think this helps to make the fruit stay on. I would advise every one that has a few trees to try what I have recommended, and see if their fruit does not ripen better and grow finer than when they are left to have their own way."

HINT TO BUTTER MAKERS. Among the many devices for keeping butter in a manner that will preserve the fresh rosy flavor of now, with all its sweetness, is the following from the Dutchess Farmer, which is said to be entirely successful: To three gallons of brine strong enough to bear an egg, add a quarter of a pound of nice white sugar and one table-spoonful of saltpetre. Boil the brine, and when it is cold strain carefully. Make your butter into rolls, and wrap each separate in a clean white muslin cloth, tying it up with a string. Pack a large jar full, weight the butter down, and pour on the brine until all is submerged. This will keep really good butter perfectly sweet and fresh for a whole year. Be careful not to put upon ice butter that you wish to keep for any length of time. In summer, when the heat will not admit of butter being made into rolls, pack closely in small jars, and, using the same brine, allow it to cover the butter to the depth of at least four inches. This excludes the air and answers very nearly as well as the first method suggested.

THE MOSQUITO. According to the recent revelations of a physician, the mosquito has been shamefully abused, and instead of being a plague, should be regarded as a public benefactor. The mosquito was created for the purpose of driving man from malarial districts. Its presence is a warning; but if man will not heed the warning, what does this public benefactor do? Why, it injects hypodermically a little liquid which serves a double purpose—it renders the blood thin enough to be drawn up by the hungry insect, thus affording him a good meal; and as this liquid contains the principles of quinine, a useful homoeopathic dose is thus administered. Such a theory must reconcile every reasonable being to the slight inconvenience of what are popularly known as "bites," and should make us grateful for that considerate benevolence on the part of the mosquito in thus administering a preventive against malaria. It should not prejudice us against well educated mosquito practitioners that there are some quacks among them who give overdoses, and don't stop to inquire whether or not the patient lives in a malarial locality.

MAPLE GROVE, ANCASTER. Messrs. W. G. Chute & Co. GENTLEMEN,—I feel bound by a sense of duty, and a desire to benefit my fellow-beings, to make known the wonderful effect of your Indian Rheumatic Cure has had in my case. I suffered from rheumatism for six years, and tried everything said to be beneficial without obtaining relief, and I come to the conclusion to try nothing more; but my husband hearing of your medicine wished me to try it, and with a doubting heart I tried one bottle, and I was so much relieved by it that I tried another, which completed the cure. I hope you will publish this, for these are facts, as many in this neighbourhood can testify. Hoping your medicine will reach every one afflicted, I remain, yours truly, Mrs. Wm. Scott.

KEEPING CELERY. One of the best modes is that adopted by Peter Henderson, and described in his Gardening for Profit. He banks up the plants early in autumn, only enough to keep them upright, or else he can set them a foot apart each way when set out, so that by standing so thick they run up without any banking at all. These are taken up on dry days only, and set in very narrow ditches, dug just as deep as the length of the plants—those for early winter use about the end of October; those for mid-winter about the 10th of November, and those to last towards spring, as late as frost will permit, say 20th of November. They are set compactly together, upright, with no earth except what goes on the roots. The ground where the plants stand must be high and dry, so that no water can ever stand in the ditches. The portion to be used early in the winter will need but little covering; but the covering for the rest should be gradually deepened, so as to exclude the frost, until a foot or more in depth. Forest leaves would doubtless be best for this covering. It must be applied gradually, so as to allow some ventilation, and prevent decay. Celery thus treated, may be readily taken out whenever wanted. It will be understood that the blanching process is completed while the plants are in these trenches.

TREATING THE WRONG DISEASE.

Many times women call upon their family physicians, one with dyspepsia, another with palpitation, another with trouble of the breast, another with pain here and there, and in this way they all present alike to themselves and to their easy going and indifferent doctors, separate and distinct diseases. Assuming them to be such, he prescribes his pills and potions; when, in reality, all these symptoms are caused by some uterine disorder. While they are thus only able perhaps to palliate the disease for a time, they are ignorant of the cause, and encourage their practice until large bills are made, when their suffering patients are no better in the end, but probably worse for the delay, treatment, and complications made, and which a proper medicine, directed to the cause, would have entirely removed, thereby instituting health and comfort instead of prolonged misery.

From Miss Lorinda E. St. Clair, Shade, Athens Co., O., Oct. 14th, 1872: "Dr. R. V. Pierce, Buffalo, N. Y.—Your Favorite prescription is working almost like a miracle on me. I am better already than I have been for over two years." From Ella A. Schaefer, Zanesville, Ind., Aug. 8, 1872: "Dr. Pierce.—I received the medicine you sent me, and began using it immediately. As a result of the treatment, I feel better than I have for three years." From Mrs. John K. Hamlin, Odell, Ill., Mar. 19, 1872: "Dr. Pierce.—The Favorite Prescription has done me good, which I am very thankful for." Dr. Pierce's Favorite prescription is sold by Druggists.

ELECTRICITY! THOMAS' ELECTRIC OIL!—WORTH TEN TIMES ITS WEIGHT IN GOLD.—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis, fifty cent's worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cent's worth has cured croup in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical: J. Collard of Sparta, Ontario, writes, "Send me 6 doz. Dr. Thomas' Electric Oil, have sold all I had from you and want more now; its cures are truly wonderful." Wm. Maguire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iowa, writes, "Please forward 6 doz. Thomas' Electric Oil, I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes—"Send at once a further supply of Electric Oil, I have only 1 bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodward, writes—"Send me some more Electric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton, P. Q., writes—"The Electric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay." Lemoyne, Gibb & Co., Buckingham, P. Q., writes—"Send us one gross Electric Oil. We find it to take well." Sold by all medicine dealers. Price 25 cents. S. N. THOMAS, Phelps, N. Y. HAGYARD'S Family Medicines. HAGYARD'S YELLOW OIL.

This valuable preparation is admirably adapted to the cure of all those diseases for which a counter-irritant or external remedy is required.

In the human family it is guaranteed to cure Rheumatism, Sprains, Bruises, Frost Bites, Chilblains, Sores, Itch, &c., &c., and can be taken internally for Croup, Influenza, Asthma, in connection with HAGYARD'S PECTORAL BALSAM, when used according to directions on circular accompanying each bottle.

No Horseman should be without it always in the stable in case they should require a reliable Liniment for the cure of Sprains, Bruises, Scratches, Wind galls, or Lameness from any cause; and when given internally, will cure Croup, Colic, Influenza, &c.

There is no preparation offered to suffering humanity that has made so many permanent cures as HAGYARD'S YELLOW OIL.

We guarantee it to give satisfaction or refund the money.

Price 25 cents per bottle.

HAGYARD'S Pectoral Balsam

Has been thoroughly tested since first introduced for Bronchitis, Asthma, Catarrh, CONSUMPTION, and all diseases of the throat and lungs.

We mention all these affections because HAGYARD'S PECTORAL BALSAM is intended, in all respects, to meet them.

There are innumerable cases of Consumption, Catarrh, Asthma, Bronchitis, &c., which might have been prevented if a useful and timely remedy had been used. Where irritation exists, it soothes; where cough occurs, it mitigates the symptoms and establishes a healthy action where there is a large collection of phlegm or mucus to remove, it will be found invaluable.

We would caution parties wishing to use our PECTORAL BALSAM that owing to the large sale our medicines has at and there are many small dealers getting up Balsams under our name who do not contain one particle of Balsam in their composition.

Ask for HAGYARD'S PECTORAL BALSAM and take no other.

FITS! FITS! FITS!

CURE OF EPILEPSY; OR, FALLING FITS. BY HANCOCK'S EPILEPTIC PILLS.

Persons laboring under this distressing malady, will find HANCOCK'S EPILEPTIC PILLS to be the only remedy ever discovered for this disease. The following certificates should be read by all the afflicted; they are in every respect true, and should they be read by any one who is afflicted himself, if he has a friend who is a sufferer, he will do a humane act by cutting this out and sending it to him.

A MOST REMARKABLE CURE. PHILADELPHIA, June 23rd, 1872. SETH HANCOCK, Baltimore, Md.—Dear Sir: Some years ago, I was induced to try your Epileptic Pills. I was afflicted with Epilepsy in July, 1853. Immediately my physical was removed, but the convulsions were not allayed. I consulted another physician, but he did not give me any relief. I then tried the treatment of another, but without any good effect. I was returned to my family physician; he cupped and bled several times, but I was generally attacked without any preliminary symptoms. I had from two to five fits a day, at intervals of a few weeks. I was often attacked in my sleep, and I had fits whenever I would be, or whatever he occupied with me, and was severely injured several times from the falls. I was afflicted with Epilepsy for many years, and I was also affected in my business, and I consider that your Epileptic Pills cured me. In February, 1857, I was cured of my Epilepsy, and only had two attacks afterwards. The last one was April 6th, 1863, and it was of a less serious character. With the blessing of Providence your medicine was removed, and I was cured of this distressing affliction. I think that the Pills and their good effects should be made known everywhere, that persons who are similarly afflicted may have the benefit of them. Any person wishing further information can obtain it by calling at my residence, No. 538 North Third St., Philadelphia.

IN THEIR CURE FOR EPILEPSY: The subjected will answer. GENEVA, Miss., June 30.—Seth H. Hancock—Dear Sir: You will find enclosed the following certificate of a person who tried your Pills in this part of the country. My son was badly afflicted with fits for two years, and he was cured by your Pills, which he took according to directions. He has never had a fit since. I was by my persuasion that Mr. Lyman sent your Pills to a young man, who had fits one to three times a day. Persons have written to me from Alabama and Tennessee on the subject, for the purpose of ascertaining my opinion in regard to your Pills. I have always recommended them, and in no instance where I have had a chance of hearing from their effect, have they failed to cure. Yours, etc., G. Green, Yalabusha County, Miss.

ANOTHER REMARKABLE CURE OF EPILEPSY; OR, FALLING FITS, BY HANCOCK'S EPILEPTIC PILLS. MONTGOMERY, TEXAS, June 20th, 1872. To Seth H. Hancock—A person in my employ had been afflicted with fits or Epilepsy for thirteen years; he had these attacks at intervals of two to four weeks, and oftentimes several in quick succession, sometimes continuing for two or three days. On several occasions they lasted until his mind appeared totally deranged, in which state he would continue for a day or two after the fits ceased. I tried several remedies prescribed by our resident physician, but without success. Having your Pills, I was determined to try your remedy. I obtained two boxes of your Pills, gave them according to directions, and they effected a permanent cure. The person is now a stout, healthy man, about 30 years of age, and has not had a fit since he commenced taking your medicine, ten years since. I have been exposed to the severest of weather. I have great confidence in your remedy, and would like every one who has fits to give it a trial. B. L. DEFRERE.

STILL ANOTHER CURE. Read the following testimonial from a respectable citizen: SETH H. HANCOCK, Baltimore, Md.—Dear Sir: I take great pleasure in relating a case of Epilepsy, cured by your invaluable Pills. My brother, J. J. Logan, has long been afflicted with this disease. He was first attacked while quite young. He would have one or two spasms at one attack at first, but as he grew older they increased in number, and he was often attacked during the night. He had fits when he was in bed, and he had fits when he was out of bed. He had fits when he was in the water, and he had fits when he was on land. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country. He had fits when he was in the winter, and he had fits when he was in the summer. He had fits when he was in the morning, and he had fits when he was in the evening. He had fits when he was in the day, and he had fits when he was in the night. He had fits when he was in the house, and he had fits when he was in the field. He had fits when he was in the city, and he had fits when he was in the country.
