OILS, PAINTS, AND GLASS.—Business is of rather a quiet character just now. Linseed oil holds its firmness pretty steadily, being sold at 68 to 69c. for raw, and 71 to 72c. for boiled; turpentine 64 to 65c.; castor oil, 11 to

11½c. per lb. English advices report Calcutta oil very scarce, and the advance in silver in the east is likely to result in enhanced values. Leads and colors are without change. Glass unchanged, but there is rather more stiffness to the market in Belgium, where prices for fall importation are a point higher. We quote:—Leads (chemically pure and first-class brands only) \$6; No. 1, 5 to \$5.50; No. 2, \$4.75; No. 2, \$4.50; dry white lead, 5½ to 6c.; red do., 4½c.; London washed whiting, 50c.; Paris white, 90c. to \$1; Cookson's Venetian red, 1.60 to \$1.75; other brands of Venetian red, 1.40 to \$1.60; yellow ochre, 1.25 to \$1.50; spruce ochre, 2 to \$2.50. Window glass, \$1.40 per 50 feet for first break, \$1.50 for second break.

TORONTO, July 31st, 1890.

DRUGS.—Business is rather quiet and orders are coming in slowly. Remittances are reported fairly satisfactory. There are no changes in prices to note.

FLOUR AND OATMEAL.—In the flour market matters have improved considerably during the last few days; an active enquiry exists, with prices very firm at present quotations. We quote straight rollers at \$4.50 to 4.60 per barrel, and extras at \$4.15 to 4.20. These are the brands mostly in demand. Oatmeal is higher and firm, corresponding to the rise in oats. Granulated is now \$4.75 to 5.00, and standard \$4.60 to 4.75 in cars. In bran there is a fair demand but not much offering; cars on track are worth \$11.50 per ton, smaller lots sell here at \$12.50 to 13.00.

GRAIN.—The wheat market abroad is stronger, and has been advancing in prices daily for the last week. Manitoba hard wheat has advanced in price, and is now quoted, for No. 1, \$1.16 to 1.17; No. 2, \$1.14 to 1.15 per bush. The demand locally for white wheat is fair at slightly higher prices, but the increased values are caused principally by unfavorable reports received of the European crops, and the higher prices ruling in the British and United States markets. In barley there is
