

PIERCE Guarantees a CURE OR MONEY RETURNED.

For over a quarter of a century, Dr. Pierce's Golden Medical Discovery has been effecting cures of Bronchial, Throat and Lung affections. The makers have such confidence in the "Discovery" for curing Asthma, Bronchitis, and incipient Consumption, that they can afford to guarantee it.

Mrs. ISAAC LOTMAN, of *Thurlow, Delaware Co., Pa.*, writes as follows:

H. C. TROUP.

not get short of breath, and can sleep all night."

DR. R. V. PIERCE, Buffalo, N. Y.: "Dear Sir—I wish to write you of my brother, Harry C. Troup, who has been sick for ten years with asthma. He has been treated by ten different physicians, who have said he could not be cured. He had to sit up at night, he got so short of breath; he suffered with fearful headaches and had a bad cough. After taking Doctor Pierce's Golden Medical Discovery and Pleasant Pellets, he did not get short of breath, and can sleep all night."

"WAR TO THE KNIFE."

Has never been declared on doctors and druggists by Radam's Microbe Killer Co., for we take a common sense view, and claim that there are very many honest, competent, humane doctors and dispensers of medicines. There are a large number, on the other hand, who are bigoted, mercenary, narrow-minded individuals who would rather sacrifice life even than yield to the inevitable and acknowledge the merits of scientific discoveries, such for instance, as

Radam's Microbe Killer,

Despite the undoubted, proven fact that it is the most marvelous discovery of the age for the absolute cure and prevention of diseases. It cures, and that's what sick people are interested in. Full information at

MISCELLANEOUS.

A wonderful nugget of tin has been discovered in the mines at North Dundas, Tasmania. It is estimated to weigh 2 tons 14 cwt. The assay of a small piece shows that the large mass of ore contains 67 per cent. of metallic tin.

The decline in silver in London the past week to 26 1-4 pence, or about 63.6 cents per ounce brought the quotations to the lowest recorded level. At this price the silver in our "standard" silver dollar is worth 49.18 cents.—*Baltimore Sun.*

A despatch from the City of Mexico says that a syndicate of Mexican and American capitalists has been organized for the purpose of constructing a Pan-American telegraph line to extend along the Pacific Coast from Victoria, British Columbia, to Santiago, Chile.

In 1892 the Russian railroads carried about 36,000,000 gallons of wine, produced in Bessarabia (along the Roumanian border), in the Crimea, and in the country on the slopes of the Caucasus, the southern side of which is like many vine-growing districts of Western Europe.

The *Engineering and Mining Journal* says that lake shipbuilding has shared in the depression which has affected all other business, and on January 1st there were reported under construction in the lake yards only 28 vessels of an aggregate tonnage of 26,100 tons, against 49 ships of 68,470 tons a year ago.

It is evident that there is a general movement in the greater cities and their suburbs, as well as in the large manufacturing centres, towards a revival of building. The motive for this is in the cheapness of material, the abundance of labor and the lowered rate of wages, and in the plentifulness of loanable funds.—*Northwestern Lumberman.*

The "penny-in-the-slot" apparatus has been arranged to deliver tickets on the Berlin Elevated Railroad. There are tickets for two classes and of different rates for different distances on the road, but the apparatus supplies only second-class 15 pfennig (3.6 cents) tickets. You put two 10-pfennig pieces into the slot, and take out a ticket and a 5 pfennig piece.—*Railroad Gazette.*

It now seems likely that work on the proposed Washington and Baltimore electric railway will soon begin. The distance is something like thirty miles. It is the purpose of the company to equip the line with model vestibule trains, make the trip between the two cities in one hour and the rate \$1 for the round trip. It is also reported that the plan to connect the cities of New York and Philadelphia by a trolley line has assumed definite shape.—*Inventive Age.*

As Old as Antiquity.

Either by acquired talent or heredity, those old foes Scrofula and Consumption, must be faced generation after generation; but you may meet them with the odds in your favor by the help of Scott's Emulsion.

The exports of iron and steel from Great Britain in 1893 were 2,884,279 tons (of 2,240 pounds) an increase of 144,062 tons, or 5.3 per cent. over 1892. The exports were made up as follows: Pig iron, 839,869 tons; rails, 558,826 tons; hoops, sheets and plates, 195,370 tons; bars, angles and rods, 148,931 tons; iron, cast or wrought, 280,578 tons; steel unwrought, 169,764 tons; timplates, 379,233 tons; wire, 37,137 tons; old iron, 118,551 tons; manufactures of iron and steel, 18,531 tons. Imports of iron and steel in 1893 were 297,773 tons, a decrease of 3,584 tons or 1.1 per cent. from 1892. The imports of iron ore in 1893 were 4,065,863 tons, being 287,210 tons or 7.6 per cent. greater than in 1892.—*Engineering and Mining Journal.*
