like cheese, meat, animal hides, live birds, plants and fruit. These items may carry pests and diseases, and pose a risk to human health.

Foreign pests and diseases could destroy Canada's crops and forests and wipe out our livestock, thus threatening our ability to produce food and a multi-billion-dollar export trade critical to Canada's economic well-being.

We need to protect our country. Canadian law says you must declare all plant and animal products you bring back. It restricts and prohibits the entry of products that could harm Canada's agriculture and forestry or pose a danger to human health and safety. To enforce these laws, we have Canadian inspectors with dogs trained to sniff out plant and animal products.

Before you leave Canada, visit the Canadian Food Inspection Agency's Web site (http://www.cfiaacia.agr.ca) or call one of its Import Service Centres (ISC) for more information:
