THESE little Volumes are published in this convenient shape with the view of bringing forward a uniform edition of Modern Discoveries, made in consequence of the voyages and travels which have been undertaken since the conclusion of the War, under the sanction of the British Government. They will be found to present an uninterrupted narrative of each Voyage or Travels, and always in the Author's own words. In all such works, and more especially in those which were undertaken for the specific purpose of geographical discovery and scientific research, many details will necessarily be found, which are indispensable to the establishment and promotion of
