horses in fine shape for exhibiting. These include Crow and Murray, Col. Pellatt, the Cumberland stables, Jos. Kilgour and the Jones stables of Ottawa.

Milch Cows.

Milch Cows.

Milch cows are being exhibited in great numbers. B. H. Bull and Son of Brampton, as usual, have a very fine stable in Jersey cattle. For the purpose of the Exhibition Mr. Bull imported 40 beautiful Jerseys direct from Jersey, Channel Islands. For one milch cow alone he paid the high price of \$750. Sir William Mackenzie also has a goodly number of Jersey stock at the show.

Friday afternoon will be a banner session for the stock breeders when prizes are to be distributed to the winners of all classes of stock.

Indicative of the increasing tendency towards scientific farming and stock breeding which is noticeable in Ontario today, is the fact that the Canadian Live Stock Association has placed a large open air tent near the stock breeders' show ring at the Exhibition for the purpose of demon-

William Banks, sr., theatrical censor,

mr. J. Muhroe, press agent for the Exhibition, but found nothing out of the way on which to exercise censorship. In fact, Mr. Banks is of the opinion that the class of shows on exhibition this year is of a much higher standard than heretofore.

Only in one instance was it necessary to make any changes, and that in the case of photographs of diving girls in the act of doing one of their various performances. At the suggestion of Staff Sergeant McKenney of the morality department, Manager Quincy removed one or two, but remarked that worse pictures were on exhibit in the art gallery.

As was ordered last year, the diving girls on the front of the big screen on the show are covered from the waist down.

Convener and her associates had given of their time for many days before the public. We stood in front of cases plethoric with prettiness and patience, the many articles of women's designing stamped with daintiness and speaking loudity of the infinite care and devotion given their production.

Can't Be Beaten.

"Our household linen can't be beat," said our guide. "I woludn't try to judge it, for overything here ought to might dispute the statement. Linen sheets with borders and monograms embroidered with true artistic skill, table covers, d'oylies, towels, centrepieces, all of the same high grade workmanship were here.

Gordon's Star Attractions.

By request of the management you

There is a library section, where the handsomest display of table control which he has filled with much ability for the past seven years.

taste and skill in all handicrafts to art. which women apply themselves have advanced perceptibly during the past

twelve months.

advanced perceptions during the bast twelve months.

For Baby.

One of the spots which was particularly noticeable was the part devoted to the necessities and luxuries of the baby. The baby is truly king when the making of pretty clothes is concerned. Beautiful embroidered and lace inserted robes, button-stitched linens, pretty bonnets and caps, soft confersed and lovely bits of bows and color wherever they could be introduced. And then "Baby's Basket!"

What beauties—so saft and dainty, of pink and blue, with lace bordered pockets, filled with just the things baby wants, all laid out most invitingly. The baby exhibit is an object lesson from which the thousands who love comfort and beauty may take pattern.

Most ingenious are two cradies of bullrushes, in which sleeping doll babies are secreted. The program ask-

Mrs. Shorley, 859 Shaw street, are here again this year, with work de-

Hand-painted china has become women's industries that disappoint-ment would be felt if a large assort-

and gold monogram work. Two young ladies, Miss T. Rease and Miss J. Hills, experts from the School of Domestic Science, were busy putting their finishing touches to judgments on the children's display in the culinary line. They had tasted and culinary line. They had tasted and touched so many specimens of pickles, fruits, bread, biscuits and cakes that one would imagine all sense of the faculties by which they performed those functions would be destroyed. But no; experts know how to recuperate and "go at it again,"

Cushions in every variety of color, stitch and design, bedspreads and rugs were in profusion. One spread of knitted lace, alternating with stripes of linen, was truly a thing of Bro. Alexander Stewart of this city was published yesterday, the name of Bro. Alexander Stewart of this city was milted. Mr. Stewart was unanimously re-elected to the office in the high court; which he has filled with much ability for the past seven years.

There is a library section, where the handsomest display of table centres conceivable is shown. Viewing the glowing roses and foliage on the gray or tan foundations, one could imagine the glint of the colors set out by the lamps of many a cosy reading nook. Next year there will be a drawing-room section for table centres to allow more variety in style.

In the report of the meeting of the Cushions in every variety of color, stitch and design, bedspreads and rugs were in profusion. One spread of knitted lace, alternating with was a remark that drew one's attention to a number of various sized articles rolled in gray linen covers, embraced in brown and finished with pretty brown ribbon frills. They form the handsomest display of table contres conceivable is shown. Viewing the glowing roses and foliage on the gray or tan foundations, one could imagine the glint of the colors section for table be a drawing-room section for table centres to allow more variety in style less.

Solvely miny things that passed thru their hands this year were by far "the best yet."

"There's nothing else here like this," of kitted tace, alternating with us once more the famous Gordon attractions. By request of the management you will find with us once more the famous Gordon attractions. Their reputation of eleven years' standing at the greatest rolled in brown and finished with pretty brown ribbon frills. They form the handsomest display of table to the handsomest display

carved trays and cases, books in beau-tiful bindings, with many other choice things, are shown from the women's art.

Courtesy is shown the ladies and chil-dren, and we can truly say that your visit to the Midway is not complete unless you do patronize the Gordon attractions.

S. P. Pedrick, sales manager, and
A. E. Koeppe, factory manager, are
there to receive orders for shipments
for Frozen Mints, as they are called.

An Interesting Barn.

The steal trussed Acorn Ideal Barn, which has been erected on the Toronto Exhibition grounds adjoining the cattle sheds by the Metal Shingle and Siding Company, Limited, of Preston, Ont., should prove of great interest to the farmers of Canada as well as the barn framers. With this new construction it is possible to supply the material and erect a barn complete with a half dozen men in a very few days, and when erected a building is provided which would prove to be superior in every respect to the crdinary type of barn, as the roof and sides are of galvanized metal, which will keep the building from being struck with lightning.

HERE'S A PLACE TO SEE REAL CATS

Best Show of Tabbies He Has Ever Seen, Declares American Expert.

SOME FROM SCOTLAND

Hearthside Friends Sleep, Eat and Have Their Being at Exhibition Hall.

"It is the best show I ever attended and I'm coming back next year," said Wallace C. Capen of St. Louis, whose beautiful ore use champion. Ronald-kirk Vice Admiral, won his class at the twelfth international cat show in the dog and cat building. The show opened yesterday morning and judging was completed by four o'clock in the afternoon, except for a few classes in which some of the entries expected from the United States failed to arrive on schedule time.

The quality of the entries this year surpasses those of any former exhibition is the opinion of Mrs. Reynolds, president of the Royal Canadian Cat Club, which organization is annually at the back of Toronto's show. There are not so many entries, but a greater proportion are highly bred cats, imported specially for the show.

One of the special features of this year's show is a Royal Siamese gray and white from New York. His eyes are the most delicate shade of pale watery blue, and in recognition of this fact the cage is completely draped in silk, matching the eyes of the furry beauty. Miss Shamon's shaded silvers from Ayr and "Rahman." Mrs. Hewitt's black male from the Rahmandale cattery and the orange entries from the same establishment attract a deal of notice.

The Mount Denis cattery has provided three entrics from Scotland. Two of them. "Scottie" and "Purity," are descended from ex-Champion Whitefriar of the Crystal Palace, London Champion Kunka Jou from Boston is among the entries that have yet to meet defeat in a show "Fluff," the brown female tabby exhibited by Mrs. Reynolds, and the Dempsey entry from Chicago are noticeable among the rows and rows of cats that occupy down cushions and try to sleep during the afternoon heat.

But about all the average man knows about it is that they are all cats and that some of them like to be stroked behind the ears, while others resent it. Occasionally a kitten is found who is willing to play, and that cage is a magnet for all the children is found who is willing to play, and that cage is a magnet for all the children for the children grow tired of poking fingers thru the bars from the inside or outside as the case may be.

Family Groups.

Several cages contain family groups, a mother watching over her litter of fluffy youngsters, but the majority of the entries are single. Over two hundred cats in all have quarters in the building, and in some cases it took quite a time for the judges to reach a decision that would be fair from every viewpoint.

The Results.

The results to date follow: Family Groups.

Long-hair class, eligible for championship.

Blue-eyed white, male, open—1, Thomas Paterson, Saladin; 2, Miss J. A. Whitney, Kliravock White Lamkin.
