Canadian Associated Press Cable. LONDON, Oct. 19.-Two deaths were reported in the Canadian contingent today . Private W. H. Hartlet, C Company, 14th Battalion, Montreal, died suddenly today during the journey to Salisbury, his death being probably due to heart failure. Private James Nichols, reservist of the West Yorkshire Regiment, traveling home with the contingent, died aboard the Ivernia on Oct. 14, his death also being due to natural

The tail of the long chain of transports from Plymouth, despite five days' and nights' strenuous work, has not yet reached Salisbury plain. As an illustration, the work involved the unshipping of such a quantity of men and material that in fact the contents of the fourteenth trans port only reached their quarters yesterday.

Col. Sam Hughes visited the camp yesterday. General Alderson, appointed by the war office to command the contingent, took up his quarters today. The weather continues perfect and everyone is in the best

Unless all indications prove futile the German advance along the coast to Dunkirk is effectively checked. Reports from Dunkirk early this morning stated that the sound of heavy fighting from the sea was plainly audible. It is believed certain that British naval forces are cothis zone. ARMI IS IN A BAD WAI SARAJEVO IS ENVELUED

The official communique of the French War Office this afternoon said: "In Belgium the heavy artillery of the enemy has cannonaded, but without result, the front from Nieuport to Vladsloo, to the east of "The forces of the allies, and notably the Belgian army, have not

only repulsed further attacks on the part of the Germans, but have advanced as far as Roulers. "On our left wing, between the River Lys and the canal of La Bassee, we have advanced in the direction of Lille. There has been

very stubborn fighting on the front from La Bassee to Albain and St. Nazaire. We are advancing from house to house in these localities. "To the north and to the south of Arras our troops have been fighting without respite for more than ten days, and with a perseverance and a spirit which never for a moment has been relaxed.

"In the region of Chaulnes we have repulsed a strong counter attack delivered by the enemy and have won some ground.

"On the centre there is nothing to report. "On our right wing, in Alsace, to the west of Colmar, our advance posts are on the line between Bonhomme, Pairis and Sulzern. To the south we still occupy Thann."

GERMAN REINFORCEMENTS.

German reinforcements have been brought up at all points along the right wing of the invaders' army, which now stretches from the Belgian coast to the elbow at Roye, where the line turns directly eastward and runs in the general direction of Metz. These reinforcements are variously estimated at 300,000 to 400,000 men. Some reports even place the number of fresh troops at 1,000,000 men of all arms, but the latter figures are believed exorbitant. It is known that they are drawn from the Landsturm exclusively.

Advices from Belgium declare that Ostend, Bruges and Blanken-

berghe are held by the smallest of garrisons, and that thruout the constant cannonading Poland is a barren waste for the most part and conditions are largely primitive. Wolves in great packs range the country in the long dreary winters. These have already begin to hang on the dealer of the Country in the Country in

With the capture of Armentieres yesterday and the fall of Lille today to the allied armies there can be no question that operations in northern France have received a new impetus and are inclining steadily to the side of the French and British. It is significant that at every point counter attacks by the Germans have uniformly failed to accomplish their purpose. That the kaiser is stubbornly sacrificing many lives

to maintain an untenable position yet a little longer seems apparent. From La Bassee and Albain to St. Nazaire the allies are waging a terrible hand-to-hand conflict with the Germans, the fighting having resolved into an individual contest for supremacy. Every hedge, house and overturned wagon is a new fortress, and as the Germans fall back

they take a heavy toll of their pursuers.

At Chaulnes the allied artillery almost decimated the German lumns participating in a frontal counter attack, the advantage being
