Four copies were ordered by each of the following Government Departments :

 Marine and Fisheries. Three copies each (elegantly bound) by

The Marquis of Lansdowne, ex-Governor-General

Copies have been delivered to the Emigration Agents in Liverpool, Glasgow,

 Britain and Canada.

From the Queen to the humblest mechanic Toronto has become familiar "as  
 a household word," and by thousands who had not even heard of it, and others  
 who did not know whether it was in Canada or the United States.

An elegantly bound copy, for which the City Council paid, through  
 ex-Alderman Steiner, was presented to Prince Bismarck personally by Gerhard  
 Heintzman, Esq.

Twelve copies were presented to the British press representatives who  
 visited Toronto in 1893.
