A. R. MacMaster (Brome) argued that hereditary titles are unpopular thruout the Dominion. He said that no matter what section of the country you visit, you would find the tide of feeling strongly against them. Especially in the west were they unpopular. The Premier. Sir Robert Borden remarked that it by no means followed the abolition of hereditary titles would do away with plutocracy. "I venture to think," he said, "that any man in the United Kingdom, whether he be peer or commoner, is taken there in public estimation at his true worth as thoroly as he is in any other country in the world."

Sir Robert could not agree that there was a greater desire for dis-Canada than existed in the United Kingdom. As to the desire of ladies for social success. Sir Robert had not heard that it had exercised any influence upon the granting of distinctions in Canada. The prime minister thought that it

was the desire of every man in Can-ada to be measured by his own worth, rather than by that of his ancestors. Still, on the other hand, the pride in descent from a good stock was an incentive and would make a man desire to be worthy of the record of his ancestors. As to charges of corruption, so far as Canada was concerned, Sir Robert, declared had never heard it suggested under any government there had-been any evil of that kind, and he did not believe there was the slightest probability of any such evil arising.

closely upon the prerogative of the crown. The functions of the crown were distinct from those of the government, and had been defined various authorities. With respect to the exercise of this particular prerogative, Sir Robert went on to tell how the list of names of those entitled to honors was forwarded from the Dominion to the British Government. The procedure had been the same for the last 25 years. This list, the premier said, was made out by the gov-
