

## COLD AND PAIN IN THE LUNGS CURED.

ASHLAND, Wis., Nov. 21, 1885.

DR. RADWAY—*Dear Sir* : For a long time I intended to write to you a few lines lauding your Sarsaparillian Resolvent. Eighteen years ago I recommended this remedy to a Dr. Zimmerman, of Owatonna, Minn., an old friend of mine, and told him that there was no better medicine against Cold and Pain in the Lungs. He tried it and then thanked me very much, saying also that there could not be a better one in those cases mentioned, and now recommends it to his patients. I also recommended your medicines to Mr. Bixby, druggist in Owatonna, and upon my request he has taken some in stock. In Appleton, Wis., I met a young married man who had a bad cough, and they were fearing for consumption. I recommended your Sarsaparillian Resolvent, and some time later I saw him fresh and healthy; he pressed my hand warmly, and said that if I had not been he would have been buried now; it cured him very quick. Some sixteen years ago (in Duluth) a man came to me telling me that his wife was dying on account of coughing; he had tried two doctors, but without result. I got your Sarsaparillian and a few days after she was all right. When children cough one dose is sufficient to stop it. I again express my astonishment over this medicine, and I can only counsel everyone to keep it in the house; it prevents in many cases a severe sickness, etc.

Yours truly,

F. KRUSCHKE.

## BRONCHITIS, COUGHS, DIPHTHERIA,

And all Pulmonary Diseases Cured by Radway's Sarsaparillian Resolvent.

Few persons but are troubled, more or less with difficulty of raising Phlegm, a thick humor or matter, deposited from the blood, that obstructs the air passages and glands of the Bronchia, etc. The accumulation of this matter leads to Ulceration, Tubercles and Consumption, and the patient suffers great distress until it is removed. One teaspoonful of the Resolvent will loosen the Phlegm and enable the patient to expectorate with ease. Every person troubled with Cough, Bronchitis, Catarrh, Tightness of the Chest, Phlegm, Inflammation of the Lungs, Congestion, etc., should take a teaspoonful of the Sarsaparillian at once, and rub the chest with Radway's Ready Relief. If the cough is constant, take the Resolvent regularly—three or four times a day—or whenever a fit of spasmodic cough seizes you.

## CONSUMPTION, NIGHT SWEATS AND HOARSENESS CURED.

SAVANNAH, GA., May 31, 1880.

DR. RADWAY & Co.—*Dear Sirs* : In the year 1867 I was for six or eight months in bad health from various causes. I thought several times I had consumption if I had let it run on longer. I could taste blood every time that I coughed, and I tried all the cough syrups I could hear of, and I had the doctors to mix me up several remedies, but none of them did any good. Every night I had night sweats, with a pain in my breast. I got one bottle of your Resolvent, and I tell you the difference it made in me, it is no use for me to try to write it. I am most ready to say it cured me, but my blood was in a bad condition and I took several of them since that time. I asked a friend "what are you whispering about?" He said: "I have not spoke a loud word in two weeks." I told him to get one bottle of Radway's Resolvent and take about six or eight times a day about one teaspoonful at a time, just enough to keep the glands of the throat wet, and a dessert spoonful on going to bed. It made him talk aloud in one day. It is no use for me to try to explain the virtue of your medicines. About two weeks ago I bought six bottles. I am now taking it. I can sleep good and I feel all right. I always take it in the spring of the year to keep my blood right. So I will come to a close.

Respectfully yours,

JAMES S. FOY, Savannah, Ga.
