Mayor Shaw and His Controllers Begin to Operate in Secret

Property Committee Would Fit Out the New City Hall on the Cheap -News in Civic Circles.

The Roard of Control, after its public conclave of Wednesday, met under cover of the Mayor's sweat-box, and issued addition. al instructions to the City Engineer with respect to Street Railway reform. Mr. Rust as to order the Street Railway Company to put on the most up-to-date rolling stock on all its lines. Controller Lynd, for one, De

on all its lines. Controller Lynd, for one, is not in a mood to be sympathetic with a company which, he says, pays four percent. on \$6,000,000 of watered stock, and on stock owned in the Brovince of Quebec. It is now understood, he said, that Milliam McKenzie has but a small interest in the company at all.

No Settled Polley re Hall.

The Property Committee sways back and forth between two moods on City Hall affairs. It goes the limit both ways, it selther economical to an extreme in this, the interested, or else it says, "make interest in keeping with the luxurious, imposing facades. Yesterday-they endorse cheap locks and 75 cent blinds, blinds that they would not put on a cordurory road concession school house. Fancy \$4.25 carpets and 75 cent blinds, blinds bart they would not put on a cordurory road concession school house. Fancy \$4.25 carpets and 75 cent blinds, blinds bart they would not put on a cordurory road concession school house. Fancy \$4.25 carpets and 75 cent blinds, blinds yary from 6x10 feet to 4x10 feet. They can get Venettan blinds (according to tender) for less than \$1500. The cheap variety cost \$775. Ten thousand dollars to fit up the City Trensurer's offices with plate-glass and cok and only \$775 for 1000 windows. This looks an absurdity. It is a reminder of Falstaff's 'hall-peninyworth of bread to an intolerable deal of sack." It is but an evidence of the fact that the committee is cananging with every mood. They are not adopting any fixed principle of either rigid economy, a generos.ty in keeping with the past, or a well-defined medium. It they adopt the past, or a well-defined medium. It they adopt some one of these general lines it will save endless janglings. If they don't they and their building will look absurd. The Board of Control will probably insist upon respectable blinds; at least at the front or on the bottom floor.

As another proof of their economical scrak of yesterday, they hastened to shut down on the architect's proposal for a Xale good of the conditions and property and

required to put the city in occupation of the building with all work finished.

Oak or Iron.

The committee were equally at sea about the vault fittings for the departments. They had their choice of pine, Canadian oak at a ten per cent, additional cost, and metallic at a cost exceeding by 75 per cent the oak. But it was between oak and iron. Oak would cost \$2000 and iron \$6000, \$\textit{ghe}\$ the advantage in iron would be less space taken up by partitions and less wear and tear of books. Ald. Samp metallic at they must prepare their plans for the office fittings forthwith or be satisfied with the fittings at the old hall.

Insurance Companies Which Were Hit in the Oddfellows' Building. Hit in the Oddfellows' Building.

Kingston, Ont., Jan. 26.—In the fire last night the following lodges, which had their place of meeting in the third storey, suffered: Kingston Lodge, LOO.F., 'Prentice Boys, Home Circle, Chosen Friends, A.O. U.W. No. 91, Maccabees, Daughters of Rebekah, Companions of the Forest, Kingston Encampunent, Kingston Canton and the Recreation Club. The paraphernalia of the different lodges was a total loss.

The block was insured as follows: Atlas, \$4000; National, \$2600; Manchester, \$7209; Northern, \$4000; The London Assurance, \$2000. Total, \$19,800.

Vincent Ockley's grocery and crockery \$2000. Total, \$19,800.

Vincent Ockley's grocery and crockery stores carried the following risks: Atlas \$2,600, Phoenix \$200, Royal \$2000, London Assurance \$2000. The upper storey is almost a total loss, but the lower one appears to have suffered little damage, save by smoke and water. His loss will, however, be fully covered by insurance.

The vault of the Oddfellows' Relief Association in the burned building was opened to-night. The books, securities and documents were intact and undamaged.

The Golden Cache Fiasco.

The Vancouver correspondent of The London, Eng., Mining Journal writes to his paper of the Golden Cache fiasco as follows:

The alleged deliberate concealment of adverse expert reports by certain directors of this company, who by so doing secured big sums from trusting English and other investors, amounts to a grave scandal. Public opinion here holds that the case should be investigated by the courts. Several menhave notoriously made big sums in this case by "carrolling" the English investor, and there would seem to be ample evidence available to justify the making of a strenuous effort to compel restitution or inflict penalties. The local press has been full of the strongest denunciations of those concerned. One man comes very well out of the matter—Mr. Macfarlane—a capable Vancouver mining engineer and assayer. He reported very strongly against the mine some two years ago, but his frank and honest report, though sent to the company and received by it, was withheld from publication until quite recently. Meanwhile, Mr. Macfarlane suffered much professionally, imputations being freely cast on his competency, which competency the final outcome of events has abundantly proved, as also his problty. He was subjected—as men in Vancouver know—to the strongest temptations to speak well of a mine, which, when his probity. He was subjected—as men in Vancouver know—to the strongest temptations to speak well of a mine, which, when he made his report, all connected with the undertaking "boomed" as one of the best investments in British Columbia. Mr. Hall of Golden Star.

Mr. Lewis Hall, son of Mr. Lewis A. Hall of New York, the chief stockholder in the Golden Star, arrived in the city yesterday from Niagara Falls. He tharakterizes as accurate The World's statements regarding the mine yesterday morning and reports that \$35 ore has been unearthed in the lower workings. He also says that besides the buillon got on the plates, the company has on hand 15 tons of concentrates, going \$220 to \$230 to the ton.

We be to call the attention of investors to the Dundee mine, in the above camp, which is rapidly forcing ahead, and is now one of the leading mines in the country. Frank Robbins, M.E. a leading mining expert of London, Eng., who was brought out by the management to make a report last fall, says, in summing up: "There is every prospect that not only have you a good mine, but a strong probability of your having a grear one," and this latter prediction is proving correct.
