NEW STRAW SAILORS

HEY'RE going to be the only thing this summer. They're the only thing to-day in New York - and you know that city dictates for America.

We have specially rushed to Toronto fifty cases of these Sailors, in smooth and rough straw effects, in all new designs. Three

Had there not been diseased conditions in the body politic of Ontario, said the pastor, there would never have been thrown to the surface such a putrid mass of evidence as had been revealed in this case. As soon as the charges were made the attitudes adopted were according to party interests.

How to Furnish a Seven-Roomed House at Simpson's for \$500.00.

Parlor, dining-room, kitchen, vestibule, hallway, stairs, landing, front bedroom, second bedroom, sewing room and bath room furnished complete for \$500.

SPECIAL DISCOUNTS TUESDAY.

June, the month of brides and roses, the month which launches so many hopeful young housekeepers into the mysteries of housekeeping. June is here to-day, and we inaugurate its arrival by a great effort to impress upon all those who are going to furnish houses this month that at Simpson's money goes furthest. The burden of the story to-day is that we can furnish a nice cosy little house tastefully, comfortably and well for \$500. Of course you may want a simpler house to begin with, which wouldn't cost so much, or you may very easily have planned a much larger expenditure. The point is that a \$500 house will give you a splendid foundation to go by. You may get an accurate idea from this little model house we describe to-day of what the one you have in your own mind would cost you at this economical store. Those whose plans just about fall into line with the average figure we quote-\$500will find it of much greater saving if they will follow the programme as we have laid it out for Tuesday. Tuesday we have grouped special values in every department contributing to the furnishing of a house, and while of course we will vary the details to suit the purchaser, the exchanges must necessarily be at regular prices.
