Onslow Blg Loss.

The announcement of the signing of Eddie Onslow by the Cleveland club as utility player was another knockout for the Toronto club. Manager Howley stated that he was not surprised at the news, as he had wired Onslow that he would meet him yesterday in Buffalo, but on his arrival there he was told that the former Providence player had gone to Cleveland on baseball business. The Toronto club bought Onslow from Providence only last week, and, according to Howley, paid a good sum for the player. Onslow evidently believed that he was a free agent when he signed the

The Dominion Rubber System - with its factories, warehouses and branches - is easily the largest manufacturer and distributor of CANADIAN MADE TIRES

Every portion of the process of manufacture - from purifying the crude rubber, which now comes to us from our own rubber plantations in the East Indies, to the final inspection of the completed tire—is carried out in CANADIAN FACTORIES BY CANADIAN WORKMEN. More than this,

EVERY "DOMINION" TIRE IS MADE IN CANADA

Our leadership is due to the Tires themselves. Their quality has built up their nation-wide popularity.

And to think that only four years ago-in February, 1914-our first DOMINION Tire was made! Surely our achievement to leadership in four years is a record that any Canadian industry might well feel proud of.

# Hurry, America! Hurry! All Depends Upon You!

The enemy has definitely decided to win the war this year and "the fate of the Empire, the fate of Europe, and the fate of liberty throughout the world" may depend upon the ability of the Allies, and especially of the United States, to feed fresh man-power to the firing line during the next seven or eight months. Already troop-movement to France has been increased threefold in a few weeks, according to an Associated Press dispatch from Washington, and at the same time the records show a falling off in the effectiveness of Germany's U-boat campaign.

Because of the immediate emergency in France, United States battalions will be brigaded with British and French divisions, "one of the most important decisions of the war," declared Lloyd George, "in fact, the issue of the battle might very well be determined by it.'

He kicked himself out of big league company to go home and figure it out. He had tried under all sorts of coaching which didn't seem to help any. After communing with himself and the ball he decided that he had mastered the difficulty and asked Joe Tinker to give him a trial last year. Joe took him on and finished his Columbus season with the best pitcher outsed by league circles. Lowdermik seemed to have arrived after 10 years of endeavor. A shining example of the results of persistency, one might say.

Lowdermik is past 30 years of age. He has dashed in and out of big league gompany, lack of control always relegating him to the minors when he looked every inch a great pitcher. He had everything a great heaver ought to have except the one essential of putting the ball over the plate. An iron main, willing to work any time called upon and any number of innings tireless, and with all the gameness in the world, he couldn't locate the piate. Now he thinks he has solved the problem. It will be interesting to watch his work with the Browns, and Sox fans are likely to have an early opportunity to do so.
