

## BLACK'S TEAM WON EASILY IN BOWLING TOURNAMENT

North End Bowlers Hold the Balke Colendar International Trophy for Another Year—Some Good Games

The Black's alley team again established their right to the New Brunswick and Maine bowling championship yesterday and made good their hold on the Balke Colendar International trophy for another year. The tournament lasted all day yesterday and interest was keen at all times, the day the alleys were crowded with spectators.

M. Law, of the Victoria alley team, won the prize for the highest single strike, rolling 115. F. Cogrove, of the Black's alley team, came first with the best general average, 84.9, for the day's play. The games were:

In the first game yesterday morning the Black's alley team defeated the Marathons by a score of 121 to 120, taking three points as one for the Marathons. The scores were:

Black's Alley Team.	
M. Law	115
F. Cogrove	84.9
C. Lunney	84.9
M. P. Black	84.9

In the afternoon match the Victoria alley team defeated the Marathons by a score of 121 to 120, taking three points as one for the Marathons. The scores were:

Victoria Alley Team.	
M. Law	115
F. Cogrove	84.9
C. Lunney	84.9
M. P. Black	84.9

In the second game yesterday morning the Black's alley team defeated the Victoria alley team by a score of 121 to 120, taking three points as one for the Victoria alley team. The scores were:

Black's Alley Team.	
M. Law	115
F. Cogrove	84.9
C. Lunney	84.9
M. P. Black	84.9

In the afternoon match the Victoria alley team defeated the Black's alley team by a score of 121 to 120, taking three points as one for the Victoria alley team. The scores were:

Victoria Alley Team.	
M. Law	115
F. Cogrove	84.9
C. Lunney	84.9
M. P. Black	84.9

In the afternoon match the Victoria alley team defeated the Black's alley team by a score of 121 to 120, taking three points as one for the Victoria alley team. The scores were:

Victoria Alley Team.	
M. Law	115
F. Cogrove	84.9
C. Lunney	84.9
M. P. Black	84.9

In the afternoon match the Victoria alley team defeated the Black's alley team by a score of 121 to 120, taking three points as one for the Victoria alley team. The scores were:

Victoria Alley Team.	
M. Law	115
F. Cogrove	84.9
C. Lunney	84.9
M. P. Black	84.9

In the afternoon match the Victoria alley team defeated the Black's alley team by a score of 121 to 120, taking three points as one for the Victoria alley team. The scores were:

Victoria Alley Team.	
M. Law	115
F. Cogrove	84.9
C. Lunney	84.9
M. P. Black	84.9

## RELATION OF THE LIVER AND KIDNEYS

Functions Such That Each Suffers When the Other is Deranged

Complicated Cases Can Only Be Cured by Combined Treatment Such as Dr. Chase's Kidney-Liver Pills.

The liver filters poisons from the blood. The kidneys also filter poisons from the blood. When the liver becomes sluggish and does not act as a given too much work by over-acting, the kidneys have to help out with this work of filtration.

When the liver fails the kidneys have all this work to do. And this is exactly what causes nine-tenths of the cases of kidney diseases.

The beginning is biliousness, indigestion and constipation and after a time the kidneys begin to be affected and there comes a bad case of urinary derangements and finally kidney disease in some of its dreadfully painful and fatal forms.

Dr. Chase's Kidney-Liver Pills are the rational cure for kidney disease, just as they are the most successful, because they get at the cause of trouble and exert a combined and direct influence on liver, kidneys and bowels.

They promptly and thoroughly cleanse the bowels and back, urinary derangements and finally kidney disease in some of its dreadfully painful and fatal forms.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers of Edmondson, Bates & Co., Toronto.

## LANGVIN AND BEANSEY

"Budge" Langvin, who won the heavy-weight championship of the province of Quebec by knocking out George Simard in two rounds a few weeks ago, and Louis Beanseny will meet in a battle royal at Maisonneuve next Monday night.

Langvin will have a big advantage in weight, but he is not as clever as Beanseny. The bout is hardly likely to go the limit, as they are both fighters, and those who follow the game expect to see it end in a knockout.

It appears to be the opinion of Montreal experts that Langvin will win, and many are hoping that he will succeed in knocking out Beanseny, who does not appear to be any too popular. They will meet at the Hotel de Ville, at 8 o'clock.

Langvin is a big, powerful fellow, and Beanseny is a smaller, but more agile fighter. The bout is expected to be a close one, and many are hoping to see a knockout.

## BUILDING AIRSHIPS TO SELL TO DOMINION GOVERNMENT

J. A. D. McCurdy Who Spent the Winter With the Silver Dart at Baddeck Expects to Build Aerodromes to Sell to Canada

(Toronto News.) "If any one spoke of a flying machine a few years ago it was thought he was a little wrong in his head, but now the airship is a fact." This statement was made by Mr. J. A. D. McCurdy, who is now visiting in the Alpha Kappa fraternity, and Mr. McCurdy should know of what he is speaking, for all winter he has been busy experimenting with his airships, and has, with the aid of the Silver Dart, made some notable flights.

It is an interesting story which Mr. McCurdy has to tell of this effort which has been made in Canada to advance the cause of science. It is a story marked by disappointment, but it is a story of the results obtained by the Canadian Experimental Society, organized by Dr. Alexander Bell, and Mr. McCurdy.

There was, for one of the members of the party was hurled to death while making a flight, yet in the end success came, and during the experiments, carried on at Baddeck, N. S., during the past winter, the success of the machine was assured.

Mr. McCurdy, a graduate of the School of Practical Science with the class of '07, joined the Experimental Society almost at once, and he has been working with Mr. Fred (Casey) Baldwin and four others. When he joined little success had been attained, but since then the members of the society have rectified many of the defects of their early machines until this winter they obtained what they believed a thoroughly successful machine.

The way the idea of this machine was created is simple in the extreme. To familiarize novices with floating in the air, and to give them the idea of balance, a machine known as a glider was used. This machine consisted of two horizontal planes, with a space left in the middle of the lower one in which a man could take his seat.

The party would give the machine a push off from the top of a hill, and it would sail down to the bottom, carrying the man safely with it.

Seeing how well this simple device worked, one of the members of the party conceived the idea of placing an engine in such a framework. This was tried, and although some difficulties were encountered, it was at last successful.

It was at once seen that this idea was feasible. Much attention was therefore given to perfecting the machine, and it was not long before it was ready for flight.

The machine was a simple one, but it was a success. It was a success in the eyes of the public, and it was a success in the eyes of the government.

The machine was a success. It was a success in the eyes of the public, and it was a success in the eyes of the government.

The machine was a success. It was a success in the eyes of the public, and it was a success in the eyes of the government.

## NEWS AND VIEWS OF SPORT

Data for the grand circuit long since have been made, and the various track managements are arranging all sorts of special features to please the expected crowds. At Detroit on September 9, the match between Dan Patch, 1.56, and Hein, 1.58, was a feature of the Michigan State fair in an effort to make new time for the route.

The world's race record for one mile is 2.00 held jointly by Star Pointer and Minor Heir. The last named horse made it last fall at Lexington when he beat The Bel, the wonderful grey horse who had won the mile in 2.00 at the same place.

Dan Patch was taken from racing before he showed ability to step that "set" in company with his own, but he has paced so many miles better than two minutes that it is thought that the pair can shade the two-minute mark on the track like that at the Michigan state fair grounds.

In 1877 Joe A. Devlin, Geo. Hall, W. H. Craver and A. H. Nichols, of the old Louisville club, were expelled from the National league for selling a game, and despite repeated efforts to secure reinstatement, they were never again permitted to play in organized baseball. This is the only record of baseball dishonesty.

Jack Johnson now says he has no intention of cancelling the match with Stanley Ketchel, set for October 12, at San Francisco, unless in the near future he is able to secure a positive agreement with Jeffries. The colored pugilist is in Chicago to fulfil a theatrical engagement.

It will fight Ketchel unless I can get something definite from Jeffries. If Jeffries would agree to meet me I would willingly forfeit the \$5,000 I have posted for appearance against Ketchel. But why take even a chance with all the greater honor and money in a match with Jeffries, for I would receive no credit for eating Ketchel that would really amount to anything.

"I will meet Jack O'Brien in a short bout. It means I am taking no chances and it looks like a pretty easy \$5000."

Tom Longboat, the famous Indian runner, has been at Welland House, in St. Catharines, Ont., for the purpose of taking baths and resting previous to going into training for his race with Shubb at Montreal, May 8. He is accompanied by Sol Mintz, who has assumed his management. They had a pleasant talk with Fred Martin, father of road-racing in that city, and Mintz also had a talk with Tom O'Leary, the local long-distance runner.

When asked what he thought of his chance of winning the race, Longboat replied that he was confident, and claimed that when the day of the race arrives he will be in perfect condition, ready to run one of the races of his life. He pointed out that he had covered the course in 1.24, whereas Shubb's time on Saturday was only 1.26.

Work on the Harvard Stadium, at Cambridge, has been begun by the Turner Construction Company of New York, and it is expected by the Athletic Association that the great structure will be completed by Class day. The workmen have been given instructions to in no way interfere with the athletic activities.

Of the new men Willis, Connolly, Teed, Smith (N.R.), McLean and Robison, a lot could be said. They are all good and competition to make the team will be strong. There are many others who have been unable to turn out as yet; but as the field is now in pretty good condition they will all be out and getting into training.

The team is very fortunate in having Baird as coach, and will no doubt under his instructions do better work.

Several small herds of English red deer will be imported for breeding purposes in Vancouver.

## ONE PUNCH FIXED MAHER

Philadelphia, April 28.—Peter Maher, the venerable Irish champion, met his Waterloo at the West End A. C. tonight, when he succumbed to Jack Fitzgerald, of West Philadelphia, in a battle royal.

Peter entered the ring with great confidence, but after a little preliminary work for the present bout, he felt that he was in a bad way. He felt that he was in a bad way.

Maher's showing was a disappointment to the crowd. He did not make any attempt to fight, and the first punch Fitzgerald landed settled him.

Pains of women, head pains, or any pain stopped in 20 minutes after the use of Dr. Chase's Pink Pills for Pale People.

Concern is frequently expressed as to the steady movement of remedies from the country. All sorts of remedies are suggested, but there must be a steady movement of remedies from the country.

With the introduction of improved methods and the larger use of machinery in agriculture there is bound to be, a diminution in the demand for farm labor. For the very reason that reduced the need of men for the country there must be increased demand in the towns and cities where the machinery of this and of other classes is made.

With the development of our manufacturing industries and the growth of our home and foreign trade, there must necessarily be a demand for both skilled and unskilled labor in our towns that must ever involve a drain upon our rural population. It is a matter of common acceptance that the boys and girls who come from the country to the cities are the ones who will be the backbone of our civilization.

Yorkton, Sask., will form a Boost club with a publicity commissioner to allure settlers.

A farmer living near Elmore, Sask., has two hundred acres of wheat seed.

Winnipeg Gallians have sent over \$30,000 to relatives at home this year.

To Be Dyspeptic Is To Be Miserable.

Dyspepsia is the prevailing malady of civilized life. It is largely due to gross errors in diet, over-eating, too free indulgence in stimulants and over-taxing the stomach with indigestible food, eating too rapidly without chewing the food sufficiently, indulging in hot bismuth, pastry, pickles, confectionery, etc.

Constipation, headache, heartburn, sour stomach, distress after eating, belching of wind, faintness, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, watery dyspeptic. Hardback Blood Bitters regulates the stomach, stimulates the secretion of the saliva and gastric juice to facilitate digestion, removes acidity, purifies the blood, and tones up the system to full health and vigor, and thereby cures dyspepsia and all its tributary diseases.

Mr. Amos Sawyer, Gold River, N.S., writes:—"I was greatly troubled with dyspepsia, and after trying several doctors to no effect, I commenced taking Hardback Blood Bitters and I think it is the best medicine there is for that complaint."

of the opposition to criticize to the best of their ability.

He contended to the people that this government had violated its pledges, and shown incompetence in financial affairs and that it was a "regular thing" to have an auditor general's report which would not state the true condition of the finances. It did not show the expenditures of last year by over \$100,000. The government in that regard were specially guilty, because they had started when they began in with a clean sheet. They were relieved of the expenditures of the previous government. There might have been some small amounts left over, for there always would be something held back. Some of the claims against 1908, he ventured to say, were held back until the auditor general's report was made.

A special expenditure for roads, amounting to \$8,772, was passed, as were expenditures for wharves, amounting to \$13,811. Subsidies for steam navigation, \$25,000, passed. Permanent bridge expenditures, \$172,718, passed.

Returns from the sale of game licenses showed \$34,068, and that \$1,8
