

School of Practical Science

TORONTO, = CANADA,

The Departments of Instruction are :

1. Civil Engineering (including Sanitary Engineering).
2. Mining Engineering.
3. Mechanical and Electrical Engineering.
4. Architecture.
5. Analytical and Applied Chemistry.

The regular course for the Diploma of the School, in each of the above departments, is three years in duration.

A Post-Graduate Course has been established, consisting almost entirely of laboratory work, which leads to the degree of B.A.Sc. in Toronto University.

Special Students are received in all departments.

The Session continues from October 1st to May 1st.

Summer schools for prospectors and miners are held at Sudbury and Rat Portage, and a winter school for the same class of students, but more complete in character, begins in January, at the School of Practical Science, Toronto.

An Engineering Laboratory has been added to the equipment of the School for the purpose of training the students in the experimental investigation of the Strength and Elasticity of Materials, the measurement of the Power and Efficiency of Machines, the applications of Steam and Water Power, and of Electricity. It is supplied with the necessary Testing Machines, Engines, Dynamos, Measuring Instruments and Standards.

For further information apply to the Secretary.

L. B. STEWART, D.T.S.
