

only those those having a claim on the church, and who give promise of sobriety and industry and well-doing. In this the District Visitors and the Scripture reader of the parish have given invaluable assistance. It will be found that the sum thus expended is by no means too large, and that it has given timely aid and comfort to many.

Extra Parochial.

THE HAVEN.

At the request of Matron and Management of the Haven I have conducted a service in this home every Tuesday evening at 7 p. m. The work is most hopeful, and many seem to have received a blessing through the simple exposition of the Gospel message.

I have also conducted, with the Rev. G. M. Wrong, a service in the residence of University College. This is now the fourth year that this devotional service has been held. Most of the students attend, and great interest is manifested.

I have also visited more or less regularly the Toronto General Hospital. Many of the poorer members of the congregation are, from time to time, confined there, and esteem the visit of an ordained clergyman.

D. HAGUE.
